Black Stripe Added To New Officer Garb

The Army has decided to modify the trim on the new green uniform, which becomes optional for off-duty wear after 1 Oct. 1957.

In the changes, to affect only officers' uniforms, a three-quarter inch width black braid stripe will replace a gold braid stripe on the sleeve cuffs and a one and one-half inch width black braid stripe will be added to the outside seams of the trousers.

The black braid trim is the only distinguishing feature between the officers' and enlisted men's uniforms.

General officers will wear a one and one-half inch black braid sleeve stripe and the trouser stripe will consist of two one-half inch wide black braid stripes spaced one-half inch apart on the outside seam.

CHESTER R. DAVIS, Army Assistant Secretary for Financial Management, stands with Lt. Gen. Robert N. Young, USA, Sixth Army Commander, at a special review in his honor at the Presidio of San Francisco.

Dept. Approves Army Staff Reorganization

Defense Secretary Charles E. Wilson has approved a plan by Army Secretary Wilber M. Brucker to reorganize the Army General Staff.

It will go into effect on 3 January.

The Defense Department was preparing to make an official announcement on the Army General Staff changes as THE JOURNAL went to press.

The new plan will provide for the equivalent of five Deputy Chiefs of Staff:

Personnel
Operations
Research and Development
Logistics
Comptroller

G-1 and G-3 will be eliminated, as was done last year with G-4 when the job of Deputy Chief of Staff for Logistics was created. It is possible that Maj. Gen. Donald P. Booth, USA, Assistant Chief of Staff, G-1, and Maj. Gen. Paul D. Harbins, USA, Assistant Chief of Staff, G-3,

SecDef Wilson May Intervene In Army-Air Force 'Copter Dispute

(Air Force Statement, Page 18; Text of Memorandum of Understanding, Page 2)

order that Army troops not use certain Air Force helicopters.

The "battlefield" controversy was bucked up to the Pentagon where Army Secretary Wilber M. Brucker and Air Force Secretary Donald A. Quarles worked out a closed-door compromise.

It appears likely that Secretary Wilson will intervene to prevent any repetition of the transport troubles which marked the opening phase of Exercise Sage Brush in the Ft. Polk, La., area. The controversy could reach the White House level for final decision.

In a nutshell, the problem is this: The Army considers helicopters to be like

—Continued on page 18

Research, Dispersal and Personnel Needed To Keep on Top, Says USAF Sec'y

"Incessant and expensive" research, an increasing degree of dispersal, and the retention of skilled personnel were listed by Air Force Secretary Donald A. Quarles as prime requirements to maintain the sort of Air Force we need.

Secretary Quarles told his audience at the National Press Club 18 Nov. in Washington, D. C. that his short time in office already has convinced him that the maintenance of skilled personnel

will probably be his principal problem.

Mr. Quarles declared that the numbers of weapons mean nothing unless we have the skilled people to operate them. "Today," he said, "we have those skilled people, but I must tell you that it is not easy to keep them, in the face of the inducements offered by industry, unless we look after them properly."

The recent increase in Service pay

"Arbitrary Ratio" Thwarts Medical Care; All Services Short Hundreds Of Doctors

The Army Medical Service, hit by an "arbitrary ratio" of doctors to troop strength, is "being forced to do the best it can with hundreds of medical officers less than the absolute minimum necessary to carry out its mission satisfactorily."

That sharp charge is made by Army Secretary Wilber M. Brucker, who pledges that "I will not rest until satisfactory solutions have been found."

The Secretary told the Society of Med-

ical Consultants at Walter Reed Army Medical Center on 21 Nov. that he considers current military medical problems, highlighted by the shortage and heavy loss of Regulars, "matters of the gravest importance to the over-all success of the Army's mission."

Earlier this month, Maj. Gen. Dan C. Ogle, Surgeon General of the Air Force, protested recent cuts in family medical care and asserted that "we in the mili-

USAREUR Aviators Meet To Discuss Logistical Support of Army Air Program

ARMY AVIATION LEADERS IN the recent USAREUR Air Transportation conference at Mannheim, Germany, attended by more than 90 officers from 40 different units in Germany, France, and Italy. The five aviation officials are (left to right) Maj. John F. Sullivan, chief, USAREUR aviation branch; Col. Harry K. Bayless, USAREUR G-3, operations section; Lt. Col. O. L. Lovett, office chief of transportation, Dept. of Army; Lt. Col. Austin J. McDermott, CO USAREUR Army Aircraft Supply Center; and Maj. Edward Nielson, USAREUR Signal Command.

USAREUR Army air authorities gathered at Mannheim, Germany, recently for a day-long conference devoted to studying all phases of logistical support of the USAREUR Army aviation program.

Ninety officers, all rated Army aviators representing 40 different organizations located throughout Germany, France, and Italy, attended the meeting in the Harvey Theater at Coleman Barracks.

The USAREUR Army Aircraft Supply Center Logistics Conference agenda included problems ranging from discussions of recent trends in USAREUR Army aviation and the Signal Corps role in the Army air program to briefings on questions of supply control and field service assistance.

Opening remarks at the conference were made by Col. Harry K. Bayless, USAREUR G-3, operations section, representing Brig. Gen. Benjamin F. Modisett, USAREUR transportation officer. General Modisett, originally slated to address the conference, was unable to attend. The conferees were also briefed by Lt. Col. Austin J. McDermott, Jr., CO of the Army Aircraft Service Center.

Other speakers included Lt. Col. O. L. Lovett, office of the chief of transportation, Dept. of the Army, Maj. John F. Sullivan, chief, USAREUR aviation branch, Maj. Edward Nielson, USAREUR signal command, Maj. Herman D. Greer, chief, UTAASC field service branch, Capt. Harry C. Davis, chief, UTAASC supply branch, and Capt. Corydon M. Eastwood, branch chief.

Aviation Enthusiasts Create New Interest In Army-AF Agreement On Use Of Planes

New interest has been focused in recent weeks on the three-year-old "Memorandum of Understanding" which established the current framework for the organization and operation of the Army's air arm.

Because of this interest—engendered by statements of top Army officials favoring an expanded air role for the Army—THE JOURNAL is herewith reprinting the text of the "Memorandum of Understanding Relating to Army Organic Aviation."

The agreement, dated 4 Nov. 1952, was signed by the then Secretaries and Chiefs of Staff of the Army and Air Force. It reads:

1. THE NATIONAL SECURITY ACT of 1947 as amended in 1949 provides in general the Army shall include land combat and service forces and such aviation and water transport as may be organic therein. It is the purpose of this memorandum to delineate in the foregoing quotation the phrase 'such aviation as may be organic therein,' in order to insure that the U. S. Army may employ aircraft necessary for its internal requirements in the conduct of operations on land, without infringement upon the functions assigned to the U. S. Air Force.

2. ARMY ORGANIC AVIATION will consist of aircraft primarily utilized by the Army within the Army combat zone as an integral part of its components for the purpose of expediting and improving ground combat and logistical procedures, subject, however, to the limitation that such aircraft will not duplicate the functions of the U. S. Air Force in providing the Army, by fixed-wing and rotary-wing type aircraft, close combat support, assault transport and other troop carrier airlift, aerial photography, tactical reconnaissance and interdiction of enemy land power and communications. Army organic aircraft are defined as fixed-wing utility or observation type aircraft with an empty weight of not to exceed 5,000 pounds and rotary-wing type aircraft, the total lift and propulsion of which are achieved solely

from rotors, designed and utilized for the performance of the following functions; and these functions shall be used by the Army exclusively as a basis for developing Army requirements for the procurement of Army aircraft.

a. AERIAL OBSERVATION to amplify and supplement other Army methods of observation for the purpose of locating, verifying and evaluating targets, adjusting fire, terrain study, or obtaining information on enemy forces not otherwise obtained by air reconnaissance agencies of the other Services; this includes limited aerial photography incident to these purposes.

b. Control of Army forces.

c. Command, liaison and courier missions pertinent to the combat zone and training therefor.

d. Aerial wire laying within the combat zone.

e. Transportation of Army supplies, equipment, personnel and small units within the combat zone.

f. Aeromedical evacuation within the combat zone, to include battlefield pick-up of casualties, their air transport to initial point of treatment and any subsequent move to hospital facilities within the combat zone.

g. Artillery and topographic survey.

3. ARMY ORGANIC AIRCRAFT will be used by the responsible Army commander as he considers necessary for the discharge of his military mission.

4. Army aircraft as defined in paragraph 2, above, may be utilized in peacetime operations and in training for the functions outlined in paragraph 2, above, as required by Army units and activities.

5. The weight limitation on Army fixed-wing aircraft will be subject to review by the Secretary of Defense upon request by the Secretary of the Army or the Secretary of the Air Force as required to keep this limitation realistic in the light of technical developments and assigned missions.

6. Consistent with one of its primary functions, furnishing logistical air support to the Army, the Air Force will pro-

vide by fixed-wing or rotary-wing aircraft the following airlift; and these functions shall be used by the Air Force exclusively as a basis for developing Air Force requirements for the procurement of Air Force aircraft:

a. Airlift of Army supplies, equipment, personnel and units from exterior points to points within the combat zone.

b. Airlift for the evacuation of personnel and materiel from the combat zone.

c. Airlift for the air movement of troops, supplies and equipment in the assault and subsequent phases of airborne operations.

d. Aeromedical evacuation for casualties from the initial point of treatment or point of subsequent hospitalization within the combat zone to points outside of the combat zone; and in airborne operations, the evacuation of all casualties from the objective area until such time as ground link-up is attained.

7. For the purpose of this memorandum, the term 'combat zone' shall be defined as follows:

THE COMBAT ZONE comprises that part of the theater of operations required for the conduct of war by the field forces. Its rear boundary is designated by the theater commander and is dependent upon the size of the forces assigned, the nature of the operations contemplated, the character of the lines of communications, the important terrain features, and the enemy capabilities. It may be divided for tactical control into Army group, field Army, Corps, and Division areas; each is controlled by the commander thereof. For the purposes of computing aircraft requirements, it is understood that the combat zone will normally be from 50 to 100 miles in depth.

8. The provisions of this agreement, the impact thereon on future developments, and any major problems incident to the interpretation thereof which may arise shall be made the subject of consultation between the Chiefs of Staff and the Secretaries of the two Services upon request.

9. The provisions of this memorandum are not intended to apply to convertiplane-type aircraft nor will this agreement be interpreted to prohibit the continuing research, development and testing of such aircraft for the Army.

10. This agreement supersedes the Memorandum of Understanding Between the Secretary of the Army and the Secretary of the Air Force, dated 2 October 1951. All regulations and agreements in conflict with the foregoing will be revised in accordance with the provisions of this memorandum. Nothing contained herein is intended to or shall be construed as modifying, altering or rescinding any of the assigned functions of the Armed Forces (The Key West Agreement, dated 21 April 1948).

New Arms Regulation

The Army has published a new and clarifying regulation on competitions in small arms.

Details of the new regulation are contained in AR 622-10.

MAJ. GEN. D. W. CANHAM, USA, Commanding General Ninth Field Army (Prov) (left), and Maj. Gen. Thomas L. Harrold, USA, III Corps Commander, leave III Corps War Room during SAGE BRUSH exercise somewhere in Louisiana.

Scientist Honored For "Coke Bottle" Air Shape

Richard Travis Whitcomb, a research scientist for the National Advisory Committee for Aeronautics, has been unanimously selected to receive the Collier Trophy Award for the "greatest achievement in aviation in 1954." Col. Thomas G. Lanphier, Jr., USAF-Res., president of the National Aeronautic Association, has announced.

The trophy marks the second recent major honor to an NACA scientist. Last week announcement was made of the award of the Wright Brothers Memorial Trophy to Dr. Hugh L. Dryden, Director of the NACA (see THE JOURNAL 19 Nov. page 2).

Mr. Whitcomb was chosen for the high award for his discovery and experimental verification of the "Area Rule," which has led to development of the so-called "coke bottle" or pinched waist design for increasing the performance of supersonic aircraft.

The citation called the Area Rule "A contribution to basic knowledge yielding significantly higher airplane speed and greater range with same power," and added:

"Powerful, Simple, Useful"

"Whitcomb's Area Rule is a powerful, simple and useful method of reducing greatly the sharp increase in wing drag heretofore associated with transonic flight.

"The use of Whitcomb's Area Rule in the design of supersonic aircraft greatly reduces the wing drag and makes possible:

"The rapid acceleration of aircraft through the transonic speed range;

"The attainment of supersonic speed with less power than heretofore required and consequent increase in range; and

"The attainment of supersonic speed by aircraft which otherwise would be limited to subsonic speed.

"As further evidence of the value of the Area Rule, it is currently being used in the design of all transonic and supersonic aircraft in the United States."

Founded in 1911

The Collier Trophy was founded in 1911 by the late Robert J. Collier. It will be presented to Mr. Whitcomb at the annual Wright Memorial Dinner in Washington, 17 Dec.

Mr. Whitcomb is assistant head of the 8-foot transonic tunnels section of the NACA's Langley Aeronautical Laboratory.

Committee Members

The Committee which voted this year's award was appointed by Colonel Lanphier, who also served as its chairman. Colonel Lanphier is vice president of Convair, a division of General Dynamics. The other members: John R. Allison, former President, Air Force Association; Miss Jacqueline Cochran, Frederick C. Crawford, Chairman of the Board, Thompson Products, Inc.; Lt. Gen. James H. Doolittle, USAF-Res., Vice President, Shell Oil Company; Donald W. Douglas, Jr., Vice-President - Military Relations, Douglas Aircraft Co.; William R. Enyart, President, Simmonds Aerocessories, Inc.; Fred Hamlin, President, Aero Club of Washington; Vern Haugland, Aviation Editor of the Associated Press and President, Aviation Writers Association; Representative Carl Hinshaw (R-Calif.); Dr. Jerome Hunsaker, Chairman, National Advisory Committee for Aeronautics; S. Paul Johnston, Director, Institute of the Aeronautical Sciences; Fred B. Lee, Administrator, Civil Aeronautics Administration; VAdm. Thomas S. Combs, Deputy Chief of Naval Operations, Air; Harold L. Pearson, President, Air Transport Association; Admiral DeWitt C. Ramsey, USN (Ret.), President, Aircraft Industries Association; C. R. Smith, President, American Airlines; General Carl A. Spaatz, USAF (Ret.), Chairman of the Board, Civil Air Patrol; Dr. John F. Victory, Executive Secretary, National Advisory Committee for Aeronautics; General Thomas D. White, USAF, Vice Chief of Staff, USAF; Committee Secretary, C. S. Logsdon, National Aeronautic Association.

18th AF Air Evac. Gp. Flies Sage Brush Casualties; First Tactical Task of C-123s

The Air Force's new C-123 assault transports are flying their first tactical missions on Exercise Sage Brush, air evacuating Army casualties from various frontline airstrips in the Louisiana maneuver area to Barksdale AFB, La.

"The C-123s are from the 309th Troop Carrier Group of Ardmore AFB, Okla.," said Maj. Gen. Chester E. McCarty, USAF, 18th Air Force Commander who has set up an advanced headquarters at Fort Polk, La., to furnish airlift for both sides in the Sage Brush war. "The 309th Group was formed in July of this year, and the outfit is still in the process of receiving and training with the newly manufactured C-123s."

General McCarty said the C-123s are now flying two scheduled air evac missions daily, and that additional missions will be added as the number of casualties dictates. During the active phases of Sage Brush, this will be stepped up considerably.

"The 18th Air Force has an unlimited capability for evacuating patients," he said, "since all of our 400 transport aircraft can be used for this purpose." General McCarty formerly commanded the Korean airlift, which air evacuated 328,000 casualties.

The air evacuation of Army and Air Force patients from the maneuver area is being supervised by the 18th Air Force's Aeromedical Evacuation Group (Provisional), which is headed by Col. Paul G. Sheldon. Colonel Sheldon is also head of the USAF Tactical Medical Center at Donaldson AFB, S. C.

"We have detachments of our group at a number of airstrips in Louisiana," said Col. Sheldon, "and we are prepared to handle the evacuation of casualties at any point where fixed wing or rotary wing aircraft can land."

Twenty-seven patients, all Army casualties, were evacuated from the short Fort Polk airstrip to Barksdale AFB 9 Nov. in a 309th Group C-123 piloted by 1st Lt. James Hendrick, and 2d Lt. Lonnie Campbell. Other crew members were 1st Lt. Thomas D. Dean, navigator, A/1C J. C. Marlowe, engineer, and A/2C Stanton Sanborn, engineer.

Five members of the Aeromedical Evacuation Group were on board to load the patients and care for them in flight, an Air Force responsibility. Capt. Mary Sutton, Greenville, S. C., was chief flight nurse, assisted by Capt. Doris M. J. Pelchat, Portland, Maine, and 1st Lt. Carol A. Ladenburger, Oakland, California. Two Air Force medical technicians were on board, A/2C Martin Criel, Green Bay, Wisconsin, and A/2C Robert L. Clark, Bluebell, Utah.

The patients were brought to the C-123 in Air Force ambulances, and loaded by the Aeromedical Group medics. Nine of the patients were litter cases, and the others, most of them suffering from foot injuries, were able to get on board on their own power. The leisurely loading of the C-123 took about 20 minutes.

"We could have loaded in less time under combat conditions," said Lt. Col. Jesse U. Pritchett, Greenville, S. C. and Griffin, Ga., forward commander of the Aeromedical Evacuation Group at Fort Polk. "The C-123 looks as though it would work out to be a good air evac airplane."

The C-123, built by Fairchild, is specially designed for frontline airstrip flying, and has the capability of landing on short, combat airstrips, on sandy beaches, or, in emergencies, on unprepared fields. It can carry 42 fully equipped combat troops, 14,000 pounds of cargo, or 37 air evacs.

The 18th Air Force, which is the Tactical Air Command's global airlift component, has large numbers of two other fixed plane types which could be used for air evacuation, the 200 passenger C-124 Globemasters, and the 42 passenger C-119 Flying Boxcars. The 18th also has two squadrons of Piasecki H-21 helicopters and three squadrons of Sikorsky H-19 helicopters, most of which will be utilized for air evacuation of casualties during Sage Brush airborne operations.

Gen. Weyland's Staff For Sage Brush Test

Here is the directory of key officers at Headquarters, Exercise Sage Brush:

COMMAND SECTION

Maneuver Director and Unified Commander—General O. P. Weyland.

Deputy Maneuver Director (Army)—Lt. Gen. John H. Collier.

Deputy Maneuver Director (Air Force)—Maj. Gen. David W. Hutchison.

Chief of Staff—Maj. Gen. Francis M. Day.

Deputy Chief of Staff—Brig. Gen. Glynne M. Jones.

UMPIRE GROUP

Chief Umpire—Maj. Gen. Cornelius E. Ryan.

Deputy Chief Umpire (Army)—Maj. Gen. Douglas V. Johnson.

Deputy Chief Umpire (Air Force)—Brig. Gen. Edward H. Alexander.

STAFF SECTION

Asst. Chief of Staff for Personnel (J-1)—Col. Nyles W. Baltzer.

Deputy Asst. Chief of Staff for Personnel—Lt. Col. William N. Gaylord, Jr.

Asst. Chief of Staff for Intelligence (J-2)—Brig. Gen. John M. Breit.

Deputy Asst. Chief of Staff for Intelligence—Col. Carl A. Weaver.

Asst. Chief of Staff for Operations (J-3)—Brig. Gen. John D. Stevenson.

Deputy Asst. Chief of Staff for Operations, Army—Col. G. H. Gerhart.

Deputy Asst. Chief of Staff for Operations, Air Force—Col. W. S. Cowart.

Asst. Chief of Staff for Logistics (J-4)—Brig. Gen. Frank M. Albrecht.

Deputy Asst. Chief of Staff for Logistics—Col. Joseph C. Moore.

Asst. Chief of Staff for Communications (J-5)—Col. R. O. Akre.

Deputy Asst. Chief of Staff for Communications—Col. N. L. Little.

Asst. Chief of Staff for Military Government (J-6)—Col. Kenneth L. Leiby.

Deputy Asst. Chief of Staff for Military Government—Lt. Col. A. T. Brown.

Secretary—Col. S. L. Crosthwait.

Deputy Secretary—Lt. Col. L. C. Coleman, Jr.

Comptroller—Lt. Col. James M. Cochran.

Asst. Comptroller—Lt. Col. Robert B. Stringfellow.

Chief of Information Services—Col. E. B. LeBailly.

Deputy Chief of Information Services—Lt. Col. D. W. Bingham.

Surgeon—Brig. Gen. M. S. White.

Deputy Surgeon—Col. John H. Taber.

Commander, 4503d Support Squadron—Lt. Col. Theodore S. Cutting.

Deputy Commander, 4503d Support Squadron—Maj. Walter W. Halsey.

Deputy Commander, Army Detachment—Maj. John D. Conkle.

Sec'y Quarles

From page 1—

already has paid off by retaining more men and reducing training costs, he said.

"A policy of looking after our men is very rewarding," Mr. Quarles pointed out, "in loyalty, in preserving skill levels, and in money. To touch briefly on the law of these: the re-enlistment incentive act and the pay raise passed by Congress last Spring, have resulted in our being about to re-enlist 11,000 more airmen in the first four months of the fiscal year, than we did in the last. I estimate that we have thus retained skills which cost us about \$160,000,000 in training expenses to produce. The cost of the pay raise, for the same period, was less than \$50 million, so we made 300 percent on our investment."

But more should be done, the Air Force Secretary said.

"We still have," he continued, "some important things to do to retain the very experienced men on whom the preservation of our national security depends. For example, does it make sense to entrust an airman with the responsibility of watching a million dollar radar screen, protecting a city packed with millions of Americans—and yet be unwilling to provide him and his family with the benefits they could obtain in civilian life?"

"By 'benefits' I don't mean luxuries. I mean necessities, I mean such things as adequate housing, medical care not only for the man but his family—proper survivor benefits, and a list of lesser things that help to close the present gap between Service pay and what a man can

SecDef Wilson Orders Services Answer Twenty Questions On Guided Missiles

Defense Secretary Charles E. Wilson is getting ready to crack the whip—probably before New Year's—on the nation's guided missile program.

He has decided to resolve, wherever possible, critical problems which have been long-pending in guided missile research, development and procurement.

His decisions will have a major impact on Army, Navy and Air Force activities in these areas, not to mention major ramifications in industry.

To assemble the facts on which he will take action, Mr. Wilson has called upon a Special Policy Committee headed by Deputy Defense Secretary Reuben Robertson, Jr., to obtain and analyze pertinent data from the Services.

Secretary Wilson has ordered the Army, Navy and Air Force to reply in writing by 1 December to questions raised by 20 major guided missile problems.

It can be expected that Deputy Secretary Robertson and his committee will require several weeks to prepare their conclusions for Mr. Wilson. After that, quick action is anticipated.

Mr. Wilson is reported to be in favor of increased standardization in the guided missile program, though he is wary of curtailing fruitful competition, particularly in the research and development phases.

The Secretary, according to reliable reports, is giving considerable thought to the desirability of increasing standardization of propulsion and guiding systems of missiles. This would follow along the lines of his directive on jet engines.

It is recalled that Secretary Wilson this summer ordered a reduction of sizes and types of jet engines. He said that development and production contracts should be made in a "competitive environment" to secure best results.

A Pentagon official who is close to the work of the Robertson Committee comments on the significance of the current study by pointing out that "this year we will spend \$1.5 billion for guided missiles and \$10 billion for aircraft. At some period in the next five or 10 years, these amounts could be reversed and we must prepare now for the orderly development

of this new weapon.

"At present, there are too many contracting agencies, too many contractors and too much duplication of effort," this well placed official relates. "This results in wasting scientific manpower, research effort, and valuable time—as well as government funds."

It is not believed likely that Mr. Wilson will direct any "crash" changes in the guided missile program. He is said to be willing to go along temporarily with a certain amount of overlapping competition in order to safeguard the nation's defense at this stage of the guided missile effort.

But his findings next month are expected to result in the formulation of new long-range guidelines to the Services, and these will be aimed at increased centralization of control in guided missiles.

There is some prospect that Mr. Wilson will move towards a single procurement agency for missiles, possibly by assignment of procurement responsibilities to a Single Service or by creation of a new agency within the Defense Department.

Members of Mr. Robertson's committee are known to favor such a step and the group is expected to recommend such a course of action to Mr. Wilson.

In the past, similar efforts in this direction have failed, largely because of opposition from the Services.

At present, guided missile contracts are made by four Defense Department procurement groups. These are Army Ordnance, the Air Force Air Materiel Command and the Navy's Bureau of Ordnance and Bureau of Aeronautics.

Industrial sources have reported difficulties in guided missile work as a result of multi-source contracting; there are incidents where one of the agencies has approved projects turned down by the others. Other complaints against the present procurement policy are raiding by contractors of other firms' scientific personnel, confusion in the handling of patents, difficulties and delays in properly using new technological development in this new field and jealousy among the Services.

Lay Plans For Biggest Aerial Supply Meeting

The thrust of an air age into Army Quartermaster operations may soon gain public notice at Ft. Lee, Va., in the largest aerial supply conference ever conducted.

Pending acceptance by the Department of Defense, Ft. Lee and Camp Pickett, Va., may be the sites of a three-day conference and aerial delivery drop, tentatively scheduled for next April.

Representatives of all technical services, Government agencies and industry will meet next month to map out final details.

The conference, if approved, will feature one of the largest collections of late model airplanes and aerial supply equipment ever assembled. A tentative agenda calls for an opening day aerial delivery drop and equipment display at Camp Pickett. Maj. Gen. Kester L. Hastings, USA, The Quartermaster General, and Lt. Gen. James M. Gavin, Army's Chief of Research and Development, are slated to speak on the basic requirements and objectives of a modern aerial-minded Army. The remaining days are planned to be given over to seminar groups.

Airmen May Go To Army QM School At Ft. Lee

Forty airmen may take a special six-week petroleum supply course at the Army Quartermaster School, Ft. Lee, Va., beginning next June.

Initial steps toward establishment of the course began earlier this month with a visit by Lt. Col. Ralph R. Moulter, USAF, Headquarters Air Materiel Command, to Ft. Lee. If the course is authorized, it will be taught by Army personnel.

U. S. Army

Army Generals Move

MAJ. GEN. GEORGE P. BARTH, USA, who had been Chief of the U.S. Military Mission to Greece, is the new Deputy Commander of First Army at Governors Island, N. Y., where he took over from **MAJ. GEN. WILLIAM L. COLBERN, USA**, who will command the 5th Armored Division at Camp Chaffee, Ark.

BRIG. GEN. JOHN C. HAYDEN, USA, has taken command of V Corps Artillery at Frankfurt, Germany, replacing **BRIG. GEN. DONALD DUNFORD, USA**, who returned to the U.S. General Hayden formerly commanded 2d Armored Division Artillery.

BRIG. GEN. LOUIS T. HEATH, USA, formerly CG of the 53d AAA Brigade, Ravenna Arsenal, Ohio, has arrived at Quarry Heights, C.Z., to become CofS of the Caribbean Command, replacing **BRIG. GEN. NORMANDO A. COSTELLO, USA**, assigned to the Sixth Armored Division at Ft. Leonard Wood, Mo., as Assistant Commander.

Launch 1st Cavalry Drive

The 1st Cavalry Division Association has launched a drive for new members.

Life membership dues are \$10. There are no other dues or assessments.

More than 5,500 men currently belong to the organization, but the Association President, Col. Alfred E. Stevens, Arlington, Va., wants every former member "to feel eligible to join." Approximately 277,000 men have served in the Division or its associated components.

The Association distributes histories of the Division's activities in WWII and the Korean campaign, as well as one on the occupation duties of the Division in postwar Japan. In addition, membership address directories are distributed to all members.

Further information can be obtained from the Association's permanent registrar, Col. Edmund P. Stone, P.O. Box 201, Pomona, Calif.

Army Will Test Alaskan Support In Moose Horn

The Army this winter will test the capability of units in the United States to support combat-engaged forces in central Alaska in Exercise Moose Horn.

The three-week exercise, scheduled for January and February, will see about 1000 troops of the 71st Infantry Division move from Ft. Lewis, Wash., travel 2500 miles up the icy Alaskan Highway to join six other battalion combat teams from Alaskan bases for a maneuver about 83 miles east of Fairbanks.

Tests in cross-country movement, tactics and comparative methods of supply will be conducted in a region—said to be the coldest on the continent—where winds reach a velocity of 80 miles per hour and temperatures drop 65 below zero.

The Army said that the Moose Horn troops will not use existing roads. Routes and trails developed by the first participating battalion combat teams will not be followed by successive participants.

The Army wants to find out the comparative merits of two methods of resupply—airdrop and giant tractor-trains with sleds.

Each bulldozer will pull four 10-ton sleds, loaded with ammunition, rations and fuel.

Ft. Greely, the Army's most northern post on the continent, will be Headquarters for Moose Horn, with Maj. Gen. James F. Collins, USA, as maneuver director. Deputy director will be Lt. Col. C. E. Welsh, USA.

The battalion combat team from the 5th Infantry Regiment is scheduled to leave Lewis on 4 Jan. and is expected to return about 1 March.

New QM Command PIO

Capt. Robert S. Kelly, USA, a former newspaperman and a Quartermaster officer since 1944, has been assigned as public information officer for the Quartermaster Training Command at Ft. Lee, Va. He succeeds Lt. Jack P. Johnston, who now will serve as assistant PIO.

Captain Kelly came to Ft. Lee from Korea, where he served as senior public information advisor and PIO for the Military Advisory Group to the Republic of Korea. Before that, he was PIO of the Chicago Quartermaster Depot from 1952 to 1954.

LT. GEN. THOMAS F. HICKEY, USA, Commanding General of Third Army, was principal speaker at the opening exercises for the Third Class, Women's Army Corps Officers Advanced Course at the WAC Center, Fort McClellan, Ala. Shown here with him, left to right, are: Col. Irene O. Galloway, WAC Director; Lt. Col. Beryl M. Simpson, Commandant of the WAC School; and Lt. Col. F. Marie Clark, Commanding Officer of The WAC Center

Find Col. Bliss' Remains; Re-interred At Post

The body of the man for whom Ft. Bliss, Tex., was named, Lt. Col. William Wallace Smith Bliss, has been brought from its burial ground in New Orleans and permanently interred in the Ft. Bliss National Cemetery.

The Army searched for five years to determine the exact burial location of Colonel Bliss, who died in 1853. A monument in his honor was found in Girod Cemetery, but there was no definite evidence the body of Colonel Bliss was buried there.

However, when the Girod Cemetery was condemned recently for use by the City of New Orleans, the Army received permission to remove the Colonel's 20-foot monument and the body, were it found at the site, to Ft. Bliss. (See Page 4, THE JOURNAL, 12 Nov. 55). When the monument was taken apart for shipment, a crypt was found beneath it in which lay the cast-iron coffin containing Colonel Bliss' body. Reinterment rites were held 22 Nov. at the National Cemetery. Maj. Gen. Paul W. Rutledge, USA, Ft. Bliss commander, made an address during the ceremonies.

Capt. Lopez Port Engr.

Capt. Julian Lopez Jr., USA, has assumed the task of Port Engineer at the Yokohama U. S. Army Port, following the departure of Maj. Edward P. Sherwin, who has returned to the States.

26 Enrolled In WAC Third Advanced Class

Lt. Gen. Thomas F. Hickey, USA, Commanding General, Third Army, delivered the principal address at the opening exercises, 18 Nov., of the Third Class, WAC Officers Advanced Course, The WAC Center, Ft. McClellan, Ala. Col. Irene O. Calloway, Director of the Women's Army Corps, also spoke to the 24 WAC and two Army Medical Specialist Corps officers who started the five-month course.

The student officers were welcomed to the Center by Lt. Col. F. Marie Clark, Commanding Officer, and to the WAC School by Lt. Col. Beryl M. Simpson, Commandant. Greetings were also extended by Col. William M. Gaines, Acting Post Commander, Ft. McClellan; Col. Thomas H. James, Commanding Officer of the Chemical Corps Training Command; and by Col. Edwin Van Keuren, Commandant of the Chemical Corps School. Chaplain (Maj.) James E. Elliott gave the invocation and benediction. The 14th Army (WAC) Band, under the direction of 1st Lt. Alice V. Peters, played.

Accompanying General Hickey were Lt. Col. Cora Foster, G-1 Section, Lt. Col. C. L. Irwin, G-3 Section, and Maj. Margaret Young, WAC Staff Advisor, all of Headquarters Third Army.

WAC officers enrolled for the current class include Majors Irma V. Bouton, Judy Bryan, Laura C. Coupe, Ann Cummings, Constance K. Field, June P. Gonzalez, Marie J. Madigan, Katherine Nowlin, Louise O'Nale, Marguerite J. Randsack, Phyllis Roos, Sarah L. Sanders, Ruth N. Simerly, Elva N. Stillwaugh, Dale A. Van Vacter and Elsie L. Weible and Capt. Carolyn N. Anthony, Iona S. Connolly, Catherine C. Landry, Martha L. Mills, Katherine L. Sutherland, Ruth F. Taylor, Martha E. Tolbert and Avis M. Watkins.

The two Army Medical Specialist Corps officers are Capts. Frances M. Davison and Mary A. Neacy.

B/G Verbeck Reports As Army Antilles CG

Brig. Gen. William J. Verbeck, USA, former Chief of the Pennsylvania Military District, has assumed his new assignment as commanding general of the U. S. Army Forces Antilles and Military District of Puerto Rico.

A 1927 graduate of West Point, General Verbeck spent most of WW II in Alaska where he served from 1941 to 1944 as Assistant Intelligence Officer (G-2), later as Chief of Combat Intelligence and Commander of the Alaska Scouts during the Aleutian campaign, and finally as Assistant Chief of Staff (G-2), Alaska Department.

General Verbeck became Intelligence Officer (G-2) for the Tenth Corps in New Guinea and landed on Leyte in the Philippines in October, 1944. He served there and in Mindoro, Luzon, Lubang and Mindanao, first as Regimental Commander of the 21st Infantry Regiment and then as Chief of Staff at the 24th Infantry Division's Headquarters.

During the Korean War, he became Senior Advisor, Korean Military Advisor Group and later commanding officer, United Nations Command, of Prisoner of War Camp #6 at Nonsam. Other assignments there were Deputy Commanding Officer and Chief of Staff at Korean Base Section Headquarters and as Deputy Commanding Officer of the Pusan Military Post for Relief, Reconstruction and Rehabilitation Program.

Prior to his post as Chief of the Pennsylvania Military District, General Verbeck was Assistant Director for Strategic Plans of the Joint Staff, Joint Chiefs of Staff.

Col. Tharpe Heads Small Arms Department

Col. Felix E. Tharpe, USA, has been assigned director of the Small Arms Department, Continental Army Command Board No. 3 at Ft. Benning, Ga.

He replaces Lt. Col. Joel M. Hollis, USA, who assumed duties as executive officer.

Colonel Tharpe was a member of the Secretariat of United Nations Command Military Armistice Commission in Korea in 1953-1954, and was later chief of the Training Branch of the G-3 (Plans and Operations) Section, Armed Forces Far East headquarters and Eighth Army at Camp Zama, Japan.

He and his wife, the former Dorris M. Whittington, also of Macon, have two children, Linda Lee and Jeannie Carol.

M/G Fry Publishes Text Book On Assault Tactics

"Assault Battle Drill," by Maj. Gen. James C. Fry, USA, Chief of the Career Management Division, Department of the Army, has been published by The Military Service Publishing Company. It retails for \$2 and is 114 pages long.

A training text on infantry assault tactics, the book is designed to indoctrinate combat troops so that they will correctly apply sound methods during the critical stages of an advance.

Lt. Gen. James M. Gavin, USA, Army Chief of Research and Development, described the book in the preface as one "well worth studying by our combat leaders of tomorrow."

Army Navy Air Force Journal

26 Nov. 1955 (Vol. 93, P. 377)

"BEST WISHES" to Col. Edward G. Hellier are said in form of a scroll presented by Col. Norman L. Thompson, USA, Acting Chief, Michigan Military District, Fort Wayne, Detroit. Colonel Hellier leaves the position of Senior Army Advisor, Army Reserves after 3 years with the District Headquarters. His new assignment is Executive Officer, Fort McClellan, Alabama.

MATS Beats Flight Program Schedule with Allison Turbo-Prop Engines and Aeroproducts Propellers

To MATS' 1700th Test Squadron — Congratulations for a good job well done.

This month, the final hour will be flown on a program which has as its target 3000 flight hours by January 30, 1956 on two Convair YC-131C aircraft powered with Allison Turbo-Prop engines and Aeroproducts Propellers. The program will be completed more than 30 days ahead of schedule — thanks to the skill and enthusiasm of the pilots and crews who were given the job to do.

The aircraft were delivered to MATS at Kelly AFB, San Antonio, Texas, in January, 1955. The 1700th Test Squadron had just been activated and was composed of men who not only were outstanding in their abilities but who demonstrated a genuine enthusiasm for Turbo-Prop transports in military aviation.

Colonel Claude Smith, Commander 1700th Air Transport Group, and his staff immediately initiated a familiarization program for all personnel and the entire squadron set out to obtain maximum time on the two aircraft. The object was to prove the place of turbo-prop-powered transport in military aviation.

Hours on the aircraft mounted rapidly. Sometimes the planes shuttled between Kelly AFB and Travis AFB, or to Andrews, or to the Allison plants in

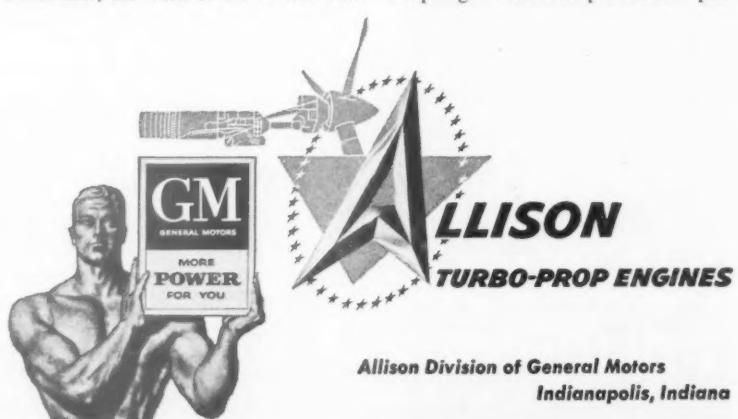

Indianapolis. And many days went by with pilots making operational flights over Texas. Three and four flights a day with five hours per flight became routine. And in one 24-hour period, each aircraft was kept in the air for 23 hours and 10 minutes.

It was long, hard work for pilots in the air and crews on the ground. But they kept at it — determined not only to beat their schedule but to demonstrate convincingly to others the firm, determined faith they have in the future of turbo-prop power.

Under Lt. Col. Samuel C. Burgess, Commander, the work of the 1700th Test

Squadron will continue with other aircraft powered with turbo-prop engines. But the pioneering phase of the program is concluding. The rest of the program has been aided immeasurably by the experience gained with the first aircraft assigned to the project.

We at Allison salute the good work of the men of the 1700th Test Squadron. We are proud to have been part of the project. You have proved that turbo-prop engines and propellers are "ready to go" and we are gratified that the convincing demonstration was made with Allison Turbo-Prop engines and Aeroproducts Propellers.

U. S. Marine Corps**

**Navy Relief Society
Slates Annual Meeting**

The Annual Meeting of the Navy Relief Society will be held at the Navy Department, Washington, D. C., at 10 A. M. on 2 Feb. 1956.

In accordance with the By-Laws of the Society, the Nominating Committee has submitted the following names of candidates for election to the Board of Managers for a period of three years beginning in February. The candidates are listed in three groups and votes will be cast for one candidate in each group:

*VAdm. W. T. Brown (MC), USN-Ret.
VAdm. Vincent Hernandez (MC), USN-Ret.

*Mrs. C. L. C. Atkeson.

Mrs. S. S. Murray.

Mrs. H. O. Larson.

Capt. W. T. Easton, USN.

Capt. John F. Davidson, USN.

Capt. E. F. Dissette, USN.

*Incumbent

Other nominations, made in writing by not less than three persons authorized to vote at the Annual Meeting of the Society, received by the Secretary prior to 1 Jan. 1956, will be added to the above list of candidates.

The following only may vote in the election of Members of the Board of Managers:

(a) A member of the Board of Managers, except one who is a candidate.

(b) The President of an Auxiliary or his authorized representative.

(c) The Commander of a Fleet or his authorized representative.

Capt. Phoebus Elected

Capt. C. P. Phoebus, MC, USN, has been elected chairman of the Armed Forces-National Research Council Committee on Hearing and Bio-Acoustics.

Dr. Phoebus, Special Assistant for Bio-Sciences in the Office of Naval Research, succeeds Dr. R. H. Bolt, who had served as chairman since CHABA was organized in 1953. Dr. Bolt is with the Acoustics Laboratory of the Massachusetts Institute of Technology.

**Boards Meet To Pick
Staff Corps LCdrs.**

Selection boards are in session to pick Regular Navy and Naval Reserve Staff Corps lieutenants for temporary advancement to lieutenant commander.

Eligible for consideration are lieutenants who have been on active duty since 1 July 1955, or earlier, as follows: Supply and Civil Engineer Corps officers whose running mate's date of rank is 1 July 1952, or earlier; Medical, Dental, Medical Service and Chaplain Corps Officers whose running mates are in or senior to the promotion zone; and Supply and Civil Engineer Corps limited duty officers whose LDO Line running mates are in or senior to the promotion zone.

The promotion zones end with the junior USN officer in each corps whose running mate's signal number is senior to 17737. The junior Reserve officer in the promotion zone in each corps has the indicated Register number MC, 3883; SC, 5875; CEC, 2161; ChC, 555; and MSC, 557. The junior DC officer has a date of rank of 15 July 1951.

TARS (officers in the Training and Administration of the Naval Reserve Program), WAVES and Nurses are not being considered by these boards.

Board memberships are:

Chaplain—Captains R. R. Marken, President; A. M. Witwer, NR; J. D. Zimmerman; J. P. McNally, NR; E. F. Redman; and J. P. Mannion; and LCDR. F. L. Garrett, Recorder.

Civil Engineer—Captains H. B. Jones, President; R. W. Schepers; G. S. Robinson; K. G. Lovell; J. W. Gordani; and J. C. Bronson, NR; and Lt. A. C. Perkins, Recorder.

Supply Corps—Captains F. B. Risser, President; T. C. Herlihy; E. D. Chesney, NR; T. P. O'Connell; G. W. Clegg; and W. J. Johnston; and Lt. H. P. Von Kennel, Recorder.

Dental—Captains M. Meradith, President; G. R. Bevan, NR; W. A. Smith; C. M. Wheeler, NR; K. V. L. Berglund; and M. E. Simpson; and LCDR. O. C. Tack, MSC, Recorder; and Lt. R. E. Ricker, MSC, Assistant Recorder.

Medical and Medical Service—Captains T. J. Carter, President; J. T. Smith; J. D. Oyler, NR; N. T. Saxl, NR; E. T. Lentz, NR; and S. I. Kemp, NR; and Lieutenants B. O. Green, Recorder; and J. D. Pruitt, Assistant Recorder.

Boards also are in session to consider active duty Medical and Dental Corps lieutenants (including TAR's) for advancement to lieutenant commander under the provisions of A1Nav 84 (THE JOURNAL, 12 Nov., page six).

Members of these boards are:

Medical—Captains J. P. Wood, President; W. L. Schafer, Jr.; H. S. Zeve, NR; R. A. Wallace, NR; K. W. Schenck, Jr.; and P. F. Dickens, Jr.; and Lieutenants B. O. Green, Recorder; and J. D. Pruitt, Assistant Recorder.

Dental—Captains J. J. A. MacInnis, President; J. J. Dempsey; F. M. Kyes, W. J. Goldring; G. R. Reynolds; and E. C. Paynes; LCDR. O. C. Tack, Recorder; and R. E. Ricker, Assistant Recorder.

Joins Sub. Staff

LCdr. Richard F. Jortberg, USN, has assumed duties as Assistant Operations Officer on the Staff of Capt. John A. Tyree, Jr., USN, Commander Submarine Squadron Six, based at Norfolk, Va. He reports from duty as Executive Officer of the submarine USS Tirante.

MIDGET SUB. The USS X-1, commanded by Lt. Kevin Hanlow, USN, undergoes test runs from its base at New London, Conn. The 25-ton, 50-foot experimental submersible was completed recently by the Engine Division of the Fairchild Engine and Airplane Corp. It was built to help test harbor defense installations. It has an enlisted crew of four. It is "in service" rather than in commission.

**Mrs. Harboard Gives
Oil Painting to USMC**

An oil painting of a WWI Combat Marine, a cherished possession since 1917 of the late Lt. Gen. James G. Harboard, USA, who commanded the Second American Division in France and later became the first President of Radio Corporation of America, was presented to the Marine Corps recently by Mrs. Harboard in her hotel suite at Carmel, Calif.

The painting was accepted by Col. S. L. Stephan, USMC, as personal representative of General Lemuel C. Shepherd, Jr., Commandant of the Marine Corps.

The artist's portrayal of the Leatherneck by C. LeRoy Baldridge, combat artist with the Stars and Stripes in France, was originally presented to General Harboard as a battlefield memento of the famous Fourth Marine Brigade, which was a part of the Second American Division under the general's command. It will be sent to Marine Corps Headquarters, Washington, D. C., for display with other famous historical collections.

Col. L. W. Glazebrook, USA-Ret., resident of Carmel and former staff officer of General Harboard, was a roommate of General Shepherd at Virginia Military Institute and was present for the ceremony.

**Marines Integrate
Air-Ground Units**

The Marine Corps is taking steps to more closely integrate its ground and air units.

Under a new program, ground and air officers will be exchanged within the staffs of the Fleet Marine Forces.

Headquarters said closer integration is expected to be achieved by providing officers the opportunity to gain an appreciation and understanding of the other component. Officers who take part in the exchange will not be assigned liaison billets, but will be full working members of the staffs to which they are attached.

Tours of duty at Force and Wing-Division level will be two years. At the lower levels, tours will be for approximately one year.

The Marine Corps said a normal overseas tour will apply for deployed units.

Please send in notice of your change of address promptly.

**USMC Gives Permanent
Grades To Enlisted Men**

Marine Corps Headquarters reports that the enlisted grade distribution has been sufficiently stabilized to permit an immediate return to the policy of giving permanent grades and promotions to all EM.

Temporary warrants of all enlisted men and women, including Reservists not on active duty, will be made permanent. The date of rank for each individual will be that shown on the temporary warrant previously issued.

The last permanent NCO advancements were effected in August 1950. Since then all Non-Com promotions have been temporary; the temporary policy provided for the possible reversion of EM at the end of the Korean War.

Enlisted Reservists who voluntarily accepted an administrative reduction in order to be assigned or retained on extended active duty will be made permanent in their present grade. When they are released to inactive duty, the grade from which they accepted the reduction will be made permanent.

Although there is no change in the status of temporary commissioned officers and warrant officers, those whose permanent status is enlisted will be given a permanent enlisted grade and a date of rank the same as that held prior to their temporary appointment, or to any enlisted grade to which they were later promoted.

**USMC Board To Pick 111
Sgts/Maj & 200 1st/Sgts**

A Marine Corps board is in session to choose 311 master sergeants for advancement.

Of this number, 111 will be up-graded to sergeant major's rank and 200 to first sergeant. After the selections have been made the new sergeants major will don distinctive stars centered on their stripes. First sergeants will wear diamond markers.

Headquarters reports that authority exists for 569 sergeants major and 1,000 first sergeants. It is explained that only one-fifth of the authorized number is to be named so that most qualified will get seniority. Annual boards will be convened to select other six-stripers after they have improved their professional qualifications.

Successive pass-overs will not disqualify master sergeants from future consideration. Their records will be reviewed each year, and if they measure up to Headquarters standards, they will be advanced regardless of the number of times they were considered previously.

The board is expected to remain in session until the middle of December.

Heads WOI Course

2d Lt. Frances B. Newman, USMC, headed the class of 17 women officers who graduated recently from the Ninth Women Officers Indoctrination Course, Marine Corps Schools, Quantico, Va. A graduate of the University of Illinois, she has been assigned to duty at the Marine Corps Recruit Depot, Parris Island, S. C.

USN Sets Up Program To Re-train Air Officers Removed From Flight Status

The Navy has set up a program to train and indoctrinate Regular Line officers who are removed from flight status.

In an instruction to all ships and stations, VADM James L. Holloway, Jr., USN, Chief of Naval Personnel, outlined a general policy which applies to all officers shifted from designator 1310 to 1100:

When it is known that an officer is to be transferred from flight status, he will be given an opportunity to state his preference as to the new code category to which he will be assigned. Although some officers, having special training and qualifications, may express a preference for one of the special or restricted Line code categories, it is anticipated that the majority will be redesignated Code 1100. While the final decision in assigning a designator rests with the Chief of Personnel, it is stated that he will make provisions to effect the change to the best advantage of the officer concerned. Aviation officers who are transferred to the Line (1100) will be given training and indoctrination, if required, to compensate for the lack of previous extensive experience in shipboard duties.

Training requirements for a smooth transition from flying to non-flying status will vary with the rank and previous experience of each officer.

Officers in the ranks of lieutenant (jg) and ensign will be given training in fleet schools. The number and selection of schools attended will be determined by the individual officer's naval experience and the type of ship to which he will first be assigned.

Lieutenants who have not graduated from the General Line School will be ordered to the school after being shifted to Line category. Training at one or more

Rule On Govt. Insurance For Korean Veterans

The Veterans' Administration calls attention to the fact that Korean service veterans who could not apply for waiver of premiums because of their status as missing, missing in action, interned, captured, beleaguered, or besieged at any time after 25 April 51 and before 26 April 52, have the right to reinstate their expired Government insurance.

The Navy has prepared a detailed explanation in Bureau of Personnel Notice 1741, dated 5 Sept.

Slick Overhauls R-1300s

Slick Airways, Inc., scheduled air freight line, has commenced work on a \$1,958,758 Air Force contract for overhaul of 1,064 Curtiss-Wright R-1300 air-cooled piston engines. The work will be done by Slick's maintenance and modification center at San Antonio, Tex., International Airport.

The present contract is a continuing phase of previous Air Force orders to Slick for R-1300 overhauls. The San Antonio base has rebuilt nearly 3,000 of the engines to date.

Commands 29th FIS

Maj. James L. Nollkamper, USAF jet pilot and veteran of 162 World War II combat missions, has taken over as Commander of the 29th Fighter Interceptor Squadron. The all-weather jet squadron is attached to the 29th Air Division (Defense), Malmstrom AFB, Montana.

fleet schools to provide special qualification for a particular billet aboard ship will be provided. Indoctrination aboard a ship of the type to which the officer is to be assigned will be scheduled.

Training and indoctrination for Line School Graduate lieutenants is the same as that for non-graduates, with the exception that they will not be ordered back to the Line School.

Commanders and lieutenant commanders will be given such training, indoctrination, and special duty assignments as are deemed necessary in each individual case.

Navy Sets Up Course In Code Of Conduct

The Navy has instituted a program designed to familiarize every officer and enlisted man with the principles embodied in the new Code of Conduct established by President Eisenhower's Executive Order of 17 August.

Navy Secretary Charles S. Thomas directed that the individual serviceman's record be marked to indicate completion of the course of instruction. The entry is to be made on the "Administrative Remarks" page of the Enlisted Man's Service Record. Officers are required to sign a statement, to be incorporated into their service jackets, that they are aware of the Code's content.

Navy Appoints Seven WO's

The Navy has named seven CPO's for advancement to the temporary rank of warrant officer, W-1. Appointments are effective upon acceptance.

The appointees are: **Boatswain**—Harold R. Hamilton and Roy A. McLaughlin; **Surface Ordnance Technician**—Maurice A. Affleck, Jr.; **Electrician**—Jacob E. Opp; **Aviation Electronics Technician**—George L. McMasters, Jr., and Joseph L. Simpson; and **Ship Repair Technician**—James H. Shaw.

Changing Station? Notify the Army Navy Air Force Journal promptly to avoid missing any issues.

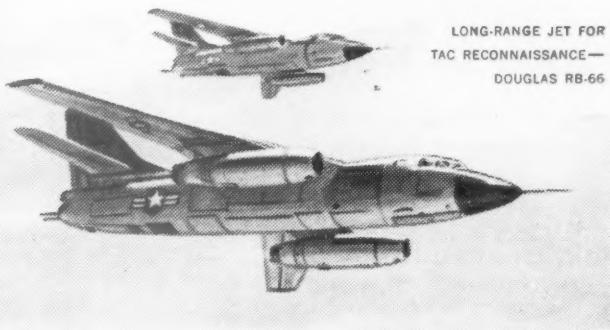

Peace Officer ready for war

This man is a peace officer. His beat is the whole world, for he flies for TAC—the Tactical Air Forces of the U. S. Air Force.

Primary job of the Tactical Air Forces is to stamp out "brush fire" aggressions wherever they may occur. This is being accomplished by maintaining at combat readiness a completely self-contained striking force with a devastating nuclear punch, and a global reach.

Such a far-reaching assignment calls for versatility in men, equipment, techniques and weapons. Douglas is proud to have its planes included in the Tactical Air Command's inventory of fighters, bombers, transports and reconnaissance aircraft.

Defense is everybody's business

The Douglas RB-66 can fly 600-700 mph but not without people to pilot and service it. The Air Force needs young men and women who agree that "defense is everybody's business."

Depend on **DOUGLAS**

U. S. Air Force

Career Testing Changes Set For March '56

Air Force career field proficiency testing schedules are due for a change effective 1 March 1956.

The new schedule will call for a field testing three times a year instead of the present semi-annual method. This new system will eliminate make-up periods.

Official announcement of the new testing method will be made through changes in Air Force Manual 35-8 in January.

The final approved method will still reduce the airmen test waiting time from six to four months.

Tentative testing schedules for various career fields are: phase one in March for fields 36, 42, 43, 64, 90, 98; phase two in April for fields 20, 27, 29, 46, 47, 56, 60, 62, 73; phase three in May for fields 22, 23, 25, 30, 32, 40, 44, 53, 55, 57, 58, 59, 65, 67, 68, 70, 72, 74, 75, 77, 80, and 92.

If the tentative schedule is adopted, phase one career testing will occur again in July and November, phase two testing in August and December, and phase three in September and January.

Can't Pay Travel For Proficiency Flying

Rated Air Force personnel who find it necessary to report to another base in order to meet their flying proficiency requirements must pay their own travel expenses.

Special travel and temporary duty orders permitting the travel are not authority for reimbursement, according to the USAF legal and finance advisory division which recently reconsidered the present non-payment policy.

AFMAA benefits count in civilian or government hospitals

If your wife or child is hospitalized in a civilian institution, you receive full benefits as a member of AFMAA; in a government institution, you get half-rate on most expenses! And you can always take your pick whenever military facilities are available.

AFMAA, as you know, is a non-profit, voluntary organization set up for all interested U. S. servicemen. Membership costs \$5.50 a month for wife only, \$8.00 with wife and any number of children.

It's the thing for guarding your dependents' health—and your pocketbook. Write today.

ARMED FORCES MEDICAL

AID ASSOCIATION

Dept. D

403 West Nueva Street
San Antonio 7, Texas

GEN. TWINING IN FAR EAST—Brig. Gen. Russell L. Waldon, USAF, (right), Commander, 315th Air Division greets General Twining, USAF, during his visit to Tachikawa AB, Japan. Col. Adriel N. Williams, USAF, base commander was also on hand to welcome the Air Force Chief of Staff who was on his first tour to the Far East.

Fire Razes Randolph BX; \$250,000 Damage

A fire which razed the main store of the base exchange at Randolph AFB, Tex., caused damage estimated at \$250,000.

Officials estimated it will take six months to a year before the main store can be put back into operating condition. Meanwhile, the BX will open temporary quarters in the old cadet mess as soon as that section is cleared out and merchandise moved in.

The new main store, once it is renovated, probably will be enlarged and of a different design. Extent of this work will depend on funds and USAF approval.

Plans Hot Meals For C-124 Crew Members

Plans are underway to equip all C-124 aircraft of the 63d Wing at Donaldson AFB, S. C., and the 62d Wing at Larson AFB, Wash., with B-4 ovens for heating frozen meals for crew members.

Col. Ellisea Gomez, Assistant Deputy Chief of Staff for Materiel at Donaldson AFB, stated it probably would take a year before all the C-124s are equipped with the new ovens. The frozen meals, which consist of a meat, potatoes and a vegetable, are sealed in aluminum trays and packaged at Mallory AF Depot at Memphis, Tenn. The meals can be augmented with hot soup, coffee and rolls.

"PILOT'S LIFE INSURANCE CO." BOOSTS GCA

A fictitious "Pilot's Life Insurance Company" has been formed at Webb AFB, Tex., to promote the services of Ground Control Approaches being operated by the 1900-3 AAC Detachment.

The purpose of the "Insurance Company" is to stimulate pilot interest in GCA and to create a competitive spirit among flying personnel insofar as the number of GCA's flown is concerned.

"The Pilot's Life Insurance Company" issues a policy to the pilot who completes a minimum of six Ground Control Approaches in any one calendar month.

Webb officers state: "This in effect is his premium and he in turn receives a dividend, payable anytime he is required to make an actual GCA under instrument conditions. The dividend is the pilot's assurance of making a successful approach because he had completed six practice GCA's."

8th AF Will Compete For Roberts Trophy

Maj. Gen. Walter C. Sweeney, jr., USAF, commander of Eighth Air Force, has turned the Brig. Gen. Jack Roberts Memorial Trophy over to Col. Harold E. Humfeld, USAF, 8th AF director of operations, who will place it in competition among 8th AF units.

The trophy, named in honor of the late General Roberts who was 8th AF Chief of Staff until his death last Spring, will be awarded for outstanding achievement in 8th AF bomber stream missions.

The term bomber stream missions pertains to normal training missions which are designated for purposes of competition. There are two categories of winners, one for B-36 and another for B-47 crews. The trophy will be placed into competition about nine times yearly.

CAPT. EDWARD R. WIENECKE, USAF, (left), assistant staff judge advocate of the contracts division in the Air Research and Development Command Headquarters, makes a point to Lt. Col. Jonah Lubell, deputy staff judge advocate for the command. Captain Wiencke, sponsored by Senator John Marshall Butler, was admitted to practice in the U. S. Supreme Court on 21 Nov. He can now practice before the highest military court in the land—the Court of Military Appeals.

455th Bomb Squadron Leaves Alaska For U. S.

The 455th Fighter Bomber Squadron from Eielson AFB, Alaska, is transferring to Bunker Hill AFB, Ind., this month for assignment to the 323d Fighter Bomber Wing of the Tactical Air Command.

The 323d, assigned to the Ninth Air Force, was activated last August. The assignment of the 455th will bring the unit strength up to three fighter bomber squadrons.

The new squadron is equipped with North American F-86F Sabre Jets.

AF Base Files Civil War Volumes

When Strategic Air Command officials asked the field recently if there were old records on file needing disposal rulings, one requested disposal instructions from Offutt AFB, Nebr., headquarters on:

- Fifty-three volumes of the War of the Rebellion, and official records of the Union and Confederate Armies.

- Army register for the year 1874.

- Army register for the years 1876 and 1877, with the names of the officers killed in Custer's campaign posted in red ink.

- An Historical Register and Dictionary of the United States Army from 1789 through 1903.

- Three volumes of the Organized Militia of the United States dated 1896.

The SAC adjutant is finding out if these documents are wanted for the National Archives.

Three New Technical Courses Open At USAF ECI

Three new technical courses in Air Force career fields have been activated by the Extension Course Institute, USAF.

The Munitions Officer Course, No. 3200, is a seven-volume course which provides training in the management of munitions activities. AN/APG, Sighting Systems Mechanic (Course 3221) is a three-volume course covering basic training in this area of the armament field.

Rotary Wing Mechanic (Course 4351) is a three-volume course for airmen in the aircraft maintenance field. Further information on these courses can be obtained from Base Education Services offices.

Ft. Carson Graduates Airmen Dog Handlers

Fifty-six airmen were graduated 22 Nov. from the 11th Air Force Sentry Dog Class conducted by Fort Carson's Army Dog Training Center. Brig. Gen. Lester S. Bork, USA, assistant commander of the 8th Infantry Division at Carson, spoke at the graduation ceremony.

Maj. William W. Haner, USAF, of the provost marshal division of Strategic Air Command at Offutt AFB, Omaha, Nebr., was a special guest. Also attending from Continental Air Defense Command headquarters at Ent AFB, Colorado Springs, were: Col. Joel D. Mallory, inspector general; Col. Edward P. O'Kane, provost marshal; Col. Robert R. Miller, veterinarian; Lt. Col. Frank L. Brown, chief of the internal security division; Maj. Don M. Rawls, chief of the installation defense division, and Capt. William J. Scull, sentry dog project officer.

New Chaplain at Robins

Chaplain (Maj.) Ben W. Jackson, USAF, has assumed duties at Robins AFB, Ga., as Staff Chaplain, Warner Robins Air Materiel Area, replacing Chaplain (Maj.) Fremont L. Blackman, USAF, who has left for assignment in Germany.

Chaplain Jackson was stationed in Taegu, Korea, for the past year as area chaplain. While in Korea, Chaplain Jackson was appointed an honorary member of the faculty, Han Nam Seminary, and was an officer of the YMCA in Taegu. He was also active in orphanage work.

New Building At Scott Eases Maternity Care

Expansion of the obstetrical clinic at the base hospital at Scott AFB, Ill., is nearing completion.

Work on the modification of one ward has already been completed, and the construction of an additional ward will be finished in several weeks. The expansion will provide additional nurseries, delivery rooms, bed space and equipment. All requirements for obstetrical care have been accepted without restriction since 1 Nov.

USAFA DEAN'S LIST

A total of 104 cadets have been named to the second Dean's List of Academic Merit at the U. S. Air Force Academy, Denver, Colo.

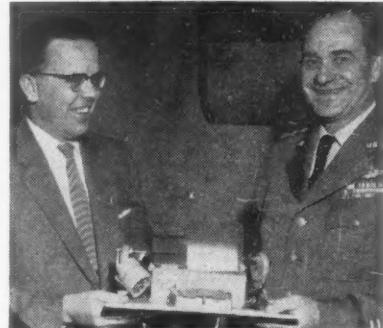

The Dean's List constitutes the top of the class, based on cumulative grades since the beginning of the academic year. The average for cadets on the list is 88.7.

A cadet cannot make the Dean's List if his grade in any one subject falls below 76 percent. A grade of 70 is passing.

Thirteen members of the Academy football team are on the Dean's List.

LT. GEN. J. H. ATKINSON, USAF, smiles in happy surprise on receiving an "anniversary gift" from the Anchorage Chamber of Commerce. The anniversary was General Atkinson's third as Commander-in-Chief, Alaska, and marked more than six years' service in the Territory since World War II. The gift, presented at a luncheon honoring the General by Jack Anderson, Chairman of the Chamber's Military Affairs Committee, is a movie editor. General Atkinson's color movies of Alaskan wild life are considered some of the best ever taken there and are in constant demand for showing by both military and civilian groups in Anchorage.

Army Navy Air Force Journal

HOW TO CALM EMERGENCIES!

USAF HERCULES

The early presence of U.S. troops in a trouble zone has often prevented disorders and averted actual combat. The important thing is getting them there in a hurry to meet any emergency.

The new C-130 Hercules is an excellent airplane for this job. This combat cargo transport carries 92 fully-equipped troops at high speed over long routes in air-conditioned, pressurized cabins which minimize in-flight fatigue.

The Hercules was designed for urgent action. Its unique tail ramp permits troops to run aboard. With its four Allison T56 turboprop engines it takes off in 12 seconds, uses improvised runways for landing troops closer to action.

The Hercules is in quantity production today for the USAF as a paratroop carrier, cargo carrier, troop carrier and airborne ambulance. It's another product of Government Aircraft Plant No. 6, in Marietta, Georgia, America's first turboprop production line for transports.

LOCKHEED

AIRCRAFT CORPORATION

Georgia Division, Marietta, Georgia

The Helicopter Hassle. The disagreement which has arisen at Exercise Sage Brush over whose helicopters ground troops must use under varying conditions of battle emphasizes anew the necessity of a review of the functions formulated at Key West and Newport, or else a review of their interpretations.

The defense-wide Key West Agreement of 1948 assigned to the Army "such aviation as may be organic therein." Four years later, the Army and Air Force entered into a separate understanding attempting further to define their respective fields as to the use of aircraft. That "treaty" recognized the Army's right to its own integral aircraft for the "transportation of Army supplies, equipment, personnel and small units *within the combat zone*." The Air Force, on the other hand, had as one of its primary functions the operation of fixed wing planes or helicopters for the airlift of Army supplies, equipment, personnel and units "*from exterior points to points within the combat zone*." The agreement gave to the theater commander the power to designate the rear boundary of the combat zone but also stated that "it is understood that the combat zone will normally be from 50 to 100 miles in depth."

What apparently is happening is that with great dispersal of troops and greater fluidity of the battlefield, it is becoming more and more difficult to define the combat zone. That may well have led to the current hassle wherein the Maneuver Director, General O. P. Weyland, USAF, presumably on direction of higher authority, forbade the Army to use its own helicopters to test a plan for moving patrols and reconnaissance units into "enemy" territory. Apparently piqued by this order, the Army authorities, according to reports from Sage Brush, would not permit its troops to board Air Force helicopters.

It is significant that the entire imbroglio had to be brought to the Pentagon for settlement by top civilian authorities—Air Force Secretary Donald A. Quarles and Army Secretary Wilber M. Brucker. After some discussion and exchange of letters, Mr. Quarles agreed to let the Army proceed with its plans for the purpose of working out these tests, but specified pointedly that this should be recognized as an exception to the Memorandum of Understanding and not be taken to set a precedent.

One of the main functions of field exercises is to find "bugs" in training, doctrine or tactics. From that standpoint, it may be well that the current situation has arisen, for it emphasizes most sharply that the position of Army Aviation must be further clarified. Increased mobility, particularly by air over both short and long ranges, is looked upon by military authorities as a most necessary asset to a small Army that has global responsibilities. The Air Force, on the other hand, should not be required to carry in its inventory large stocks of aircraft designed for use with the Army but duplicating the Army's own integral aviation.

Pay Pays off. The report of Air Force Secretary Donald A. Quarles that the nation's investment in increased Service pay and reenlistment allowances already has paid off 300 percent returns, as far as the Air Force is concerned, fulfills the predictions made by his predecessor, former Secretary Harold Talbott.

These salutary results also should convince

SATURDAY, 26 NOVEMBER 1955

Congress—and the Administration—of the wisdom of carrying forward with such other programs as adequate housing, family medical care, and survivor benefits.

Mr. Quarles told the National Press Club that 11,000 more airmen reenlisted in the first four months of this fiscal year than in the preceding year. This retention in skills, he said, saved \$160,000,000 in training expenses. The cost of the pay increase for the same period was less than \$50,000,000, which works out to 300 per cent returns on the investment!

Even with this welcome improvement, Mr. Quarles already recognizes the retention of trained personnel "as perhaps my principal problem." He mentioned particularly housing, family medical care, and survivor benefits and

"a list of lesser things" as being necessary "to close the present gap between Service pay and what a man can earn, skill for skill, in industry."

Unfortunately, the Administration itself is dragging its feet on at least one of these important items—housing. Responding to pressure from the Bureau of the Budget the Department is holding back on the expenditure of funds already appropriated by Congress.

Secretary Quarles' revelation of the savings made because of the pay raise should serve to convince the Bureau of the Budget that further expenditures on housing will mean long range economy. The same is true of family medical care and survivor benefits, which we hope will become priority legislation when the new session of Congress opens in January.

IN THE JOURNAL

10 Years Ago—General of the Army Dwight D. Eisenhower, USA, Supreme Allied Commander in Europe, was nominated to succeed General of the Army George C. Marshall as Chief of Staff. At the same time, Fleet Admiral Chester W. Nimitz, USN, was nominated to be Chief of Naval Operations, succeeding Fleet Admiral Ernest J. King, USN. General Eisenhower's nomination was for a four year term. Admiral Nimitz' nomination was for a term of two years.

50 Years Ago—According to a recent report received from the battleship Kentucky, that ship holds the record for long distance wireless telegraphy in the Navy. The Kentucky while lying in Hampton Roads sent a communication by wireless to the station at Beaufort, S. C., a distance given as 500 miles, the message having been understood and clear. This is the longest distance a successful wireless message has been sent from a station afloat.

90 Years Ago—As the session of Congress approaches, the Regular Army receives more and more attention. An order has been issued by the War Department for a board of officers to assemble in Washington, D. C., as soon as practicable, to examine and report upon the applications and recommendations which have been submitted for appointments in the Regular regiments of the Army. The following is a statement of the vacancies to be filled:—In the cavalry arm, second lieutenancies, 54; in the artillery arm, second lieutenancies, 40; in the infantry arm, first lieutenancies, 60, second lieutenancies, 299; total number of vacancies, 453.

READERS' VIEWS

(Letters to the Editor must have author's name and address, but name will be omitted on publication if writer so states. Longer letters may be extracted for publication.)

"Hurricane Hunters"

Editor, THE JOURNAL:

We are most appreciative of your publicity coverage afforded the 59th Weather Reconnaissance Flight. (THE JOURNAL 15 Oct.) Your article is being disseminated to the men of this organization and I know this will increase the "esprit de corps" of this unit.

It is gratifying to know that the public is being informed of the importance of our mission. Your article will also add to important historical data maintained by this unit.

EARL F. DUNPHY,
LT. COL., USAF
COMMANDER.

No "Family Doctor"

Editor, THE JOURNAL:

The letter in the 22 Oct. issue of THE JOURNAL, signed "Lt. Col. USA," presents an argument which could be used to good advantage by the Pentagon representatives who go before Congress next year to plead for more adequate medical care for military dependents.

Your correspondent mentions that Service personnel never know the meaning of the term "family doctor." How true. Yet, the family doctor plays a part in American family life

which is almost as important as that played by parents.

Almost all children have some fear of medical attention and can be easily persuaded to go to the doctor only after repeated visits to a friendly family physician have convinced them that there is nothing to fear.

Service children have no opportunity to learn this valuable and socially significant role. They are, as your correspondent states, "shipped around willy-nilly from station to station" without the benefit of a family doctor.

It may be, of course, that in time they find similar satisfaction in being treated by a uniformed doctor. The "Service doctor" could take form in their minds as a sort of "family doctor" despite the fact that his appearance changes with every change of station.

Now, however, it appears that even this assurance will be removed under a Defense Department plan which would provide a civilian doctor at one station, a military doctor at another, and a civilian again at a third.

AIR FORCE WIFE.

Seek 26th Regt. History

Editor, THE JOURNAL:

The 26th Inf. Regt. is in the process of preparing year books

dating from activation to the present time. Former Commanders and/or members of the regiment having any material, i.e.; photographs, letters, etc., which would be of value are urged to forward it to the Commanding Officer, 26th Inf. Regt., Ft. Riley, Kans. Any material that the owner desires to retain will be duplicated, if possible, and the original returned.

JAMES J. KING,
CWO, USA,
ASST. ADJUTANT.

Family Medical Care

Editor, THE JOURNAL:

A bouquet to General Ogle for his forthright statement on military family medical care and to THE JOURNAL for giving both news and editorial space to this important subject.

Your views and those of the Air Force Surgeon General constitute an accurate diagnosis of the medical care problems which currently confront the Armed Forces. We can only hope that the Congress will prescribe a quick cure.

Speaking for my own command, I can assure you that nothing is more important to the morale of Army troops, both officer and enlisted.

MAJ. GEN., USA.

Human Component Still the Critical Factor In Weapons Systems, Researchers Agree

Continued recognition by the military that "the human component is a critical and often the key factor in modern weapons systems" was cited last week as having been demonstrated by the "significant advances" reported from Air Force Laboratories.

The occasion was a three-day meeting of leaders in Air Force psychological research held 14, 15, 16 Nov., at the National Academy of Sciences-National Research Council in Washington, D. C.

Chairman of the meeting was Dr. Harry F. Harlow, Comstock Research Professor, University of Wisconsin, and chairman of the Council's Division of Anthropology and Psychology. The meeting was arranged at the request of the Air Research and Development Command.

Backed by All Services

Dr. Harlow pointed out that psychological research is not only being advanced by the Air Force but also by the other Armed Services. He recalled that at a recent meeting of the American Psychological Association 25 per cent of the papers presented were based on research sponsored by one of the Armed Services.

The human component has always been the limiting factor in warfare, Dr. Harlow declared. What is new today, he said, is that military planners recognize the need for organized scientific study to select the best men, to train men in the best way, and to furnish them with instruments they can use effectively.

A study of the effects of loss of sleep upon the ability of Air Force officers to "perform a complex mental task" was presented by Lt. Walter D. Chiles, USAF, of the Aero Medical Laboratory, Wright Air Development Center, Dayton, Ohio. Six subjects were deprived of 30 hours sleep and then confronted with a complicated task. Persons who had had a normal amount of sleep "learned" this task fairly rapidly, but those who had been sleepless showed marked decreases in learning ability.

Judging Sound Direction

Dr. Raymond J. Christman, of the Human Factor Laboratory, Rome Air Development Center, Rome, N. Y., reported on basic measurements of the way in which a person judges the direction from which a sound is coming. His findings will be of particular interest to designers of such devices as the ground observer corps' "buzz-bonnet" (the helmet which receives radar signals from incoming planes and transmits a signal to the observer's earphones).

The human hearing system is "binaural," i.e., sounds are sensed through two places—man's two ears—and a sound from the left originally is heard a little more loudly and a little more quickly by the left ear than it is by the right. Dr. Christman's experiments detailed the nature of the time difference in sound arrival between one ear and the other and the size of the difference in loudness. One application of this study would be in designing an instrument to feed into earphones an "artificial" directionality, by arranging that signals from the right or left or wherever would be transmitted differently to the right and left earphone of an observer. He outlined the facts on which an instrument could be made to take a radar signal that ears could not detect and transform it into a sound signal apparently coming from the direction of the radar. Thus the direction of a plane would be signaled to the observer in the same way he ordinarily judges sound direction.

Tests for Recruiters

Walter R. Borg and Michael A. Zaccaria, of Lackland AFB, Texas, reported on tests which are helpful in predicting which men will make good recruiters for the Air Force. They reported that persons who test high on participation in civic affairs, gregariousness, initiative, etc., later turned out to be good salesmen for the Air Force. They found that persons with "coercive" tendencies, i.e., "tendency to force others to act in a manner contrary to their own wishes"

did not promote recruiting.

W. J. White and M. B. Riley of the Aero Medical Laboratory reported on the effect of G upon pilots' ability to read airplane control dials under various conditions of cockpit illumination. G is the name given to the "pull," similar to that of gravity, experienced by men in airplanes making sharp turns. This is measured by "G's"—4 to 5 Gs thus means a centrifugal force equal to four to five times the pull of gravity. Higher levels than this cause temporary blindness in the pilot of a plane pulling out of a fast dive, and the object of the research reported was to gain information on the kind of illumination needed for conditions below this level.

White and Riley tested men in a "human centrifuge" at Wright Field, in which a man is swung on the end of a carriage similar in principle to a very fast-moving merry-go-round. They found the effect of increased G "as being equivalent to putting an optical filter before the subjects' eyes." G reduces the apparent brightness of illumination, and it was found that increasing cockpit lighting and making other changes would "minimize the reading errors" they found at lower G levels. Changes in blood circulation and an actual downward pull on the lens of the eye were given as factors in the dimming of vision under increased G.

Survival Psychology

Techniques for studying individual and group adaptations in "survival" conditions, as when a crew is forced down or is escaping from an enemy prison camp, were described by Dr. E. Paul Torrance, of the Air Force Personnel and Training Research Center, Stead AFB, Nev.

Based on interviews with escapees, in which psychological analysis was made of the events which happened and the personality change or lack of change of the men involved, Dr. Torrance said he believed such extreme experiences could be studied by certain techniques, so that useful information could be given Air

Force personnel who might some day face crash landings in a jungle or hazardous escape journeys from enemy territory.

Approximately 150 persons, including invited guests from the other Services and from civilian institutions, attended the meeting.

Coffee For Profit Is "Grounded"

Revenue-producing squadron coffee shops operated by unit funds to finance special projects are prohibited, according to a letter just sent to all command bases by the Strategic Air Command.

Some SAC bases have been operating unit fund coffee shops under the mistaken impression that AFR 147-7 granted incidental revenue producing privileges to welfare funds.

The SAC letter was not directed at non-profit office coffee facilities. The need of coffee shops is recognized, the letter said, "but the possibility of utilizing base exchange mobile flight line canteens and vending machines should be explored more fully."

Photo Prizes Set

Each of its numbered Air Force units will receive \$100 for prizes from the SAC welfare fund to be used in the current USAF Photography contest.

Overseas air divisions, with the exception of the 3d AD, Guam, will compete under the overseas Air Force in their area. The 3d AD has its own welfare fund; however, they will compete in the command level contest.

Numbered Air Force winners must be forwarded to SAC Headquarters by 10 Jan., for command judging by 1 Feb. Command level prizes will be \$35, \$25 and \$15 for first, second, and third places, in each of the three categories, black and white, color transparencies, and a three picture story of some phase of the special service program.

This year's USAF Photography base level judging will be held on or about 1 Dec.

farther behind each year. Thousands of my juniors, including those who unsuccessfully competed against me for RA in 1949, passed me up, in 1950, and are already Majors, AUS (my current prognosis is for 1959, or is it 1960?). Thousands more with less active service are now to be brought into the Regular Army senior to me, simply because of their age. I chose an Army career and was immensely proud when I was selected for an RA commission, by a highly competitive mechanism, in 1949, but little did I then realize what that proud accomplishment was to cost me, in terms of advancement, salary, and personal pride, ever since. Although I personally find it very hard to believe that the top management echelon of the Department of the Army fully realizes the impact of these policies on what must be at least 10-15% of the Army Promotion List, these are apparently the policies under which we are to operate in the next handful of years, and I sincerely do not know if I am prepared to live with the system and be loyal to it, that long. I shall be hesitant to forego 13 years of service (the Promotion List says "7") and resign my commission, but the Department is obviously not too alarmed over my resignation or the dozens of others which are submitted every month.

Who in the Department of the Army will speak for the competitive-tour officer and for a better Army of tomorrow? Anyone?

"CAPTAIN, RA"

Copter Demonstration Set

The first flight demonstration of the Air Force YH-16A turbo-transporter, termed "the world's largest turbine-powered transport helicopter," will be held 6 Dec. at the Philadelphia International Airport.

The new helicopter was designed for the AF by the Piasecki Helicopter Corp.

Readers' Views

From preceding page—

Competitive-Tour Officer

Editor, THE JOURNAL:

Who in the Department of the Army will speak for the competitive-tour officer? And, in so doing, who will make a dramatic contribution to the stature and worth of the professional officer corps of the Army of today? Anyone?

During the "competitive-tour era," 1948-1950, officers who competed for appointment in the Regular Army knew that, if successful, they would forfeit credit on the Army Promotion List for all active federal, commissioned service performed by them prior to 1 Jan., 1948. While this was a somewhat anomalous situation, when a vast number of officers integrated into the Regular Army in 1946-1947 were credited with years of service they never performed, simply because of their age, this was nonetheless the ground-rule under which RA appointments were then tendered, and we all knew it. So no complaints.

But what of now? The Army is again planning an RA integration program, this time to be known as an "augmentation." Proposed legislation is to be introduced into the next Congress, and the same age-minus-25 system is apparently to be followed again. As a result, thousands of officers will again be appointed in the Regular Army and credited with years of Promotion List service never actually performed, but what of the competitive-tour officer of seven years ago, who was deprived of credit for service which he *did* perform? While it would appear unthinkable not to first restore that credit, *a priori*, before integrating a single officer into the Regular Establishment under the new augmentation program, there is no commitment whatsoever on the part of the Army to do so. In fact, the evidence is that the

Department has no intention of making this restoration, even if it does receive from the Congress the statutory authority to do so. True, several thousand files would need to be reviewed, and several thousand basic dates recomputed . . . a "big job."

In 1950, after the outbreak of hostilities in Korea, temporary promotions came to life, and the Army adopted—for ten short months—a curious "double-barreled" system wherein Reserve officers were considered for AUS promotion on the basis of the only date-of-rank they had (AUS), whereas officers of the Regular Army, irrespective of their AUS grade or date-of-rank, were considered for AUS promotion in the order in which they stood on the permanent Promotion List. Effect of this on the comp-tour officer? Why, those 1st Lieutenants and Captains who had been successful on their tour were not yet even eligible for consideration, despite great AUS seniority, while literally thousands upon thousands of their juniors, including a substantial number of *unsuccessful* comp-tour officers, were promoted forthwith. Patently, this policy penalized success and rewarded failure, and the Department shortly recognized this fact for the AUS promotion policy was changed to that now in effect—but it took ten months to accomplish this and in that unhappy interval the comp-tour officer fell far, far behind. At the present rate of advancement of zones of consideration, that ten-month period has magically grown to about six years, in which the exhaustion of each zone of consideration of one month requires one year or more.

So, the comp-tour officer (as well as certain other categories of RA officer personnel) was not only deprived of Promotion List credit for years of service performed, but was again penalized for having made Regular Army, on the AUS

side of the structure. Now, with the new augmentation program to be requested of the Congress, officers junior to successful comp-tour candidates of seven years ago, and with less active, commissioned service, will again be brought in above most comp-tour officers on the Army Promotion List, solely and purely because they are *older*. Included in this group, what do you want to bet, will be a significant number of previously-unsuccessful RA candidates, since there are reliable indications that the large number of officers to be integrated will reduce "selectivity" to marginal levels, at best. With no provision for adjustment of these inequities, with no mechanism for selection of outstanding officers for accelerated advancement, with no intent to erase the penalties to which the comp-tour officer has been repeatedly subjected, what price success seven years ago?

Of course, the comp-tour officer (and all Regular Establishment officers, for that matter) has one other situation to which to look forward: if, one day, he is selected for Colonel, RA, the very first time that he is in the zone of consideration for that permanent rank, he is assured that he will be mandatorily retired on the fifth anniversary of the promotion ensuing from that selection ("30-and-5"), but if he is passed over, on a "best qualified" basis, two of three times, he will be permitted to remain on active duty that many additional years. Philosophy, in this new Army, appears to be: penalize success, reward failure. But does this build the best possible of armies?

I am now a reluctant candidate for a job with other than the U.S. Army. I have four degrees, graduated Phi Beta Kappa (Chemistry), speak French fluently, and have had an OEL score above 130 for the past five years, but, advancement-wise, I seem to get farther and

MEMO For Journal Readers

SEC'Y BRUCKER'S BOLD ASSERTION that the Army is short hundreds of doctors to meet its minimum medical needs could trigger a Congressional inquiry. In the past, most Defense officials who have spoken about the need for more doctors have avoided such a direct charge. APPARENTLY WILLING TO FIGHT for what he believes an essential requirement, Mr. Brucker has made it plain he thinks the Office of Defense Mobilization should authorize more doctors for the Armed Forces. DON'T BE SURPRISED if the House Armed Services Committee, always responsive to threats of curtailed medical care in the Uniformed Services, launches a probe in this area shortly after the New Year, although there's a possibility that the controversy will be merged with consideration of pending legislation to expand family care. WITH POWERFUL OPPOSITION in prospect from the American Medical Assn., the problems of obtaining more doctors for the Services and more care for Servicemen's families likely will provide some of the hottest hearings at the Capitol in 1956.

A MILITARY BIG 3 IVY LEAGUE football competition is in the offing. Authorities at the Military, Naval and Air Force Academies already are giving study to problems that will be created when the teams begin to play one another. THERE'S LITTLE CHANCE the Army-Navy game will be supplanted as the top tilt for each of these two Academies, much as the Harvard-Yale game commands priority attention, despite Princeton's presence in the Big Three. The likelihood appears that both Army and Navy will play the Air Force Falcons—probably in the midwest, with Chicago seen as a leading prospect for at least one of the games. This will mean that the Air Force Academy gridders will be able to claim the Service Academy Championship, no matter the Army-Navy Game outcome, should the Falcons defeat the Cadets and Midshipmen. POLITICAL PRESSURES are certain to develop regarding the locale of the Service Academy games.

THERE WILL BE RENEWED SPECULATION that the Army's famed 1st Cavalry Division will be merged with another Division as a result of this week's announcement that the 1st Cav is to lose one regiment (the 7th) and a Field Artillery Battalion (77th) "in the near future." It's the first throwback to two regiment divisions since just before Korea. PLANS TO REDUCE THE STRENGTH of the 1st Cav followed the Army's statement earlier this month that the 71st Infantry Division will be taken from the active rolls next year, to be redesignated the 4th Infantry Division.

SIX HUNDRED ARMY AVIATORS (fixed wing) per year will receive primary training beginning in January at Spence AB, Ga., which is a civilian contract school for training new Air Force pilots. The other 1200 Army pilots slated to receive primary training in 1956 will be assigned to Gary AFB, San Marcos, Tex. IF THE ARMY FOLLOWS the Air Force policy, all fixed wing primary training may be given at civilian facilities of the Aeronautical Training Society.

ARMY PUBLIC INFORMATION PRESTIGE may not be enhanced by the new General Staff Reorganization (Page 1). The Chief of Information and Education will be responsible to the Deputy Chief of staff for Personnel, and not to the Chief of Staff. EXPERIENCE OF NEWSMEN is that difficulties inevitably result when the PIO does not have direct access to the top military officer. The new set-up probably won't create serious problems at the Pentagon, but in the field, it may be another matter.

—2—

THE NATIONAL GUARD is shooting to go over the half-million manpower mark by next summer; this means it will be just about the size of the entire Active Army just before Korea. The Army National Guard, which began FY '56 with 358,241 officers and men, plans to have 425,000 on its rolls by the end of June. The Air National Guard, which started FY '56 with 61,306, hopes to have 7900 officers (3950 of them pilots) and 62,500 airmen 12 months later. THE ARMY'S DECISION to place greater reliance on the Guard as a ready combat force, in comparison with the increased training mission given to the Reserve, and the expanded role of the Air National Guard, will mean that spokesmen for the Guard, always politically powerful, will be in an even stronger position to argue for facilities and training funds during Pentagon budget sessions and hearings on Capitol Hill.

MILITARY COMMANDERS AGAIN are being urged to fix holiday travel schedules so that military personnel are discouraged from driving in the early morning hours.

IF THE MARINES are ever involved in a major maneuver with the Air Force, as is the Army in Exercise Sage Brush, it can be taken for granted that the Leathernecks will employ their helicopters as they deem essential for a particular tactical requirement. FEW CAN ENVISION the Marine Corps' permitting restrictions on the use of one of its weapons; a powerful protest would be the quick result. The Army, on the other hand, apparently was willing to remain quiet regarding Air Force limitations on the use of helicopters in Exercise Sage Brush until the test was well underway. AFTER THE AIR FORCE MODIFIED the limitation order, Army Sec'y Brucker, obviously wishing to end the controversy, answered newsmen's inquiries with a "No Comment." When he did that, everyone else in the Army was on notice to follow suit.

A HIGH-RANKING PENTAGON OFFICIAL may be summoned early next year to testify before a Congressional committee on "conflict of interest" allegations. There's no doubt the Democrats, in an election year, will be striving to win public attention for such cases.

THE HOME STRETCH has been reached in work on the fiscal '57 budget, with critical decisions to be made in the next two weeks. The Soviet attitude during the recent Geneva "Little Summit" sessions is expected to bar any cut in current spending rates; in fact, defense expenditures could go up from the presently estimated \$34.5 billion for fiscal '56. IT WILL BE INTERESTING to see how much money DoD approves for guided missile procurement in the year beginning next July, for that will be an indication of research and development progress. This year's pricetag for guided missile purchases will be about \$1.6 billion.

SANTA CLAUS will have to find other methods for arrival in civilian communities for Christmas programs; Air Force, Navy, Marine Corps and Army aircraft cannot be used for this purpose. It's a Defense Department policy decision. THE JOVIAL HOLIDAY TRAVELLER can be landed—with pack—at Armed Forces installations. Helicopters are increasingly in demand for such assignments.

Your Staff

U. S. ARMY ORDERS

Wilber M. Brucker—Secretary of the Army

Charles C. Flanagan—Under Secretary of the Army
 Hugh M. Milton, II—Assistant Secretary (Manpower & Reserve Forces)
 George H. Roderick—Assistant Secretary (Civil-Military Affairs)
 Frank H. Higgins—Assistant Secretary (Logistics, Research & Development)
 Chester R. Davis—Assistant Secretary (Financial Management)
 General Maxwell D. Taylor—Chief of Staff

It doesn't make much difference how many dollars you have to invest. You can purchase Mutual Fund shares for almost any amount—large or small. And in one lump sum or on a systematic basis. But why buy Mutual Funds?

One good reason is that by owning shares in a Mutual Fund, you own a share in as many as 100 different companies. And you share in the varying cash dividends they pay. That's putting your money to work for you—not letting it lie idle. Professional investment men select these securities carefully. And they watch them continuously for you, too.

We've helped thousands of service and civilian personnel in their financial planning. Helped them to select the Mutual Fund or Funds most in line with their personal aims. Let us help you, too.

Send a postcard and we'll mail you our new, free MUTUAL FUND BOOKLET. It has full information on how you can get started now on a planned program of owning Mutual Fund shares.

Army Chemical Corps Moves to Put New Organization Into Operation

The Army Chemical Corps, the importance of its mission newly reemphasized, is moving to strengthen its organization by rapid implementation of recommendations made by a high-level civilian advisory committee.

This group, whose findings have been endorsed by Army Secretary Wilber M. Brucker, said the Chemical Corps must be organized to keep pace with progress in its field of responsibility and "must be capable of fitting new and changing developments in Chemical and biological discoveries into our military needs and concepts."

The ad hoc committee declares that Chemical Corps research efforts "should be imaginative and oriented to development of weapons of maximum potential, irrespective of particular concepts of warfare. It must develop agents and weapons . . . to the fullest extent the human mind can encompass."

The Committee stressed that the Chemical Corps "must have an opportunity to be heard and its recommendations weighed early and frequently on critical points within the military."

To strengthen the Chemical Corps for these tasks, the Committee says there should be a top management team of a Chief Chemical Officer, Deputy Chief, and Deputy Chief for Scientific Activities. The Committee gave its approval to the practice of naming a civilian scientist to be Deputy Chief for Scientific activities.

The Committee proposes that the Chemical Corps have three major commands—Research and Development, Engineering, Materiel.

Field operations for the R&D Command would be under the direction of three "highly qualified individuals" at the Army Chemical Center, Maryland, for CW; at Camp Detrick, Md., for Bacteriological Warfare, and at Dugway Proving Grounds, Utah, for Field Testing.

Headquarters for the Engineering Command would be at the Army Chemical Center.

The Committee said that Materiel Command headquarters should be shifted from Baltimore to the Army Chemical Center and that housekeeping responsibilities for this facility should be assigned to the Materiel Command.

The Committee's report recommends dissolution of the Chemical Corps Training Command and says that there should be maximum delegation of education and training functions to the Chemical Corps Schools.

With the exception of this school, it is proposed that training responsibilities be shifted from the Chemical Corps to the Continental Army Command. The report states, however, that this should not conflict with the responsibility of the Chief Chemical Officer for career management of Corps personnel.

Another major proposal would result in assignment of an Assistant Chief

ROTC Units Eligible For Uniform Bargains

The Army has told Professors of Military Science and Tactics, Senior Division, ROTC (in Circular 145-12) that reduced prices on semidress winter uniform items are available for students.

Pentagon Lays Plans To Conserve Minerals

At a conference held 22 Nov. in the Pentagon under the chairmanship of Assistant Defense Secretary Frank D. Newberry to discuss policies governing the utilization of critical materials in aircraft turbine engines, jet engine contractors and subcontractors were asked to adopt percentages for critical minerals per 100 lbs. of their turbojet engines.

Alloy steel manufacturers offered to cooperate with jet engine builders and the Defense Department in working out the percentages to conserve minerals.

Among minerals reported in serious need are: nickel, cobalt, tungsten and columbium.

Army Navy Air Force Journal 17
26 Nov. 1955 (Vol. 93, P. 389)

SecDef Will Guide Soldier Vote Plans

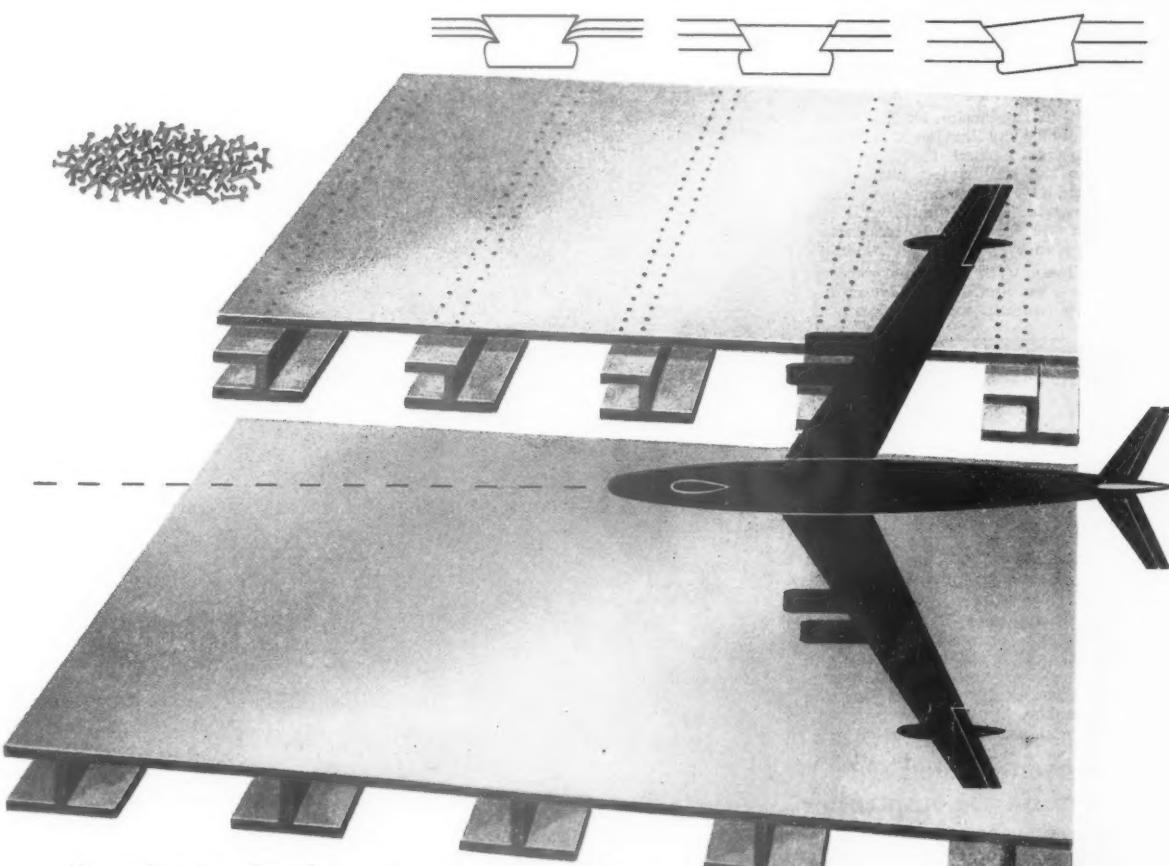

Voting by military personnel in the coming National elections will be conducted under new rules and regulations.

President Eisenhower this week authorized Defense Secretary Charles E. Wilson to administer the technical details of the Federal Voting Assistance Act of 1955.

The new law, approved by the first session of the 84th Congress, allows military personnel and their eligible dependents in overseas areas to cast absentee ballots in Federal elections.

Harvey extrusions... simpler, smoother parts for better flight

Improperly installed rivets and bolts have always contributed heavily to the turbulence and drag that downgrade a plane's over-all performance. On light-gage skins, dimples result . . . on medium skins, rivets can be countersunk, but often end up below the desired surface . . . the steel bolts used on heavy skins just can't be shaved to surface smoothness.

Harvey Aluminum Extrusions combine skin, spar, and stiffeners in large panels, virtually eliminate rivets and bolts, thus achieve a degree of aerodynamic smoothness that reduces operating costs and improves performance. And at the same time, assembly is faster, sealing is eliminated, and inspection is simplified.

MAKING THE MOST OF ALUMINUM . . . FOR EVERYONE

HARVEY
Aluminum

HARVEY ALUMINUM SALES, INC., TORRANCE, CALIFORNIA—BRANCH OFFICES IN PRINCIPAL CITIES

Harvey is a leading independent producer of aluminum extrusions in all alloys and all sizes, special extrusions, press forgings, hollow sections, structural, rod and bar, forging stock, pipe, tube, impact extrusions, aluminum screw machine products and related products. Also similar products in alloy steel and titanium on application.

MAJ. GEN. EDWARD J. TIMBERLAKE, USAF, (left) Commander of the 9th Air Force, Shaw AFB, S. C., greets General O. P. Weyland, USAF, Maneuver Director and Unified Commander for Exercise Sage Brush.

"Without Prejudice," Says Air Force

The following statement was released by the Air Force this week concerning Exercise Sage Brush and the use of Army Aviation in the test:

"On a question raised by one of the Army units participating in Sage Brush involving use of certain Army aircraft, the Sage Brush Director, General Weyland, acting under the Joint Army-Air Force ground rules for the Exercise, ruled against the Army's proposal.

"On appeal of this action by the Army, and on review by the Service Secretaries involved it was agreed that, without prejudice to the underlying issues, the Army should be permitted to proceed with its proposed experiments, and the Secretary of the Air Force so instructed General Weyland.

"In accordance with these instructions the Director rescinded his earlier ruling and the experiments were performed."

President Names New Def. Dept. R&D Chief

President Eisenhower has named Clifford Cook Furnas, 55, Chancellor of the University of Buffalo, to be Assistant Secretary of Defense for Research and Development.

Mr. Furnas succeeds former Assistant Secretary Donald A. Quarles who left the post to serve as Secretary of the Air Force.

A chemical engineer, Secretary-designate Furnas is a former Director of the Curtiss-Wright Laboratory, Buffalo, and of the Cornell Aeronautical Laboratory. He has served in his present position since September.

Col. Hansen Named Army Eng. Comptroller

Col. Everett A. Hansen will become Engineer Comptroller, Office of the Chief of Engineers, USA, effective 6 Dec.

Colonel Hansen has been the Resident Member, Beach Erosion Board, Corps of Engineers, Washington, D. C., since June 1954. As Engineer Comptroller, he will succeed Col. Edward G. Herb, who recently retired. Brig. Gen. Theron D. Weaver, who is President of the Beach Erosion Board, will also serve as Resident Member.

Brig. Gen. Henry J. Hoeffer, Atlanta, Ga., South Atlantic Division Engineer for the Corps of Engineers, shortly will be named as a member of the Beach Erosion Board, to serve in that capacity in addition to his Division Engineer duties.

Capt. Charles I. McGinnis, who was Assistant Executive, Office of the Chief of Engineers since May 1955, has been assigned to the Beach Erosion Board as its Executive.

SecDef Wilson May Intervene In Army-Air Force 'Copter Dispute

From page 1—

trucks and insists that it be allowed to employ this "vehicle" as it deems best to further its combat capabilities. It had worked out detailed plans for taking patrols and reconnaissance units behind the "enemy" lines by helicopter. Apparently, in the case of this maneuver, it involved picking up the soldiers outside of the battle zone and flying them into the zone—technically at variance with the "Memorandum of Understanding." General Weyland ruled that such an

airlift must be done with Air Force helicopters and Air Force crews.

The Army, on the other hand, felt that its plan was purely a land battle action and should be implemented by the Army's own 'copters.'

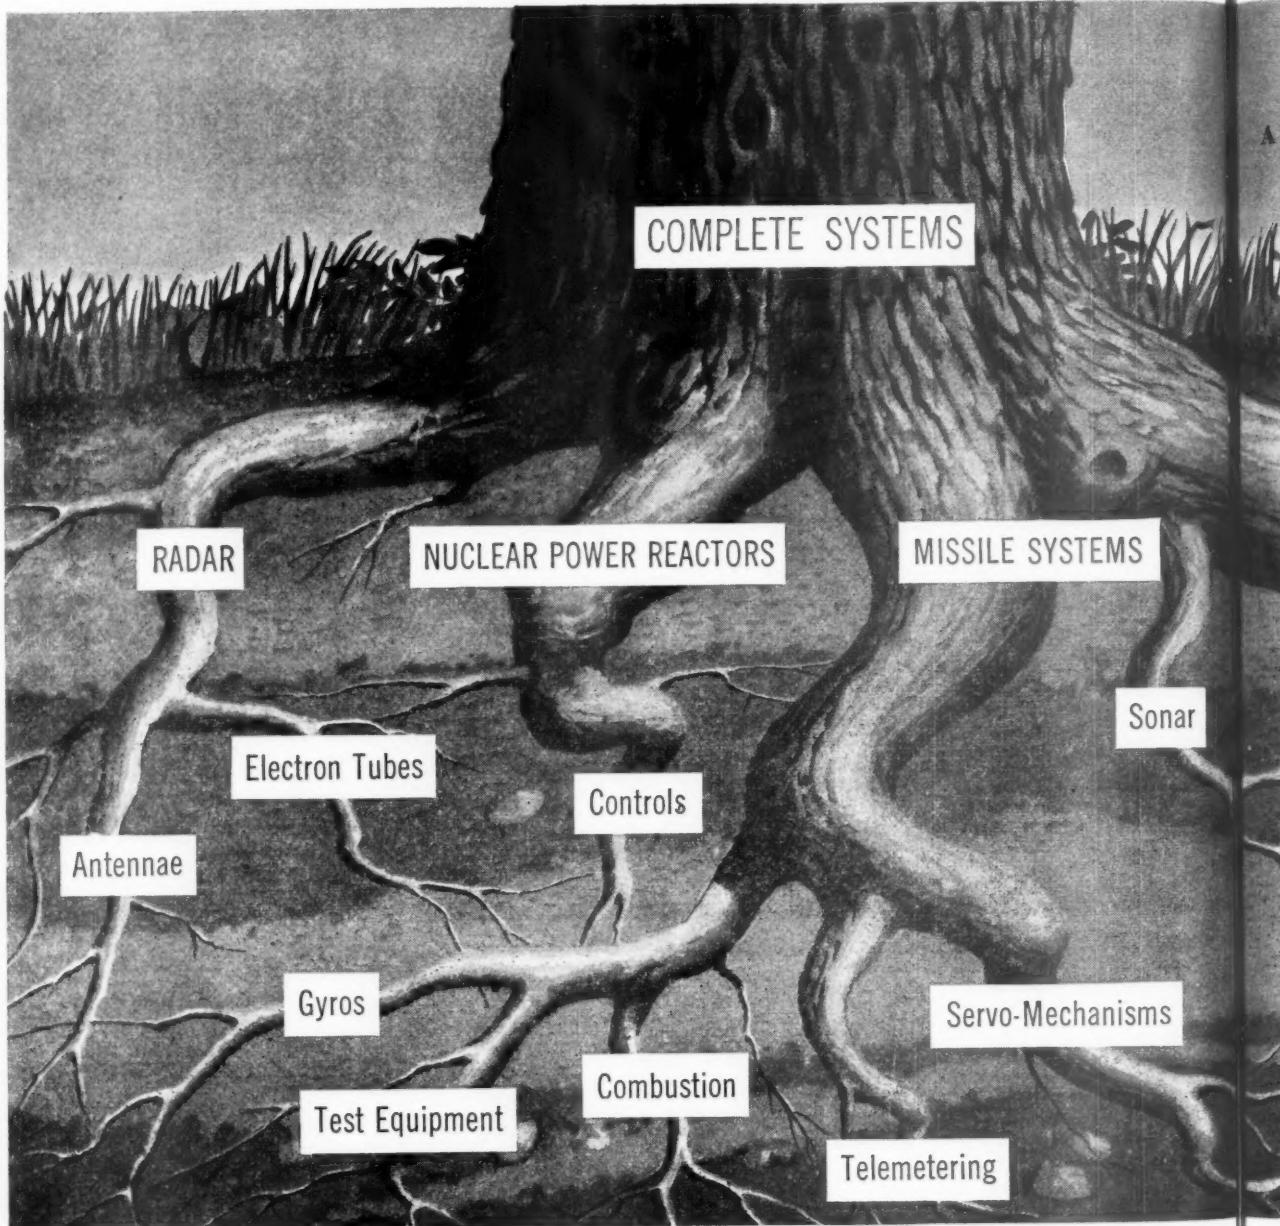

The Memorandum of Understanding, worked out by General J. Lawton Collins, USA, and the late General Hoyt S. Vandenberg, USAF, provides that the Army can use its own aircraft to move personnel and equipment "within a battle zone."

The Memorandum stipulates, however, that it will be the Air Force's responsibility to airlift troops and cargo from outside areas into the battle zone or from the battle zone to outside areas.

The crucial question in implementing this phase of the "Understanding" is the depth of the battle zone. This is determined by the theater commander.

The Army was upset. General Dahlquist quickly relayed his concern to Army Secretary Wilber M. Brucker through General Maxwell D. Taylor, USA, Chief of Staff.

Secretary Brucker conferred with Secretary Quarles and a decision was made authorizing expanded use of Army helicopters in Sage Brush solely for the purpose of making the Army test.

Bendix reliable components + Bendix systems engineering + Bendix proven production ability assure **DEPENDABLE SYSTEMS**

But Mr. Quarles made it plain to Mr. Brucker that the basic policies of the Memorandum of Understanding remain in effect. Mr. Quarles stressed that General Weyland had been correct in his interpretation of the Memorandum.

Secretary Quarles is said to have consented to modifying General Weyland's order only because of Secretary Brucker's plea that such a change would be necessary to permit the Army to carry out the special tests.

Obviously, this was only a stop-gap accord. There is little doubt that both the Army and Air Force will want a further clarification of the entire air transport problem.

The need for this clarification is indicated by virtue of the fact that atomic

warfare requirements are expanding the depth of the battle zone and making the zone itself more fluid.

There is also more at issue than the helicopters, for the Army is pushing research and development work on new types of aircraft, such as convertiplanes and assault transports.

If the concept is accepted that helicopters are like trucks, then other aircraft which perform similar functions, such as convertiplanes and assault transports, should be similarly considered.

This clearly would mean a major increase in the Army's organic aviation. Such an expansion would lessen the responsibilities of the Tactical Air Command.

It is no secret that General Weyland

has worked hard to increase the capabilities of TAC and that he has had strong support from top Air Force officers at the Pentagon in this effort.

On the other hand, there are reports that some Air Force leaders, faced with the prospect of tightened budget dollars, would be willing to permit a limited growth of Army Aviation in order to conserve Air Force money for such strictly air warfare spheres as those of the Strategic Air Command, Air Defense Command and the assault capabilities of TAC.

Some in the Army believe that the restrictions imposed during the early part of Sage Brush on the use of Army aircraft reflect the differences of viewpoint within the Air Force.

Beyond this, however, is the fact, made

clear by Sage Brush, that the Army and Air Force are not in accord over the use of aircraft, and that a review of the Key West agreement of 1948, which spells out basic roles and missions, and of the Memorandum of Understanding of 1952 is in prospect.

In the face of a drive to reduce military spending, a review of this kind could provoke arguments of such intensity that White House consideration ultimately might be necessary.

Col. Ind Writes Book

Col. Allison Ind, USA, author of "Bataan," has written a new book, "The Fires of Tjepo."

Published by Vintage Press, Inc., The Fires of Tjepo is set in the Far East where Colonel Allison has spent 14 years under the jurisdiction of American Forces Far East. The book is 313 pages long and retails for \$3.50.

The more deeply rooted you are in all the things of which systems are comprised, the better able you are to produce completely dependable systems.

Having produced millions of components, subsystems and complete systems for many years, Bendix Aviation is the logical direction to look for systems to solve many current problems as well as others anticipated. Bendix assets for systems work include:

MAN POWER—An engineering and research staff of over 9000 with a broader range of technical abilities than any in the country.

ENGINEERING AND RESEARCH—Over \$80 million

was expended on these functions in fiscal 1955.

PRODUCTION FACILITIES—Twenty-four widely dispersed manufacturing divisions located coast to coast employing nearly 50,000 people.

SYSTEMS PLANNING GROUP—Coordinates major systems work, giving you a single, centrally located contact—the Bendix Systems Planning Group, Bendix Aviation Corporation, Fisher Building, Detroit 2, Michigan.

Mid-Canada Warning Line Up to Schedule; Contracts Now Total More Than \$100 Million

A report on the current status of the Mid-Canada Early Warning Line, one of the four main elements in the continental air defense warning system, was given recently by the Hon. Ralph Campney, Canadian Minister of the National Defense, in an address to the Royal Canadian Army Pay Corps Association meeting in Ottawa.

The Mid-Canada Line, for which Canada is responsible for financing, constructing and operating, is up to schedule in spite of all hazards and difficulties, the Canadian Minister reported, adding that "there is no reason to believe thus far that the line will not be finished on time."

At the present time, he said, contracts let in connection with the line stand well over \$100 million.

Integrated Defense

"The four main elements in the integrated continental air defense system of North America," Mr. Campney pointed out, are:

First, the Pinetree System, which ties in to the Canadian and United States air defense commands a basic radar warning and control system, and through extensive communication networks links up the Canadian and United States air interceptor forces.

Second, the mid-Canada line, an early warning line supplementing the Pinetree radar system.

Third, the Distant Early Warning or DEW line across the most northerly practicable part of North America.

Fourth, extensions down both flanks of the continent to prevent outflanking of the transcontinental network by hostile aircraft.

"Planning of the system started some years ago, as soon as the thermonuclear threat began to take shape. It was realized at once that effective defensive steps to meet this threat would require the combined effort of both countries, that it would be costly and that its construction would be difficult."

Pinetree System First

Construction of the Pinetree radar system was tackled first. Part of it was constructed by Canada and part by the United States. In October, 1953, when the Pinetree system was becoming operational, a group of Canada-United States scientists and military advisers recommended that additional early warning capacity should be provided. After further consideration by the Chiefs of Staff of both countries, recommendations were made which led to the acceptance by Canada of the responsibility for financing, constructing and operating the mid-Canada line, while the United States undertook to construct the DEW line, with Canada contributing such resources and

assistance as could be made available. The United States also became responsible for the seaward extension down each flank of the continent.

"Actually, as the work on the DEW line goes ahead, we have found that we could help out in many practical ways. Valuable assistance has been given to United States authorities by aircraft and ships of the RCAF and RCN, respectively, and the Canadian Army, too, has helped out, especially through our base at Churchill, Manitoba. The Departments of Northern Affairs and National Resources and Transport have also assisted and, as you know, Canadian civilian air operators, contractors and industry generally have undertaken a good deal of the work in connection with specific DEW line sites."

Impact on Canada

"For reasons of national and NATO security it will still be a good while before the full construction story of these lines can be unfolded in all their gripping, challenging detail of risk, improvisation and achievement.

"It is, however, already clear that these two extensive achievements—as construction feats alone—will have an impact on the development of the Canadian North commensurate with that which the building of our transcontinental railway lines at the turn of the century had on the opening up of our Canadian West.

"Technically the mid-Canada line consists of a series of unit detection and warning stations with main stations at appropriate intervals extending from the Labrador Coast westward.

"The unit detection stations will use equipment originally devised by a research team sponsored jointly by the Defense Research Board and McGill University—hence the term sometimes used to describe it—"McGill fence." This equipment is of an advanced type and in addition to its demonstrated performance, requires a minimum of attention and is much less expensive than previously known types."

Typical Main Station

"A typical main station will consist of an administrative and operation building, personnel accommodation buildings, supply buildings, boiler and power plants, provision for inflammable stores, a garage and a hangar. All stations will have landing facilities for helicopters. Main stations will have special functions in relation to adjacent sections of the line, both as regards personnel and maintenance.

"Throughout the full extent of the line a multi-channel communications network is being built and appropriate air-ground-air communication facilities are being provided.

"The planning and organization of the

construction of the vast undertaking known as the mid-Canada line has been, I think, a marvel of co-operation on the part of government departments and government and civilian agencies. It is, in fact, something of which the Canadian people should feel very proud. All these departments and agencies started from scratch, with very little knowledge or experience in this particular field to organize and develop an entirely new project in virtually unknown territory and under little known conditions. They are succeeding extremely well and the teamwork has been excellent.

"The initial responsibility for planning and for developing the overall requirements to bring the line to an operational state was given to the Royal Canadian Air Force. To take over the planning from the stage where the Canada-United States team left off, a special section was set up in the R.C.A.F. known as the Systems Engineering Group. This section assumed the responsibility for supervising the surveys and siting and for drawing up specifications in collaboration with the Defense Research Board, to enable work to be commenced.

8,000 Miles of Aerial Photos

"Aircraft of the R.C.A.F.'s No. 408 Photographic Squadron with some assistance from civilian operators carried out nearly 8,000 miles of aerial photography and the photographing and mapping facilities of the R.C.A.F. and the Canadian Army Survey Branch were extensively used in planning the basic route of the line.

"While all this was going on, the Department of Defense Production was studying the best means of constructing the line speedily and efficiently. In view of the nature of the project it was decided to utilize the resources of the Trans-Canada Telephone System to manage all phases of the construction operation. Trans-Canada designated the Bell Telephone Company of Canada to act as management contractor for them and a 'special project division' of Bell was formed to actually carry out the task.

"On the construction side, Defense Construction Limited is responsible, working in conjunction with the management contractor, for letting regional contracts to major contracting firms across Canada. These regional contractors in turn employ sub-contractors to carry out the bulk of the actual construction. Defense Construction Limited and the management contractor also provide the technical staff for direct on-site supervision and installation of special equipment.

"Through the Department of Defense Production, contracts, frequently running into millions, are being awarded to all branches of Canadian electrical

and electronic industry and to industries supplying building materials. I might note here that in many instances such contracts are concurrent with similar commitments to United States authorities in connection with their DEW line requirements. In the interests of economy and effectiveness the two countries are working closely together in that regard."

Serve Only By Air

"The most difficult type of terrain from the point of view of transportation is, of course, the rugged deeply crevassed Quebec-Labrador area. Much of this area can be served only by air as other means would take much too long and would eventually probably cost a good deal more. Knob Lake, with its air and rail facilities, is proving invaluable as a construction base for this area.

"The types of buildings, too, vary according to the region. In the western and Hudson's Bay regions prefabricated steel structures with interior fibre board walls are being used, while in the Quebec-Labrador area, due to the prevalence of airlift as the means of transportation, light-weight prefabricated aluminum buildings will be installed."

Canadian-U.S. Cooperation

"To those who say that we in Canada should go it alone in this matter and to those who say we should let the United States take on the whole project, I would respectfully point out that the project is for the benefit of both countries and it is only due to the accident of geography that most of the installations must, of necessity, be on Canadian soil. Its purpose is for the joint defense of both countries and indeed, as I have already said, for the defense of NATO as well—just as much so as anything being done in Europe itself. And that is why Canada and the United States have planned and undertaken the project jointly.

"In that connection I would like to say how much I appreciate the close friendly co-operation, the sense of mutual understanding and common purpose which have characterized our relations with our neighbour throughout this matter. I sometimes think that if the same close and friendly relations generally which exist between our two countries could be universally applied in the field of international relations there would be no need for such projects as I have been discussing with you tonight. Unfortunately, as yet at any rate, we must all take this imperfect world as we find it. But at the same time we must do our best, in our time, to improve world relations and world conditions to the end that a third world war may be avoided—a war which would almost certainly lead to the destruction of us all."

order for her release on bond pending the outcome of any appeal taken by the Government.

ARDC Chief

The photograph on Page 11 of last week's JOURNAL identified as "Lt. Gen. Power, commander ARDC" was not that of Lt. Gen. Thomas S. Power, but was instead, that of Maj. Gen. E. M. Powers, USAF-Ret. THE JOURNAL regrets the confusion and presents herewith a photo of Lieut. Gen. Power.

Contracts Awarded For New Fighter Compass

Substantial production contracts for a newly designed compass to be used in the latest types of fighter aircraft have been awarded to Kearfott Company, Inc., a subsidiary of General Precision Equipment Corporation, it is announced by

Army Tells Promotion Plans In New Circular

Promotion prospects for thousands of Army officers on active duty have been outlined in a newly issued Circular, which spells out tentative time-tables for selections to temporary colonel, lieutenant colonel, major and captain.

Here is the pertinent data from Circular 624-2:

To Colonel—About 225 officers remain on the recommended list announced in July. It is expected that this list will provide enough eligibles to fill vacancies through 30 June 1956. A new selection board probably will be convened in late Spring or early Summer to create a new list.

To Lt. Colonel—About 250 officers remain to be promoted from the selection list announced in March. The junior officer is expected to be advanced during the early part of 1956. A selection board to make new recommendations for temporary lieutenant colonel convened late last month with a zone of consideration including all officers who have served at least 52 months on active duty prior to 31 March 1955 on the Army promotion list.

To Major—More than 700 officers recommended for promotion in April remain

to be promoted, with the expectation that the junior man will receive his majority by the end of March. A selection board will convene early in 1956 to consider a new zone.

To Captain—Slightly over 2500 officers remain on the recommended list and this will provide enough eligibles to fill vacancies at least through June 1956—perhaps later. A new board will be scheduled as this list nears depletion.

To First Lieutenant—The Army said promotion to this rank will remain decentralized and the present requirement of 18 months' active duty will continue.

The Army Circular pointed out that the foregoing forecast is based on currently authorized strengths and anticipated losses. It was stated that events may occur which will preclude promotion or consideration for promotion on the basis indicated.

Hermann G. Place, president of both concerns.

The new J-4 compass system, consisting of a gyro, control panel and servo amplifier, is already in production at Kearfott plants in Little Falls and Newark, N. J., and in Van Nuys, Calif.

Rule Out Military Trials For Civilians

A United States District Judge has ruled that military courts may not hold criminal trials for civilians who accompany the Armed Forces overseas.

Judge Edward A. Tamm said his decision was based on the principles enunciated in the recent Supreme Court ruling which prevents military tribunals from trying former Servicemen for offenses committed while in uniform.

The Supreme Court decision, he said, holds that civilians are entitled to be tried by civil courts.

Judge Tamm's ruling was made in the case of Clarice B. Covert who was convicted by an Air Force court martial of killing her husband M/Sgt Edward E. Covert. The conviction later was reversed by the United States Court of Military Appeals and Mrs. Covert was in jail awaiting a new trial at the time of Judge Tamm's decision. The Judge signed an

NORTH AMERICAN HAS BUILT MORE AIRPLANES THAN ANY OTHER COMPANY IN THE WORLD

NEW AIR SPEED RECORD MARKS U. S. SUPERSONIC SUPREMACY

Year after year, record performances by Air Force pilots in North American planes help confirm our nation's superiority in the air.

Now, the first supersonic speed record—set by Col. H. A. Hanes in a North American F-100 SUPER SABRE* at a faster-than-sound 822.135 m.p.h.—is powerful, new proof of our Air Force's Supersonic Supremacy.

F-100s like today's record-holder have been delivered in quantity to the Air Force, and are now flying from U. S. Air Bases in America's first Supersonic Squadrons. They defend our skies as day fighters, fighter-

bombers and in other specialized tactical missions. These ranks grow stronger daily with new F-100s from North American's Los Angeles and Columbus, Ohio plants.

Another example of the research, development and production leadership that keeps North American in the forefront of aircraft, rocket engines, guided missiles, electronics and peaceful applications of atomic energy.

Engineers: North American offers challenging career opportunities. Write Engineering Personnel Office, Los Angeles or Downey, California; or Columbus, Ohio.

U. S. Construction Program In Pakistan Scheduled

The Mediterranean Division of the Army Corps of Engineers will strengthen the air, land and sea defense of Pakistan under a Mutual Aid Agreement.

Pakistani airfields will be improved to accommodate high performance jet aircraft which the United States will furnish. Port facilities will be enlarged to accommodate ships furnished the Pakistani Navy by the U. S., and army facilities will be improved and expanded to take care of tanks and other equipment which Pakistan will receive from the United States.

Brig. Gen. B. B. Talley, commander of the Corps of Engineers' Mediterranean Division, flew to Karachi 24 Nov. to make preliminary arrangements for the construction projects. After conferring with U. S. officials and Pakistani authorities on technical agreements under which the work will be done, General Talley will then start initial steps to establish a District Engineer Office in Karachi, and five area offices where the principal construction projects will be located.

The District Engineer Office will be headed by Col. William A. Davis, who since 1952 has been Deputy Chief of Staff for Administration, Armed Forces Special Weapons Project, Washington, D. C. He is former District Engineer at Nashville, Tenn., Little Rock, Ark., and Guam. He also served as Acting District Engineer in the Philippines.

Ruling Changes Point Plan For Reservists

Computation of Reserve retirement point credits has been changed by a recent decision of the Comptroller General.

He has ruled that membership points may not be awarded for any period of active Federal service. This means that periods of active Federal service (including active duty for training) must be deducted in order to determine the number of membership points to be awarded for service in an active reserve component.

Prior to the decision, a Reservist could earn 20 points for 20 training periods, 15 points for 15 days active duty for training, and 15 membership points, for a

26 Nov. 1955 (Vol. 93, P. 395) Army Navy Air Force Journal

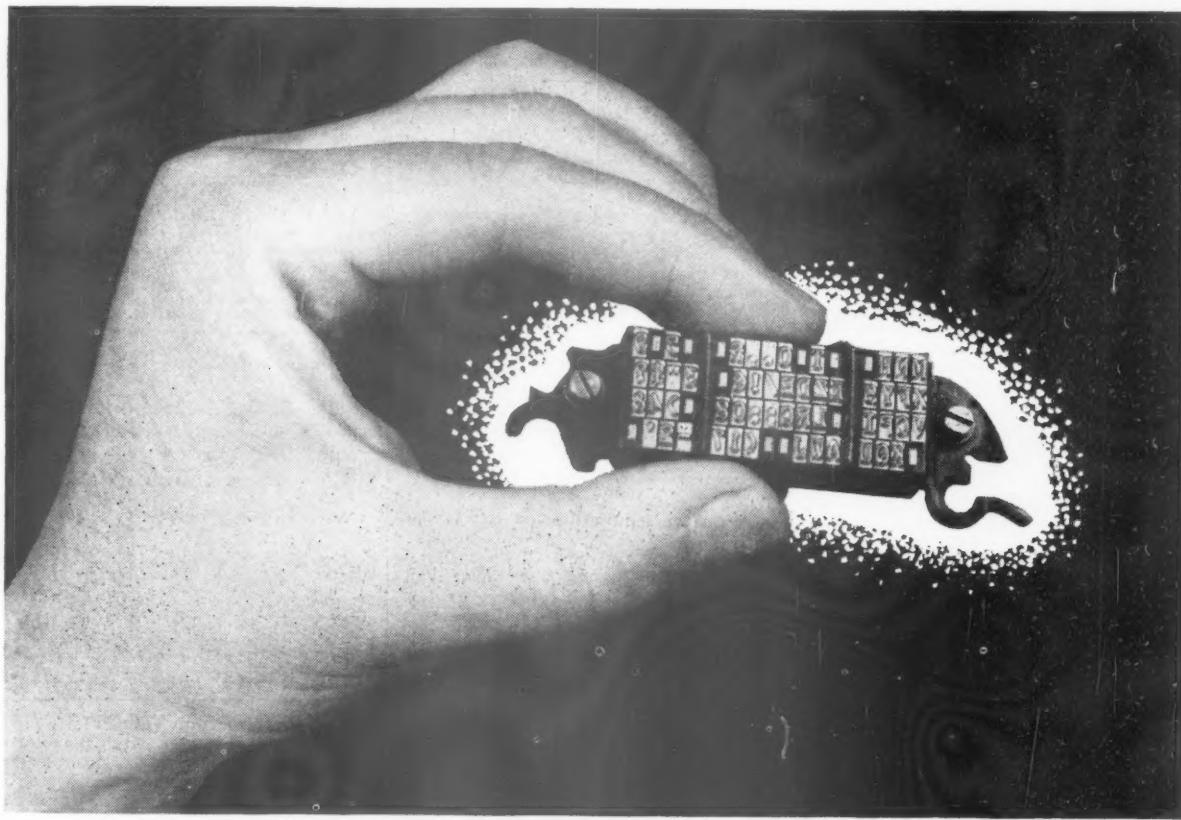

QUIET ACTION ON HOUSEHOLD GOODS

A new low for average on-hand-time for household goods for a four-week period was established by West Coast Personal Property Agency of Oakland, Calif., Army Terminal in the period ended in mid-November.

The average turn-over for Zone-of-Interior-bound household goods of military personnel was 7.2 days, including time for assembling consolidated carloads for shipment. Household goods being sent overseas were on hand an average of only 3.5 days.

total of 50. The same Reservist now earns 20 points for 20 training periods, 15 points for 15 days active duty for training, but only 14 membership points because 15 days active duty for training results in loss of one point for membership.

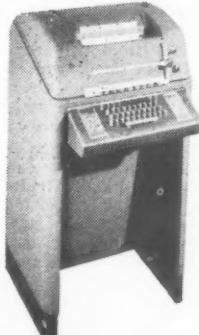

The decision, however, does not apply retroactively to any "retirement year" commencing prior to 15 April 1955. The deduction of membership points commences with the Reservist's first retirement year which begins after 15 April 1955.

The tiny Typebox that holds big ideas for printing telegraphy

The new Model 28 Teletype Printer is so completely original in concept that it introduces many revolutionary ideas to the field of printing telegraphy. Perhaps the most ingenious of these is that you don't need a conventional typebasket and heavy carriage.

A featherweight carriage featuring a two-ounce Typebox replaces it in the Model 28. Here's how it works: a) the Typebox is moved to bring the selected character to the fixed printing position; b) the print hammer drives the type pallet against

Model 28. If you'd like to complete your file with technical information on this rugged Teletype Printer, write Teletype Corporation, Dept. AN11A, 4100 Fullerton Ave., Chicago 39, Ill.

the ribbon and paper; c) after each stroke the Typebox is returned to its unoperated position below the printed line. Shift and unshift are governed by the Typebox position. The platen remains stationary.

You can easily see the advantages: smooth, quiet operation at 60, 75 or 100 wpm; maintenance cut to a fraction; quick interchangeability of type faces (without tools) facilitates conversion to foreign languages, weather symbols, code characters, etc. Altogether, the Teletype 28—with its completely new Typebox—represents a giant stride forward in the art of printing telegraphy.

SERVICE FAMILY NOTES

TOP-RANKING GIRL SCOUTS at Ft. McPherson, Ga., received Curved Bar awards at a ceremony conducted by senior troop leader Sandy Hagerman (center, right) at the Post Youth Center. Bars were pinned on (left to right) Linda McCullum, daughter of Maj. and Mrs. Earl E. McCullum; Mary Elizabeth Trent, daughter of Col. and Mrs. J. F. Trent, and Beth Rogers, daughter of Lt. Col. and Mrs. R. P. Rogers.

BRIG. Gen. (USA-Ret) and Mrs. Lawrence W. Young and their daughter, Mrs. David D. Hedekin, have moved from Atlanta, Ga., and can now be reached c/o P. O. Box 1593, Tryon, N. C.

OTIC Officers' Wives' Club to Help Needy

Members of the Officers' Wives' Club of the Office of the Inspector General of the Army gathered for their 17 Nov. luncheon, at Hall's Restaurant, laden with food donations for a Thanksgiving basket, to be presented to a needy family. The members also enjoyed participating in a "Do It Yourself" hat contest.

Mrs. Robert E. Kennington, chairman for the luncheon, was assisted by Mesdames Harry M. Kemp, Walter K. Wojcik and Frank E. Lee.

Mrs. Ralph Loring, the club's welfare chairman, presented a list of size requirements of the needy family to be cared for by the club at Christmas time. The donations will be collected at the club's December coffee.

Women's Club of Army SGO to Have Party

The Women's Club of the Army Surgeon General's Office will entertain at cocktails on the evening of 3 Dec. at the Ft. McNair Officers' Club, from 6:30 to 9:30 p.m.

Mrs. Anthony J. Zelenas, jr., chairman of the social committee of the club, has asked the following members to plan and make the arrangements for the gala affair: Mesdames George R. Carpenter, James F. Clark, Neptune Fogelberg, Marion Miller and Ross F. Swall.

Master Kean Is Baptized

Master Stephen T. Kean, jr., infant son of Lt. Col. and Mrs. Stephen T. Kean of 1519 Parkview Ave., Falls Church, Va., was baptized on 17 Nov. at St. James' Catholic Church, Falls Church, by Bishop Loras Lane, President of Loras College, Dubuque, Iowa, a close friend of the parents.

Both the baby's father and the godfather, Lt. Col. Howard F. Schiltz, are assigned to the Office of the Chief of Staff of the Army. The godmother of the newly christened eight-month-old baby is Mrs. Margaret Foley, wife of Col. Foley, USMC.

Colonel and Mrs. Kean have two other children, Thomas J., 8, and Patricia, 6.

Armed Forces Hostesses

Members of the Armed Forces Hostess Association will hold a dessert-fashion show at 1:00 p.m., 8 Dec., at Hecht's Auditorium, Arlington, Va., when cocktail and holiday party fashions will be shown, as well as gift items.

The party chairman, Mrs. Milton Zimmerman, and her assistants have planned the affair as a welcome to the wives of officers newly assigned to the Washington area. Mrs. John H. Stokes, jr., honorary president, and Mrs. Wayne Hunter, president of the group, will welcome the newcomers.

The Armed Forces Hostess Association is a group of volunteer Army, Navy, Air Force, Marine and Coast Guard wives, who call on newly-arrived Service wives, and maintain an information office in the Pentagon.

Chief of Naval Personnel, VAdm. J. L. Holloway, jr., USN, and RAdm. Bruce E. Bradley, MC, USN, Deputy Surgeon General of the Navy. Also recipients of Admiral Hogan's hospitality were RAdm. W. P. Dana, MC, USN, Assistant Chief, Aviation and Operational Medicine, Bureau of Medicine and Surgery; Dr. James A. Shannon, Director of the National Institute of Health, Bethesda, Md.; Mr. Fred A. McNamara, Executive Office of the President; Maj. Gen. Howard M. Snyder, MC, USA-Ret., Personal Physician to the President; Dr. Wallace M. Yater of the Yater Clinic, Washington; and Dr. Walter A. Bloedorn, Dean of the George Washington University School of Medicine.

Looking for something? Want to dispose of something? Use and read the Army Navy Air Force Journal's classified advertisements.

Service Folk

Selected by the U. S. Navy to be the sponsor, in recognition of her husband's role in mine warfare during WWII, **MRS. TIMOTHY F. DONOHUE**, wife of **REAR ADMIRAL DONOHUE, USN-Ret.**, of 204 Columbia Heights, Brooklyn, N. Y., launched the minesweeper USS Agile (MSO-421) on 19 Nov., at the yard of the Luders Marine Construction Co., Stamford, Conn. Among those attending the ceremonies were RAdm. L. A. Kniskern and Capt. C. A. Curtze from the Bureau of Ships, Washington, D. C., Capt. George M. Chambers, Supervisor of Shipbuilding, New York, Lt. Col. (USA-Ret.) and Mrs. Joseph P. Donohue of Princeton, N. J., the sponsor's father, and a number of Admiral Donohue's 1927 U. S. Naval Academy classmates. . . .

NAVY FLIGHT NURSES, soon to leave Hawaii for mainland duty, are honored at an Aloha party at Hickham AFB. Five of those so honored, all members of MATS' 1453d Air Evacuation Squadron, are: left to right, standing: Lieutenants Virginia Trujillo, Daisey Fisk, and Ginny Geer; sitting, Lieutenants Ann Rose Nevers and Elizabeth Jaeger. Not in the picture is Lt. Harriet Dixon.

Service Weddings and Engagements

COL and Mrs. John Valleau Rathbone, Jr., of Ft. Douglas, Utah, announce the engagement of their daughter, Helen Collin, to Mr. Robert Gordon St. Clair, son of Mr. and Mrs. Howard Eugene St. Clair of Annandale, Va.

The wedding is planned for 20 Dec., at St. Mark's Cathedral, Salt Lake City, Utah, with a reception following at the Ft. Douglas Officers' Open Mess.

CLEMENS-MCLAIN—Before an altar background of pink chrysanthemums, palms and cathedral tapers, Miss Jen Anne McLain, daughter of Mrs. Raymond Stallings McLain, widow of Lt. General McLain, USA-Ret., became the bride of Dr. Theodore R. Clemens, jr., in an evening ceremony, on 5 Nov., at St. Paul's Episcopal Cathedral, Oklahoma City, Okla. The bridegroom is the son of Mr. and Mrs. Clemens of Oklahoma City.

The Reverend Walton W. Davis, rector of All Souls Episcopal Church, and the Very Reverend Blake Hammond officiated.

Given in marriage by her brother, Mr. Robert D. McLain, the bride wore a gown of imported magnolia satin brocade, designed on princess lines, its fitted bodice flowing into a hooped bouffant skirt, and its sweetheart neckline and pointed sleeves embroidered with seed pearls. Her full-length French illusion veil was held by a pearl-embroidered Elizabethan hat of Alencon lace, and she carried a white Prayer Book with a white orchid marker showered with stephanotis and pink sweetheart roses.

Mrs. Harry D. Schroeder served as matron of honor and Miss June Boulogne was the maid of honor. Bridesmaids were Mesdames Andrew H. Scott, Jack W. Wilcox, Byron W. Layton and Miss Judy Riggs, with little Miss Susan Schroeder as flower girl. Mr. Stanley Hopper was best man for Dr. Clemens, and ushering were Drs. Robert M. Bird, Mark R. Johnson, Charles W. Cathy, William F. Denny, Clair I. Liebrand and Mr. Ralph Cun-

nyngham.

Mrs. Clemens is an alumna of Sullins College, Bristol, Va., and the University of Oklahoma, where she was a member of the Chi Omega sorority. The bridegroom, a graduate of the University of Oklahoma and the University's School of Medicine, interned at Wisconsin General Hospital, Madison, and took his residency at the Oklahoma University Hospital. He is a member of the Phi Beta Pi medical and Phi Kappa Psi social fraternities. He is currently on a two-year assignment at the National Institute of Health, Bethesda, Md.

Following a Florida wedding trip, Dr. Clemens and his bride will be at home, after 5 Dec., at 3 Pooks Hill Rd., Bethesda, Md.

GERARD-HOPKINS—Col. (USA) and Mrs. Armand Hopkins of Paris, France, announce the marriage of their daughter, Frances Elizabeth, to Capt. Thomas Irving Gerard, USMC, of Quantico, Va., son of Dr. and Mrs. Irving V. Gerard of Bradenton, Fla.

The marriage took place on 12 Nov. at the Ft. Myer, Va., Chapel, with Father Galland, USMC, of Quantico, officiating.

Captain and Mrs. Gerard will make their home at Melrose Gardens, Triangle, Va.

DOOLEY-MORGAN—The Autumn nuptials of Capt. Dorothy B. Morgan, ANC, of the U. S. Army Hospital, Ft. Devens, Mass., and Capt. Raphael J. Dooley, CE, of Ft. Devens, took place on 6 Nov. at the Post Catholic Chapel, Ft. Devens. The bride is the daughter of Mr. and Mrs. Albert P. Morgan of Litchfield, Ill., and the bridegroom is the son of Mr. and Mrs. Michael R. Dooley of St. Paul, Minn.

The bride was given in marriage by Col. John P. Bachman, Commanding Officer of the Devens Hospital. She wore a waltz-length white net gown with a double-tiered lace skirt and a fingertip

veil and carried a white Prayerbook. Her maid of honor was Capt. Florence Twombly, ANC, and Capt. Joseph Lingen, MPC, was the best man.

The bride, who joined the Army Nurse Corps during WW II and served in Germany, was graduated from the Missouri Baptist Hospital School of Nursing, St. Louis, Mo. The bridegroom was graduated from Dunwoody Institute of Technology, Minneapolis, Minn.

The bride will continue her service in the Army Nurse Corps and will leave for a new assignment in Germany in the near future, as will her husband.

CLARK-FULLER — Col. and Mrs. Arthur Leonard Fuller, jr., of Ft. Bliss, Tex., announce the engagement of their daughter, Alice Patricia, to Mr. Maurice Daniel Clark, jr., son of Mr. and Mrs. Clark of Washington, D. C.

Miss Fuller attended schools in Yokohama, Japan, San Francisco, Calif., and Arlington, Va. She represented the Ft. Bliss Officers' Wives' Club as duchess to the Southwestern Sun Carnival at El Paso for 1954-55. She is the granddaughter of the late Maj. and Mrs. John L. Corbett and the niece of Brig. Gen. (USAF-Ret.) and Mrs. Edwin W. Chamberlain of Rockville, Md.; her only brother, Mr. William Corbett Jones, resides in San Francisco, Calif., where he is a concert pianist and on the faculty of the Conservatory of Music.

Mr. Clark attended schools in Arlington, Va., Honolulu, T. H., and is now attending the University of Montana, Missoula, where he is majoring in Wild Life and Forestry.

The wedding is planned for 26 December at the Ft. Bliss Chapel.

INGRAHAM-DILLINGHAM — The marriage of Miss Ann Seaver Dillingham, daughter of Lt. Col. (USA) and Mrs. Paul W. Dillingham of Brooklyn, N. Y., to Mr. John Howard Ingraham, son of Mr. and Mrs. Howard Ingraham of Augusta, Me., took place on 12 Nov. at St. John's Episcopal Church, Brooklyn. The Rev. Richard H. Frye officiated.

The bride, escorted by her father, wore a floor-length gown of white taffeta with a chapel train, a fitted bodice outlined at the neck with Alencon lace, seed pearls and iridescent sequins. Her tiered fingertip veil of silk illusion was held by a headband of the lace, seed pearls and sequins, and she carried white orchids and lilies-of-the-valley.

Mrs. Karl Dornish, jr., of Hanover, N. H., was matron of honor, and Miss Deborah Dillingham was maid of honor for her sister. Miss Patricia B. Ingraham, sister of the bridegroom, and Miss Beryl

Wellersdieck were bridesmaids. Ens. Robert P. Hazzard, 3d, USNR, was best man for his cousin, and the ushers were Lt. (jg) Paul W. Dillingham, jr., USNR, brother of the bride; 2d Lt. David L. Ellison, USAR, and Mr. Farnham Folsom. The bride is a graduate of Colby College and her husband of Bowdoin College.

SHEARER-BENNETT — The Main Post Chapel, Ft. Bragg, N. C., was the setting, on 19 Nov., for the double ring ceremony uniting in marriage Miss Jean Ann Bennett and Lt. Eugene Eisenhardt Shearer. The bride is the daughter of Col. and Mrs. Cleto O. Bennett of Ft. Bragg, and parents of the bridegroom are Mr. and Mrs. Karl J. Eisenhardt of Baltimore, Md.

Given in marriage by her father, the bride wore a candlelight taffeta gown with touches of pearl-embroidered Alencon lace, its hour-glass silhouette featuring a high neckline and a full skirt terminating in a Victorian court train. Her silk illusion veil fell from a lace pillbox hat encrusted with pearls, and she carried a Colonial bouquet of ruby-throated Catleya orchids and lilies-of-the-valley.

Her matron of honor was Mrs. W. E. Keenan of Tulsa, Okla., and the two bridesmaids were Misses Marian Lepping and Betty Lenhardt. Best man for Lieutenant Shearer was Lt. Leo J. Corrigan, jr., USAF, of Tinker AFB, Okla. Groomsmen were Capt. David M. Peters, USA; Lts. Joseph B. Jones, USA, and James M. Schuette, USAF.

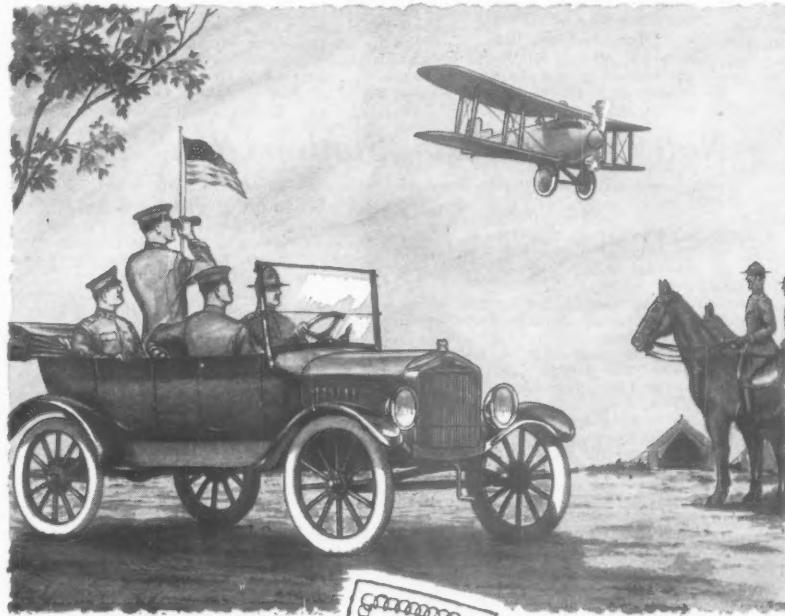

Mrs. Shearer attended college in Mu-

Army Navy Air Force Journal 25
26 Nov. 1955 (Vol. 93, P. 397)

nich, Germany, and is a graduate of the University of Arkansas. She is a member of the Pi Beta Phi sorority. Her husband was graduated from Georgetown University, Washington, D. C. He is presently assigned with the 187th Regimental Combat Team at Ft. Bragg, where he and his bride will make their home.

MEAD-JERKOVICH — Miss Lucille Jerkovich, daughter of Mrs. Mary Jerkovich of Council Bluffs, Iowa, and the late Mr. Jerkovich, became the bride of 2d Lt. Don R. Mead, son of Mr. and Mrs. Myren L. Mead of Omaha, Nebr., in ceremonies at the Grove Presbyterian Church

—Continued on next page

it's been the *Policy* of the services since 1922

Even though Ford was still making the Model "T" back in 1922 when USAA was organized, automobiles were already beginning to take on what was then referred to as the "streamlined look."

Horses then outnumbered automobiles but people had begun to talk about traffic problems and accidents were on the increase.

To meet the need of dependable low-cost automobile insurance for officers of the U.S. Armed Forces faced with their varied assignments, United Services Automobile Association was organized.

During all of its 33 years, USAA has been a non-profit organization, managed by active and retired officers. The savings made by pooling insurance funds of a preferred risk group are returned to policyholders in the form of liberal dividends. For many years USAA policyholders in the various States have enjoyed savings exceeding 40%. During 1954 nearly 6 million dollars in dividends were returned on 282,843 policies.

Membership in USAA is open to active and retired commissioned and warrant officers of the U.S. Armed

Forces in the U.S.A., its possessions and territories; in Canada, Cuba, and the Canal Zone; in Japan, the Philippines, and certain U.S. military bases in the Pacific as well as Western Continental Europe.

With a USAA policy you enjoy a confident feeling of protection. You are insured with the *oldest, largest and strongest* non-profit organization serving officers of the U.S. Armed Forces with automobile insurance. You know that you are covered in numerous areas where our armed forces serve, and claims will be quickly settled, even in the most out-of-the-way places.

When it's time to insure . . . be sure to give yourself the best . . . and save, too. Insure with USAA!

Our new home
now under construction

MRS. (CAPT.) DOOTHY DOOLEY, ANC, was the former Capt. Dorothy B. Morgan, before her marriage, on 6 Nov., to Capt. Raphael J. Dooley, C.E., of Ft. Devens, Mass.

MISS ALICE PATRICIA FULLER, daughter of Col. and Mrs. Arthur Leonard Fuller, Jr., of Ft. Bliss, Tex., whose engagement to Mr. Maurice Daniel Clark, Jr., has been announced by her parents.

MRS. THOMAS IRVING GERARD, recent bride of Captain Gerard, is the daughter of Col. (USA) and Mrs. Armand Hopkins of Paris, France, the former Miss Frances Elizabeth Hopkins.

MRS. EUGENE EISEN-HARDT SHEARER, who is the daughter of Col. and Mrs. Cleto O. Bennett of Ft. Bragg, N. C., was the former Miss Jean Ann Bennett, before her marriage to Lieutenant Elizabeth Hopkins.

MRS. TED CLEMENS, JR., daughter of Mrs. Raymond Stallings McLain, widow of Lt. General McLain, USA-Ret, who was married to Dr. Clemens, on 5 Nov., was the former Miss Jen Anne McLain.

Weddings and Engagements From preceding page

In Aberdeen, Md., on 17 Nov.

Major Virgil Seawell, Commanding Officer of the Student Officer Detachment at The Ordnance School, Aberdeen Proving Ground, gave the bride in marriage.

The bride was graduated from Abraham Lincoln High School in Council Bluffs, where she was employed until her marriage. Lieutenant Mead received his Bachelor of Science in Business Administration degree from the University of Nebraska in 1955. He is a member of Sigma Phi Epsilon fraternity.

The couple will live in Aberdeen, where he is a student in the Basic Ordnance Company Officer Course at The Ordnance School, until he leaves in a few months for assignment in the Far East.

"Messiah" At USNA

The ninth annual production of Handel's oratorio, "The Messiah," will be presented at the U. S. Naval Academy on 17-18 Dec.

The Midshipmen's Chapel Choir, under the rehearsal leadership of Midshipman First Class Sven D. Nelson, will be augmented by the female voices of the Choir of Hood College, Frederick, Md.

Professor Donald C. Gilley, Naval Academy Organist and Choirmaster, will conduct the performance, while Mr. William Sprigg, of Hood College, will be at the console of the Academy organ. The orchestral passages of the oratorio will be played by musicians from the Academy Band, Lt. M. E. Corrick, USN, Leader.

The 17 Dec. performance is open to the public. Free tickets may be obtained from the Chaplain's Office, U. S. Naval Academy. The Sunday performance is limited to midshipmen and their guests.

USMA Will Require College Board Tests

The U. S. Military Academy has been formally admitted to membership in the College Entrance Examination Board. The Academy formerly held the privileges of a member college.

As a result of the admission, the Military Academy will require successful completion of the College Board Tests by each member of the class entering in 1956.

The Scholastic Aptitude Test and Achievement Tests in Intermediate Mathematics and English Composition will be required of all competitive candidates, and of all non-competitive candidates, without at least one semester of satisfactory college work. For those candidates having acceptable college credits, only the Scholastic Aptitude Test will be required.

Any candidate not having a credit in United States History will be required to take the Social Studies Achievement Test.

Additional information regarding West Point's use of the College Board Tests is available from the Registrar, U. S. Military Academy, West Point, N. Y.

Notes from Posts, Stations, and Bases

Camp Johnson OWC

■ **NEW ORLEANS, LA.** The Officers' Wives Club of Camp Leroy Johnson met recently with an informal social hour preceding the luncheon.

The ladies were entertained by Mrs. Aline Richter Stevens, who cleverly reviewed a popular play in dialect.

During the business session, Mrs. John A. Richards, Ways and Means Chairman, presented plans for a benefit cocktail party to be held on 4 December.

Mrs. J. E. Webber and Mrs. J. D. Snider shared duties as hostesses. Guests were Mes-

dames:

Allied Officers Visit I. U. ROTC Units

■ **INDIANA U.** Col. Harry E. McKinney, USA, PMS&T and Col. John G. Gross, USAF,

PAS, of the ROTC Units at Indiana University, Bloomington, Ind., played host to 16 allied officers on 11 Nov. These officers represented Formosa, Korea, Turkey, Philippines, Indonesia, Luxembourg, Iran, and Canada. The visiting party was headed by Major General Shen Tze Lih of the Chinese Nationalist Forces on Formosa.

The visitors were welcomed jointly by Colonels McKinney and Gross and then briefed on the functions of the units by Lt. Col. Francis C. Bartle, USA, and Lt. Col. Robert L. Nelson, USAF, Directors of Training.

Mrs. Hughes Heads Club

■ **LOS ANGELES, CALIF.** The Officers' Wives' Club, Western Development Division, ARDC, held elections of officers at their monthly luncheon meeting here recently. The new officers for the club are: Mrs. Charles E. Hughes, president; Mrs. Beryl L. Boatman, vice-president; Mrs. Charles H. Terhune, jr.,

1st Cav. Div. Artillery Fetes Gen. & Mrs. Troxel

■ **CAMP YOUNGHANS, JAPAN.** A brilliant dinner party occasioned a reception for the First Cavalry Division Artillery Commander, Brig. Gen. Orlando C. Troxel, Jr., 5 Nov. Officers and their wives of the Division Artillery greeted General and Mrs. Troxel at a cocktail party.

The Camp Younghans Officers' Club was decorated in a colorful artillery motif. Dancing sharpened appetites for a broiled steak dinner.

During dinner the Garry Owen drum and bagpipe corps played Army tunes. The Short Rounds, a quartet, sang, "If Men Played Cards like Women Do" presented by four thespians from the 82d Field Artillery Battalion, including Capt. Wayne Hamilton, Lt. Robert Leach, Lt. Dennis Wilson, and Lt. Dave Lambert. Impersonating discreetly, Dilvarty's Headquarters Battery held a Command Conference in the midst of the gaiety. Maj. John Robohm, Capt. John Cassel, Lieutenants Cal Kemp, Vic DeFino, Clay Moore, and Dick Conner, and Chief Warrant Officer Aristide Fossa lost themselves in the act.

Among the distinguished guests were Col.

recording secretary; Mrs. Wilbur L. Hall, Jr., corresponding secretary; Mrs. William B. Liddicoet, treasurer; and Mrs. Donald R. Latham, assistant treasurer. Appointed committee chairmen were Mrs. Joseph D. Heck, Jr., in charge of entertainment, and Mrs. Earl M. Thompson as historian and publicity chairman.

Mrs. Bernard A. Schriever, wife of the commanding general of Western Development Division and the Wives' Club's honorary president, presented Mrs. Joseph D. Heck, Jr. with an engraved gavel as a token of appreciation for her efforts during the past six months as the organization's first president.

Hostesses for the luncheon were Messmates William A. Sheppard, David K. Lyster, Jr. and Dan D. Oxley.

French Col. Decorated

■ **MOROCCO.** Col. Joseph Loiret, French Army, Chief, French Liaison Mission, received the Legion of Merit last week from Brig. Gen. B. B. Talley, USA, Corps of Engineers, Mediterranean Division Engineer. Colonel Loiret leaves shortly for a new assignment in Europe.

The ceremony was held in the presence of the three American Service Commanders in Morocco: Maj. Gen. F. E. Glantzberg, USAF, Commanding General, 17th Air Force; Capt. C. H. Duborg, USN, Commanding Naval Activities at Port Lyautey, and General Talley.

The Mediterranean Division is the senior Army Headquarters in Morocco and is responsible for the major airbase construction there. Since 1951, the Army Engineers have supervised the construction, either through the American firm of Atlas Constructors or the French Liaison Mission, of the American Bases in Morocco. The construction has involved approximately 5,100,000 sq. yds. of runways and aprons equivalent to a first class highway 450 miles long; 200 miles of roads; 400 miles of pipe lines; 40 miles of railroads; 5,000,000 sq. ft. of floor space in warehouses and other buildings, and all the related utilities, at a cost of \$375,000,000. Work on the '56 program is now getting underway.

Mississippi Gets Radar Gear

The former battleship USS Mississippi, now a guided-missile vessel, soon will be equipped with one of the largest radar indicators ever built to meet military specifications.

Army Aviation Wives

■ **FT. BENNING, GA.** Wives of officers of The Infantry School's Airborne-Army Aviation Department entertained recently with a luncheon in the Main Officers' Mess.

Corsages of bronze chrysanthemums were presented to the 30 ladies attending. Hostesses were Mrs. Roy E. Creek and Mrs. Guy Campbell.

Among the guests were Mrs. Joseph H. Harper, wife of The Infantry School commandant; Mrs. Blair Ford, wife of the deputy assistant commandant of The Infantry School; and Mrs. John J. Tolson, wife of the director of the Airborne-Army Aviation Department.

Mrs. J. R. Reeves demonstrated several floral arrangements for the group.

Mrs. Robert Piper was welcomed to the group.

Col. Mudgett Reports

■ **LETTERMAN AH, CALIF.** Lt. Col. Louis E. Mudgett, MSC, USA, has taken over as executive officer, replacing Col. Ernest T. Sheen, USA-Ret.

Colonel Mudgett comes to Letterman from William Beaumont AH, Texas, where he had been executive officer since June 1954.

BRIG. GEN. ORLANDO C. TROXEL JR., USA, 1st Cav. Div. Arty CG, and his wife at the recent Div. Arty. Co.'s reception in the Camp Younghans Officers' Club.

Holiday of Service

Naples, Italy — Personnel of NATO Headquarters for Southern Europe have been conducting a Christmas Charity drive to collect non-perishable food-stuffs, toys and money for distribution to agencies in Naples and Bagnoli.

Camp Leroy Johnson, La. — The Officers' Wives' Club distributed Thanksgiving baskets, which were filled by canned food contributions made at the last meeting.

Camp Gordon, Ga. — The Community Welfare Fund "Parade of Dollars" went over the top recently with \$39,000 contributed to local and national charities. Maj. Briscoe C. Cox, USA, was campaign chairman.

Wiesbaden, Germany — One dollar will provide shelter and food for a Korean orphan for a day. U. S. Air Forces in Europe personnel have been told as a drive to collect funds for the reconstruction and rehabilitation of Korea got under way. The drive for funds is being conducted in the command by the American-Korean Foundation during November. Contributions will be accepted by organization project officers or can be mailed to the American-Korean Foundation, 345 East 46th St., New York, N. Y.

"Operation Toyland"

Holloman AFB, NEW MEX. "Operation Toyland," a new toy-gathering plan at Holloman Air Development Center, to make Christmas merrier for needy children, got underway as children of Holloman's Base School brought used toys to class and deposited them in an awaiting Fire Prevention truck in order that the toys may be made over into Christmas gifts.

The idea for the campaign was presented to Fire Prevention by the Dependents' Assistance Group at Holloman.

Fire Prevention posts a truck at the school building every Thursday from 11:30 a.m. to 1 p.m. until 15 Dec. After each pick-up, Fire Prevention takes the toys to their work shop to be repaired and painted.

A distribution list will be prepared and some of the toys will be given to children on the base who would appreciate them. The other toys will be sent to nearby communities for distribution.

\$6,809.71 For Charity

ROBINS AFB, GA. Three checks totaling \$6,809.71, contributed by Robins Air Force Base personnel in their 1955 Charity Crusade, have been presented to representatives of the State of Georgia and Bibb and Houston Counties at a ceremony held in Ponce, P. R.

The baked delicacies were sold down to the last crumb in practically no time, reported Mrs. Wendell Hoone, publicity chairman of the guild. The proceeds, amounting to \$118, will be distributed among the St. Michael's School for Boys, the Beggars Home and the Home for the Blind.

Mrs. Charles R. Alkire was chairman of the Bake Sale Committee and Mrs. Robert C. Dickerson was her assistant. Chaplains (Capts.) Francis R. Lewis and Charles J. Richard were the advisors to the committee.

Other charity functions soon to be offered by the Altar Guild are a Christmas wrapping project, which will enable soldiers to have their presents gift-wrapped to send home, and a clothing drive.

Food For Thanksgiving

FT. BENNING, GA. A Hard Times party was given by officers of the 29th Infantry Regiment's First Battalion recently in the Country Club. The buffet supper was attended by 48 guests.

Capt. William C. Besnier and Lt. Ernest M. Eberhardt were in charge of arrangements.

The guests brought food for Thanksgiving baskets to be distributed by Chaplain (Capt.) Paul E. Klett, 29th Infantry chaplain.

Capt. and Mrs. McBurn H. Gambill won first prize in the costume contest. Among the guests were Col. James B. Gall, commander of the Combat Training Command, and Mrs. Gall.

Lt. Col. William Humphrey, commander of First Battalion, presented a silver baby cup to Lt. and Mrs. John Pietruski.

Capt. Roger L. Horton, Lt. James E. Tate, Lt. and Mrs. Paul Jones, Lt. and Mrs. Elgert Shiflett and Lt. and Mrs. Pietruski were welcomed to the group. Farewells were bade to Lt. Charles Walker.

LOWER FOUR WIVES GET HELPFUL HAND

JOHNSON AFB, JAPAN. The proposed program of the L-4 (Lower Four Wives) Club has received a substantial boost from the Officers' Wives Club. At a luncheon meeting at the Airmen's Club, Mrs. James H. Finney, First Vice-President of the senior organization, presented a check for \$100 to the L-4 Club President, Mrs. Jess Lee, Jr. In addition to the cash, the Officers' Wives gave club members home made candy which was sold at the Base Theatre as part of a fund raising campaign.

AIR RESEARCH AND DEVELOPMENT COMMAND Headquarters recently completed its annual clothing drive sponsored jointly by the Welfare Committee of the ARDC Women's Club and the staff chaplain. The drive this year benefited local charities. Shown with some of the clothes collected are l. to r., Mrs. William J. Thomas and Mrs. Gilbert G. Smith, Co-chairman and Chairman of the Welfare Committee, Chaplain (Col.) John J. Wood, and his special assistant for the drive, A/2C Henry S. Reinert.

Benning DUSA Spend \$1500 On Welfare In Month

Ft. Benning, Ga. — Expenditure of over \$1,500 for welfare projects at Ft. Benning during November was announced at a luncheon given by Daughters of the United States Army.

Mrs. Lester L. Wheeler, Army Daughters president, said that a record player has been presented to the Fort Benning Youth Activities Club for use at Brat Barracks teenage club.

Approximately \$300 worth of toys have been purchased for the Post Children's Nursery. Curtains have been made for the nursery by Mrs. W. V. Ochs, Mrs. W. C. Sibert and Mrs. G. M. Harvey.

A letter from Maj. William R. Windham, president of the Fort Benning Little League football, thanked the

group for their gift of \$1,000 for protective equipment for Little League players.

With Army Daughters' contribution, plus a relatively small expenditure next year, the league will have enough equipment to outfit 100 boys, Major Windham reported.

One hundred helmets with protective face masks, 30 football jerseys, 30 football trousers and 30 shoulder pads were purchased with the Army Daughters' donation.

Hostesses for the luncheon were Mrs. George S. Eyster, jr., and Mrs. J. T. Carley.

Mrs. R. K. Barber was named to replace Mrs. D. V. Rattan as a JADA advisor.

Bake Sale For Charity

CAMP LOSEY, P.R. Home-baked angel-food cakes, lemon meringue pies, cookies and doughnuts quickly appeared and disappeared recently off the counters of the Camp Losey Post Exchange Cafeteria and Post Commissary. The occasion was a bake sale organized by the Camp Losey Women's Altar Guild to raise money for worthy charities in Ponce, P. R.

The baked delicacies were sold down to the last crumb in practically no time, reported Mrs. Wendell Hoone, publicity chairman of the guild. The proceeds, amounting to \$118, will be distributed among the St. Michael's School for Boys, the Beggars Home and the Home for the Blind.

Mrs. Charles R. Alkire was chairman of the Bake Sale Committee and Mrs. Robert C. Dickerson was her assistant. Chaplains (Capts.) Francis R. Lewis and Charles J. Richard were the advisors to the committee.

Other charity functions soon to be offered by the Altar Guild are a Christmas wrapping project, which will enable soldiers to have their presents gift-wrapped to send home, and a clothing drive.

Army-Navy Game Decor

FT. HOLABIRD, MD. Gratifying response to the efforts of the Officers' Wives club was demonstrated by a turnout of approximately 175 members at the monthly luncheon held 16 Nov. The luncheon committee—Mesdames William J. McDonnell, William A. Stricklen, Harold Dunmar, William R. Rainford, and William G. Slitnek—decorated the long tables with autumn leaves—pennants, footballs, and helmets stressing the Army-Navy Game motif.

Mr. Knud Hougart, portrait painter of Washington, D. C., was guest speaker.

Col. Theiring To School

BIRMINGHAM, ALA. Col. Robert G. Theiring, USA, Chief Alabama Military District left 25 Nov. to attend the Command Management School in Ft. Belvoir, Va.

The mission of the School is to provide a course of instruction for senior commanders and staff officers of the Army in the use of management techniques and principles and their application to the efficient operation of the Army's non-tactical activities.

FT. BENNING, GA. — Infantry Center headquarters wives club officers, left to right, are: Mrs. Edward J. Cavanaugh, treasurer; Mrs. David G. Wilson, reelected president for third successive term, and Mrs. Francis F. Raniny, secretary. They were installed recently for a six-month term.

Army Navy Air Force Journal 27
26 Nov. 1955 (Vol. 93, P. 399)

Ft. Sam Wives Meet

FT. SAM HOUSTON, TEX. The regular monthly coffee and business meeting was held recently by the Station Complement Officers' Wives.

Newcomer Mrs. G. D. Young was honored and welcomed into the Club by Mrs. L. B. Kovacs, president. Two departures are Mrs. W. C. Strong to Hawaii and Mrs. C. T. Singleton to Fort Polk, La.

Mrs. Henry F. Taylor, Honorary President, presided at the coffee service and was assisted by Mrs. J. M. Murphy.

Winner of the door prize was Mrs. E. A. Jaworski.

Meet Mrs. Hartshorn

FT. SILL, OKLA. More than 140 officers' wives attended a recent tea at the Polo Club, held to introduce wives of 17th Field Artillery Group to Mrs. E. S. Hartshorn, wife of the newly appointed group commander.

Honored guests at the tea were Mrs. Edward T. Williams, wife of the Fort Sill Commanding General, and Mrs. R. G. Crandall, wife of the chief of staff.

Mrs. Gordon R. Cubbison, and Mrs. R. C. Maling were in charge of arrangements. Decorations were by Mrs. R. M. Berger.

In charge of refreshments was Mrs. R. C. DuFault. Mrs. M. P. Virgil was responsible for reservations.

SMOKY HILL AFB, SALINA, KANS. — Mrs. Henry Smith and daughter Elizabeth, model mother and daughter fashions of gray flannel, trimmed with black velvet as part of the SHAFB officers' Wives club "needle and thread" fashion show.

Distinguished AFROTC Cadets

UNIVERSITY PARK, PA. The Penn State AFROTC Detachment has designated 15 men as distinguished cadets for 1956.

They are:

Anderson, David W.	Harding, James C.
Bergey, John M.	Lieske, Bruce J.
Birt, Joseph A.	Miller, Charles W.
Denlinger, Aaron H.	Miller, Robert R.
Fehr, William A.	Nelson, Ardell H.
Frederick, Joseph F.	Tedeschi, James R.
Graham, Gordon E.	Trotzman, William W.
Haas, Donald E.	

Col. Carrigan Is JAG

BREMERHAVEN, GERMANY. Col. John A. Carrigan, USA, has been assigned as staff judge advocate of the Bremerhaven POE.

Aid Children's Fund

UNIV. OF WASHINGTON, SEATTLE. A demonstration showing how to make Christmas decorations was the highlight of the University of Washington ROTC Officers' Wives Club meeting, at the Husky Student Union.

Mrs. Paul Hagen, Mrs. Frank Upjohn and

Mrs. Charles Burhauf, representatives of a Seattle charity organization, conducted the demonstration. Club members were given an opportunity to purchase decorations on display at the meeting. Proceeds of the sale will go to a disturbed children's fund in Seattle.

Hostesses included Mrs. M. E. Bingham, Mrs. O. C. Asper, and Mrs. R. W. Floyd.

MRS. JOSEPH SEVIER receives the gavel from Mrs. L. V. Green following the election of the Officers' Wives Club at Ft. Hood, Texas. Mrs. Sevier will be president for the next six months. Mrs. Green is the retiring president.

Hobbies And Guests Featured At Sheppard

■ SHEPPARD AFB, TEXAS. A special display of hobbies and introduction of guests were featured during the Thanksgiving luncheon held by the Officers' Wives Club.

Hobby collections in various categories were shown and included such items as brass and copper, ivory, costumes, dolls, items from India and Japan; Japanese art, steins, Hummel collection, music boxes, demitasse cups, fine arts, ceramics, Christmas decorations, and mobiles.

Members of the club in charge of these collections, respectively, were Mesdames W. C. Strand, J. E. Bodie, J. N. Gary, H. D. Jorgenson, James E. Kleinpeiter, H. H. Maxwell, James R. Williams, W. B. McCafferty, John Bennett, Edward H. White, M. S. Hollidge, L. F. Burel, John M. Cassidy, H. M. Rose and H. V. Smith.

Maj. Gen. Edward H. White, USAF, commander of Sheppard Air Force Base, gave an informative discussion on the Air Force.

Mrs. H. H. Maxwell, president, introduced six allied officers who were special guests also. The sextet included Captain Chan Shin, Lt. Kamuran Gumsuoy, Lt. Col. Amato Donfrancesco, Major Alfonso Giraldo, Lt. William M. Kooman and Major Toru Nagai.

Mrs. Cassidy was also an honored guest for

the occasion, since she is leaving this base in the near future. She is serving as first vice president and has been in charge of the ceramic shop for the club since February.

Mrs. J. E. Bodie served as chairman of the hostess committee for the occasion. She was assisted by Mesdames J. C. Denslow, G. Goddard, R. D. Gregory, H. H. Hunter, J. Leslie and M. E. McNab.

Presidents Receive

■ HOLLOWAY AIR DEVELOPMENT CENTER, N. M. The Officers' Wives Club held its annual tea recently, with representatives of the Alamogordo Women's Club, the Alamogordo Business and Professional Women's Club, the El Paso Chamber of Commerce Wives, the El Paso Women's Club, the Biggs Officers' Wives Club, the William Beaumont Officers' Wives Club, White Sands Proving Grounds Officers' Wives Club and the Officers' Wives stationed at nearby Sac Peak in attendance.

In the receiving line were the president of the club, Mrs. Ernest P. Luke, and the honorary officers of the Holloway Club: Mrs. L. I. Davis, wife of the Center Commander; Mrs. Thomas C. Kelly, wife of the Base Commander; Mrs. E. W. Bode, wife of the ranking Naval officer; Mrs. Hubert S. Judy, wife of the Deputy Center Commander; and Mrs. A. L. Strohn, wife of the ranking Army officer at Holloway.

Mrs. H. L. Norwood was chairman of the tea and she was assisted by Mesdames C. J. O'Bier, W. C. Tunis, J. A. Young, J. A. Edwards, R. K. Pitts, A. R. Hoffenblum, A. W. Kinney and W. M. Stowell.

Looking for something? Want to dispose of something? Use and read the Army Navy Air Force Journal's classified advertisements.

376th Bomb Wing Celebrates Return

■ BARKSDALE AFB, LA. Officers and ladies of the 376th Bomb Wing recently celebrated the wing's return from TDY overseas with a formal "Welcome Home" dance.

Guests included Mrs. Frank A. Armstrong, Jr., wife of Second Air Force Commander, Major General Armstrong, Jr., USAF, Maj. Gen. and Mrs. George Mundt, USAF, and Col. and Mrs. Everett W. Holstrom, USAF.

The floor show, directed by Maj. William Bright, USAF, had as its motif—"Strictly From Hunger"—a takeoff of life "over there."

Col. R. S. Milner, USAF, introduced Lt. Ralph Littlefield, USAF, as Master of Ceremonies. "The Five Gazelles," depicting dashing young Arabs, appeared first with their song and dance routine. Lt. Lou Endres, USAF, then sang several popular vocal numbers, followed by the "Six Bathing Beauties" with their chorus line.

A rendition of "Glen Pugue" by the Master of Ceremonies preceded Capt. R. R. Agnew, USAF, and his "Silver Trumpet." The appearance of "The Whistlers," three exotic dancers, threw the audience into an uproar.

The climax of the show was "Fatima," the donkey mascot of the Wing's Air Refueling Squadron, who appeared with her guard of honor, "The Five Gazelles." An address to Fatima was given by her able-bodied guardian Capt. J. H. Yancy.

A tribute to Col. Stephen D. McElroy, USAF, Wing Commander, was sung by the entire audience.

The committee who planned for the "Wing Ding" were Mesdames R. G. Hall, Walter Van Cleave, J. H. Ryan, Joe Carlisle, C. L. Savage, F. H. Davis, C. L. Lollar and R. J. Sousley.

FT. CAMPBELL, Ky.—The principals at the reception honoring Col. Joseph W. Stillwell, Jr., USA, new assistant commander of the 11th Airborne Division, and Mrs. Stillwell: (from left) Maj. Gen. Derrill M. Daniel, USA, Division commander, and Mrs. Daniel; the honorees; and Brig. Gen. Richard H. Harrison, USA, commander of 11th Airborne Division Artillery, and Mrs. Harrison. The party was attended by more than 300 officers and their ladies.

VETERAN 'COPTER GETS TRAINING MISSION

■ FT. BENNING, GA. "Old 242," the first H-19 Sikorsky helicopter accepted by Army Aviation, has left Lawson Army Air Field for Ft. Sill, Okla.

The old 'chopper was replaced in the 506th Helicopter Company by the H-19's big brother, the larger, stronger H-34, capable of hauling 12 fully-equipped troops. "Old 242" could transport only eight Infantrymen. At Sill, the H-19 will be put into training use. At the 506th Company it was an operation aircraft.

The H-19 began its career on 7 Feb. 1952, when it was factory tested by Sikorsky and Army pilots. In July 1952 it went to Continental Army Command's Board No. 1 at Ft. Bragg, N. C. for army evaluation. Passing these tests with flying colors, "Old 242" then came to the 506th Company.

Since that time, the helicopter has logged 600 hours in the air and transported hundreds of Infantry School students in various training problems. Among notables who rode "Old 242" were General Matthew B. Ridgway, USA-Ret., former Chief of Staff, and Secretary of Defense Charles E. Wilson.

Honor Lt. Reagan

■ ROBINS AFB, GA. A commendation ribbon (first oak leaf cluster) and a certificate of commendation have been awarded to 1st Lt. Thomas M. Reagan, officer-in-charge of the USAF Storage Branch, Warner Robins Air Materiel Area, Savannah, Ga., for his meritorious service from 5 Oct. 1954, through 30 Sept. 1955.

The presentation was made by Brig. Gen. Stanley T. Wray, WRAMA Deputy Commander, in a ceremony held at the USAF Storage Branch in Savannah. Also present at the ceremony were Col. W. B. Packard, WRAMA Director of Supply and Services, and members of Lt. Reagan's staff.

Sukiyaki Luncheon

■ JOHNSON AFB, JAPAN. A sukiyaki luncheon sponsored by the 6022d Hospital Wives was the highlight of the November Officers' Wives Club meeting. Mr. Kazutaka Watanabe, Advisor for the G-5 Section Central Command was the guest speaker. His discussion covered the phases of Japanese culture and the effects of the American contact upon the Japanese way of life.

MRS. WILLIAM H. ARNOLD (center) was the honored guest at a tea held to welcome her as a new member to the Ft. Sheridan Officers' Wives Club. Mrs. Arnold has just returned from Austria with her husband, Lt. Gen. Arnold, who recently took command of Fifth Army. Officially welcoming her are Mrs. M. Emerson, club president (left), and Mrs. Ralph E. Doty (right).

Knox Will Get New Junior High School

A Junior High School will be the newest addition to permanent school housing at Ft. Knox, Ky., according to an announcement by Mr. Herschel Roberts, Superintendent of Dependent Schools.

The school probably will be ready for occupancy in 1957.

Col. Creighton W. Abrams, USA, The Armored Center Chief of Staff, pointed out that the Junior High's completion will not only mean more desirable housing for 800 children at Fort Knox who are now attending school in sub-standard classrooms; it will mean the return to the Army of buildings now being used on a loan basis, for classrooms.

The new building will be located on a 35-acre plot in the area of the old Post Stockade, behind the Old Cantonment Hospital. The school will front on Mississippi St.; the play area in the rear will be bordered by 11th Ave.

The Junior High is the final step toward the ultimate goal of adequate permanent housing for 2700 children that post authorities and school officials have been working toward since the 630-student Crittentenberger School was completed in 1952. Other permanent schools added to the Dependent School system include Stevens, which was completed in 1953 and houses 495 students, and the new Kingsolver School—462 students—which has a completion date of March 1956. Crittentenberger and Kingsolver house children from Kindergarten through 3d grade; Stevens has Kindergarten through 4th. (A 4-room addition was completed at Stevens last week, and is now occupied by 4th grade pupils.) The High School has facilities for 275 students.

Cal. Poly Wins M1 Trophy

California State Polytechnic college's branch general Reserve Officers Training Corps, has been awarded the coveted "Warrior of the Pacific" trophy for highest average M1 rifle score during ROTC Summer camp.

Cal Poly's unit averaged 203.57 out of a possible 250 to top all other units in the United States, according to Col. P. A. Loiselle, commanding officer of the college unit. The scores of all cadets from the college at the Summer camp are included in the average on which the award is based.

CITE TOP GRAD

Brig. Gen. Elbert DeCoursey, MC, USA, Commandant of the Army Medical Service School at Ft. Sam Houston, Tex., has presented the Skinner Medal and Certificate to First Lt. John J. Castellot, MC, USA, the top graduate in a course for company level officers.

The award was originated by Dr. John O. Skinner, a physician in the Army around 1870, to emphasize the importance of field training early in the career of military medical men. The award is given to the physician in each company officer course who has the highest scholastic rating.

ORLEANS, FRANCE—Col. Eugene P. Walters, National Vice-President, Reserve Officers Association Europe, presents charter to Mrs. W. J. Proctor, President of the newly organized Orleans Chapter Reserve Officers Association Ladies. He also officially installed other elected officers, left to right, Mrs. M. Lieberman, member of Executive Council; Mrs. G. J. Dover, Treasurer; Mrs. W. A. Nunn, Second Vice President and Chaplain; Col. Walters; Mrs. Proctor; Mrs. J. B. McGuire, Vice President; Mrs. R. G. Neill, Secretary; Mrs. W. W. Colglazier, Parliamentarian; and Mrs. E. A. Jacques, member of Executive Council.

V Corps Arty. Honors

Retiring B/G Dunford

Brig. Gen. Donald Dunford, USA, gave a farewell salute to officers and men under him in V Corps Arty in a review at the Darmstadt (Germany) Airstrip marking the end of his tour as Arty CG.

The General, who retires 30 Nov. after 30 years of Army service, later flew to the United States from Rhein-Main AB.

Speaking to troops from eight V Corps Arty units, General Dunford's final words were:

"I salute the artillery, especially V Corps artillery"—at this point he raised his hand to the visor of his hat and held it there for a moment—"the best redlegs this side of heaven."

In the reviewing stand for the farewell ceremonies were nine generals, including Lt. Gen. Charles E. Hart, Corps CG, and Mrs. Hart. Also present were Lt. Gen. C. P. Cabell, AF, General Dunford's brother-in-law, Maj. Gen. Rinaldo Van Brunt, 4th Inf. Div. CG, and Brig. Gen. John C. Hayden, former 2d Armd. Div. Arty CG, who assumed command of V Corps Arty last Tuesday.

Following the presentation of a V Corps Certificate of Achievement to General Dunford, General Hart hailed him as "an outstanding soldier, a fine commander and a staunch friend."

In a written citation accompanying the Certificate General Dunford was praised for having played "a significant role in the establishment of harmonious German-American relations." He had been vice-president of the Council for the German-American Institute, a Darmstadt organization.

Army Sec'y Reminds Retired Care Need

In citing the need for increased medical officer strength (Page 1), Army Secretary Wilber M. Brucker this week also stressed the importance of care for persons on the retired list.

He told the Society of Medical Consultants that "besides the large number of dependents who are not considered in determining the doctor ratio, the Army doctor's practice also includes many retired personnel who have statutory rights to Army medical care, and certain civilians in overseas areas who are entitled to Army medical support."

Mr. Brucker has been concerned lest traditional benefits of military service be denied retired personnel.

In this connection, he approved establishment of a special Retired Activities Unit under the Adjutant General (THE JOURNAL 19 Nov.) to make certain that all retired officers, warrant officers and enlisted men are kept advised of their rights and privileges.

His action in including retired persons in the discussion of current medical problems was interpreted by Pentagon observers to reflect the Secretary's intention to safeguard the welfare of the Army's "alumni."

Lt. Richardson New JA

1st Lt. George L. Richardson, USA, has been assigned this week as Judge Advocate at the Yokohama U. S. Army Port, replacing Lt. Col. Francis A. Sadowski, USA, who has returned to the States.

RETIRED SERVICE NOTES

FAMED SILVER SET TO WEST POINT MESS

At West Point recently, a four piece silver service, formerly belonging to the late Brig. Gen. Loomis L. Langdon, USA, Class of 1854, was presented to the West Point Army Mess by his son, Brig. Gen. Russell C. Langdon, USA, Ret.

The gift carried out the provisions of the will of the original owner. Ninety-five years ago, the silver set was presented to Loomis L. Langdon, then a second lieutenant in the First Regiment of Artillery of the Regular Army, by the citizens of Brownsville, Texas, "in token of their gratitude to him in defending their lives and property from October 15th 1859 to February 7th 1860 against the attacks of the Mexican bandits."

Col. Walter J. Renfroe, USA, President of the Board of Governors of the West Point Army Mess, opened the presentation ceremony by referring to the presence of the oldest living graduate of the Academy, Maj. Gen. Henry C. Hodges, USA, Ret. He then introduced General Langdon who read the story of the Brownsville troubles of 1859 and 1860 as given in the History of the First U. S. Artillery. This account states that Lieutenant Langdon on orders from the War Department had been engaged in dismantling the abandoned army posts along the Rio Grande. Having no soldiers under his command at that time he organized the citizens into company units, established outpost positions, and brought up two cannon from another post.

Lt. Gen. B. M. Bryan, USA, Superintendent of the Academy, representing the West Point Army Mess, accepted the gift with cordial and appropriate remarks. The rooms of the Mess were filled by members of the Board of Governors and other officers and their wives. Several relatives and friends of the Langdon family were also present.

Refreshments were served and Mrs. Langdon poured tea to "initiate" the newly arrived silver service.

VAdm. Ring Heads List Of 97 USN Retirements

VAdm. Stanhope C. Ring, USN, who served as MATS Vice Commander prior to entering the U. S. Naval Hospital, Bethesda, Md., for treatment, heads the latest list of Regular Navy officer retirements.

The list of 97 retirements also includes two rear admirals, eight captains, 16 commanders, 36 lieutenants commanders, 10 lieutenants, nine lieutenants (jg), one ensign, 32 chief warrant officers, and one warrant officer.

The breakdown of chief warrants are three W-4's, 11 W-3's and eight W-2's.

All retirements became effective on 1 November.

The listed officers were placed on the Permanent Retired List for Physical Disability:

Ring, Stanhope C. VAdm.
Rucker, Preston R. Cdr.
Harpe, Henry R. CWO, (W-2).

The following officers were placed on the Temporary Disability Retired List for Physical Disability:

Watson, Frank V. LCDR.
Coppenger, Carl J. Lt.

Powers, Elmer E. Lt.

McBain, Maureen S. Lt (jg).

Williams, Hugh A. CWO (W-4).

Skarda, Elmer J. CWO (W-3).

Samuels, Lewis E. CWO (W-2).

Taylor, Clifton H. CWO (W-2).

Ambs, Chauncey E. CWO (W-2).

Lovrien, George W. WO (W-1).

The officers shown below were removed from the Temporary Disability Retired List and placed on the Permanent Retired List:

Thompson, Hugh F. RAdm.

Gurnee, Robert L. Capt.

Young, Oliver L. Capt (MSC).

Douthit, Joallen, LCDR.

Otto, Leon J. LCDR.

Shearer, Wilbur E. LCDR.

Horchier, Richard W. Lt.

Boehm, Lucien C Jr. Lt (jg).

Bower, Charles J. Lt (jg) (SC).

Pugh, Marion C. Lt (jg).

Wigley, Royal W. Lt (jg).

Williams, John C. Lt (jg).

Davies, William R. Ens.

O'Brien, LeRoy, CWO (W-2).

Prince, Elmer, CWO (W-2).

The following officers were transferred to the retired list:

Kline, Arnold R. Capt (SC).

Sledge, Alexander. Capt.

Spiller, John H. Capt.

Ozenberger, Elmer W Jr. Cdr.

Treadwell, James L. Cdr.

McCarter, Shannon H. LCDR.

Pomel, Austin B. LCDR (SC).

Sapero, James J. RAdm (MC).

Walsh, Walter T. Lt (jg).

Greene, David D. Capt (MC).

The listed temporary officers were transferred to the retired list:

Fairley, Jessie A. Cdr.

Lockwood, David S. LCDR.

The following CWO's were transferred to the retired list:

Brown, Raymond C. CWO (W-4) (SC).

Brown, William E. CWO (W-4).

Blackledge, William M. CWO (W-3).

Bondurant, Sanders G. CWO (W-3).

Buckner, Ray H. CWO (W-3).

Collier, Horace L. CWO (W-3).

Elbert, Joseph G. CWO (W-3).

Freeland, Raymond L. CWO (W-3) (SC).

Freeman, Robert C. CWO (W-3).

McConnell, Clarence W. CWO (W-3).

Tappy, Charles W. CWO (W-3).

McEurer, Harry J. (W-2).

Gordon, Merlin B. CWO (W-2).

Tidd, Aldorous J. CWO (W-2).

Cdr. John M. Owen, a temporary officer, also was transferred to the retired list.

Bixby's Pick N.C.

Brig. Gen. Ernest A. Bixby, USA, will retire 30 Nov. at Ft. Bragg, N. C., after 37 years service. He has commanded the 1st Logistical Command since returning from Europe in October 1953.

General and Mrs. Bixby intend to make their home at Biltmore Station, near Asheville, N. C.

Joins Realty Company

Col. Steve Lichene, USAR-Ref., has become a member of the Minissale Realty Company, 654 17th Street, Denver 2, Colo.

He will specialize in homes, ranches, commercial and industrial property.

Changing Station? Notify the Army Navy Air Force Journal promptly to avoid missing any issues.

LETTERMAN ARMY HOSPITAL, CALIF. — Models at the fashion show featured by the Officers' Wives Club at a recent luncheon: Mmes. Robert M. LaSalle, George J. Barry, James M. Close, and Herbert T. Berwald. Flowers were sold to support the Club's sponsorship of five Korean War Orphans.

Travel Theme for Party

FT. BELVOIR, VA. The lobby at MacKenzie Hall was transformed into a gay but unmistakable Port of Embarkation staging area for the 15 Nov. luncheon of the Officers' Wives Club. When the 150 members and their guests entered, they were given name tabs in the form of miniature ships in MSTS grey with smokestacks vivid in red, white and blue. Colorful travel posters and signs to Visits, Customs, Immunizations, Passports and Piers placarded the walls.

At the head of the winding stairway, luncheon was served in the mahogany-paneled Castle Room, and here the travel theme was again emphasized.

The guest of honor, Mrs. Samuel D Sturgis, Jr., wife of the Army's Chief of Engineers, Lt. General Sturgis, was seated with Mrs. Louis W. Prentiss, wife of the Commanding General of the Engineer Center. Others at the head table were: Mrs. Walter H. Parsons, Jr., club president; Mrs. George E. Pickett, Mrs. Jacques L. Sherman, Jr.; Mrs. Arthur C. Fillbrandt, Mrs. Alfred Eschbach, Mrs. Robert Hayden, and Mrs. Christian Hanburger.

Down from Washington for the luncheon were: Mrs. Philip B. Fleming with her guest, Mrs. John LaGuardia, Mrs. David H. Tulley and Mrs. Ralph C. Brown. Mrs. Emerson C. Itschner came with Mrs. John U. Allen and Mrs. Earle B. Butler.

Mrs. Eschbach, Mrs. Hayden and Mrs. Hanburger had charge of arrangements for the luncheon. They were assisted by: Mrs. Alfred D. Gallucci, Mrs. John B. Gibbons, Mrs. Thomas J. Osekowski, Mrs. James O. Burnley, Mrs. Kaston R. Zablackas, Mrs. Hartsell Northington, Mrs. Ross L. Spencer, Mrs. George Searfoss, and Mrs. Emil Shute.

Club Honors Gen. Eaton

SELFRIFFE AFB, MICH. Maj. Gen. R. E. L. Eaton, Tenth Air Force commander, was presented recently with a framed certificate proclaiming him an honorary member of the Selfridge Aero Club. It was presented by T/Sgt. Russell D. Best, club president and first Tencher to head the 18-month-old group whose membership has grown to more than 50. Also present was Lt. Charles L. Maynard, 36th Communications Squadron and club vice president for operations.

Best says the club recently got an OK to park its two planes—Aeronca Champ and Chief—on the base instead of at a nearby civilian airport. Like its counterparts on other bases, the club is a self-supporting organization open to all members of the military interested in flying.

ROTC Cadets Visit OQMG

UNIVERSITY OF PENNSYLVANIA. Sixteen ROTC cadets were briefed on the worldwide operations of the Army Quartermaster Corps on 18 Nov., during a visit to the Office of The Quartermaster General, Washington, D. C.

The cadets, who visited Washington, D. C. at their own expense, were welcomed by Brig. Gen. A. B. Dennington, USA, Deputy The Quartermaster General.

The cadets were served the latest operational field ration for luncheon at the Quartermaster Officers club.

Accompanying the cadets were Col. W. Singer, USA, Maj. W. E. Sheridan, and Capt. E. R. Goodlow, USA, of the ROTC faculty at the University.

Welcome Newcomers

FT. MONROE, VA. Newly arrived ladies were guests of honor recently as the Women's Club Welcoming Committee played host to a Morning Coffee in the Williamsburg Room of the Officers' Casemate Club.

Coffee and tea were served from a half-circle shaped table covered by a deep mauve cloth and backed by a large Colonial mirror. The floral centerpieces of the tea table and mantel of the fireplace were designed and arranged by Mrs. Ben Sternberg, who chose color schemes of light yellow to deep bronze depicting the arrival of the fall season.

Ladies who poured were Mrs. Edmund B. Sebree, Mrs. Bertram A. Holtzworth, Mrs. John F. Greco and Mrs. Charlie Wesner.

Hostesses for the coffee, the second in a series which the Welcoming Committee held

for new arrivals, were Mrs. Nyles W. Baltzer, Chairman, Mrs. Charlie Wesner, Co-chairman, and ladies who are members of the committee representing the various military sections of the Post.

Mrs. Bertram A. Holtzworth, Chairman of the Volunteer Services Group of the Fort Monroe Chapter of the American Red Cross; Mrs. Richard B. Bullock representing programs of the Woman's Club, and Mrs. Manlio P. DiFusco, chairman of the Membership Committee, were present to discuss their activities with the ladies.

Mrs. John E. Dahlquist, wife of General

AERO CLUB SET FOR TAKE-OFF

Bolling AFB, Wash., D. C.—The new Aero Club at Bolling AFB, Washington, D. C., is off to a flying start, with 10 charter members signed up, officers elected, and preparations begun for the purchase of the club's first aircraft.

The plane, which is expected to be ready to fly by the time members have completed their 10 to 15-hour ground school, will be "in the Piper Cub class," according to Maj. Clyde E. Rhodes, Director of Operations and Training, Headquarters Command. Major Rhodes has been project officer for the formation of the club.

Officers elected were: Maj. Richard L. Tatun, Detachment 12, 9th Weather Group, president; S/Sgt. Donald L. Waterworth, 1100th Operations Squadron, vice-president; Lt. J. A. Queen, Office of Information Services, secretary-treasurer; A/1C Donald W. Lambert, 6970th Support Group, maintenance officer; and S/Sgt. Bruce R. Barnett, Plans and Intelligence, DCS/Operations, Headquarters Command, operations officer.

Charter members elected to honorary membership: Brig. Gen. Stoyte O. Ross, Col. Norton H. Van Sicklen, and Major Rhodes.

All Air Force personnel, their dependents, and civilian employees of Bolling AFB, who are interested in aviation, are eligible to apply for membership. The initiation fee is \$50, which may be refunded upon the transfer of a member, and which is applied to the purchase of club's aircraft. The club will have one plane for each 10 members.

OTIS AFB, MASS. — The president of the Officers' Wives' Club, Mrs. Hilton B. Ramsey (center), smiles her approval as a check for \$1,913.92 is turned over to the club treasurer, Mrs. James M. Echols (right), by Mrs. James H. Haye, Welfare Chairman. The money is the net sum made at the recent Country Fair sponsored by the Club.

Cash For Ideas

FT. BENNING, GA. In addition to Letters of Appreciation and certificates, military personnel here are now eligible to receive cash awards for job improvement suggestions.

According to an announcement by J. Frank Spear of Smiths, Ala., executive secretary of the Incentive Awards Committee, the new program will begin immediately so that the three top suggestions submitted in November may be recognized.

First, second and third prizes will be \$25, \$15 and \$10 respectively.

Needle and Thread Show

SMOKY HILL AFB, BANS. The monthly luncheon and business meeting of the Officers' Wives Club took place recently when a decision was made to purchase an Isolette for the Hospital. The Isolette is an improved incubator, used in the care of premature babies.

The program of the day was a Needle and Thread Fashion Show. Members modeled their own creations, proving that "a stitch in time saves a lot more than nine!" There was also a needlework table where members displayed handwork. In charge of the fashion show were Mrs. Clayton L. Hogg, program chairman, and assisting her, Mrs. Basil B. Burnstad: script, Mrs. Richard B. Burgess and Mrs. A. E. Harrington: music, Mrs. M. J. Stublarec: needlework, Mrs. Donald Buitaup and Mrs. John W. Steen: decorations, Mrs. J. E. Arendell, and decorations for the luncheon, Mrs. Walter King and her committee. Others assisting were Mesdames James Campbell, William A. Shagner, Ray Curtis, John C. Irving and W. I. McCown.

Carrying home prizes in the needlework

were: 1st, Mrs. Edward Field, a crocheted dress, 2d, Mrs. M. M. Stricklin, a hat made of pheasant feathers, 3d, Mrs. L. G. Oden, crocheted pieces.

Winners in dressmaking were: 1st, Mrs. Charles T. Walter, a red lace cocktail dress, 2d, Mrs. James Campbell, a black velvet suit and hat, 3d, Mrs. J. Ralph, a knitted suit.

Club Marks 36th Year

PRESIDIO OF SAN FRANCISCO, CALIF. Two hundred members of the Woman's Club and their guests attended the program tea 10 Nov., to mark the 36th anniversary of the founding of the club.

Mrs. Sue R. Merriman, 3009 Clay Street, San Francisco, presided at the cake cutting ceremonies that climaxed the occasion. With Mrs. William K. Jones, Palo Alto, Calif., she was co-founder of the club. Mrs. Jones, charter president, was unable to be present at this year's anniversary program.

Lorita Baker Valley, analyst of world affairs and current literature, was guest speaker.

Mrs. Thomas J. Seigler, Mrs. Lloyd C. Parsons, Mrs. Herman Bretzer and Mrs. Frank J. Naisbett were hostesses for the program tea. Mrs. Charles L. Sampson, Mrs. George Perkins, Mrs. Peter J. Lloyd and Mrs. Leslie T. Lathrop, all wives of retired officers, presided at the tea tables.

Among the ladies attending the program tea on Thursday were Mrs. Robert N. Young, honorary president, and Mrs. Brookner W. Brady, president of the Presidio Woman's Club. Mrs. T. B. Barron, president of the Marine Officers' Wives Club of Treasure Island, Mrs. Robert L. Harvey, president of the Naval Officers' Wives Club, of Treasure

MRS. PARKS IS MEADE GOLF WINNER

FT. MEADE, MD. A golf tournament and luncheon last week marked the end of the season at the Officers' Wives Golf Club.

Winners of the tournament, at which 24 club members participated, were Mrs. Floyd L. Parks, wife of Lieutenant General Parks, Commanding General of Second Army; Mrs. Raleigh R. Hendrix, wife of Major General Hendrix, Commanding General, Second Anti-Aircraft Regional Command; Mrs. W. H. Craig, Mrs. G. E. Gomory, Mrs. E. C. Atchison, Mrs. V. L. Phipps, Mrs. E. L. Gillen, Mrs. June Fuozzo, Mrs. B. L. Lindquist and Mrs. N. H. Odem.

Mrs. Everett M. O'Brien and Mrs. Mervin L. Tjestem were welcomed as incoming Club Chairman and Co-Chairman respectively. The affair was under the supervision of outgoing club officers, Mrs. Saul Gitlin and Mrs. B. L. Lindquist.

Dahlquist, Commanding General of the Continental Army Command is Honorary President, and President is Mrs. Camden W. McConnell.

OWC Entertains French Guest

LA ROCHELLE, FRANCE. The La Rochelle District Officers' Wives Club held its semi-annual Fall French tea recently at Chateau Fort Louis, home of Col. and Mrs. S. D. Slaughter. The event was also one of a series of farewell teas for Mrs. B. S. Cairns.

Mrs. Slaughter was chairman of the tea, highlight of the Fall social season.

Mrs. John Soule headed seven French speaking hostesses who greeted more than 40 guests from La Rochelle and surrounding communities. Included among the guests were Mme. Jacques Brunel, wife of the Prefet of Charente Maritime, and Mme. Rene de Saint-Afrique, whose husband is mayor of La Rochelle.

FT. GEORGE G. MEADE, MD. — Before teeing-off for the Women's end-of-season tournament are Mrs. Marvin L. Tjestem, co-chairman for 1956, and Mrs. Everett M. O'Brien, chairman for the 1956 season.

Island, and Mrs. W. F. Martin, president of the Officers' Wives Club of Sharpe General Depot, Lathrop, Calif.

Entertain Neighbors

WILLIAM BEAUMONT ARMY HOSPITAL, TEX. The Woman's Club held its main event of the season recently when it entertained at tea clubwomen from El Paso, Juarez, Mexico and surrounding military installations.

General chairman of the tea was Mrs. George F. Peer, and co-chairman was Lt. Col. Alice M. Grigsavage, Chief Nurse. Other chairmen were: Mrs. Robert Campbell and Mrs. J. A. Dailey, invitations; Mrs. Joseph Hornisher, and Mrs. Roy Bodine, pouring; Major Alene Ness, refreshments; Mrs. Charles Alling and Mrs. W. B. Bell, serving; Mrs. John White and Mrs. Robert Hunter, appointments; Mrs. C. W. Henderson and Mrs. Allen Kane, hostesses; Mrs. A. L. Heslin, decorations; Mrs. Fred Seymour, guest book; Mrs. A. J. Vadala and Mrs. C. R. Elander, music; and Mrs. John White, publicity.

Receiving guests were Mrs. Louis Leland, club president; Mrs. Abner Zehm, wife of the hospital commander, and Mrs. J. C. Kepper, Mrs. Clyde Henderson, and Mrs. Leldon Thomason.

Presiding at the tea and punch tables during calling hours were the following guests of honor: Mmes. Tom V. Stayton, Albert G. Franklin, John M. Reynolds, Leighton Davis, W. L. Bell, G. Ralph Meyer, Terry Allen, T. D. Hurley, Earl Heathcote, Augustus A. Hall, Daniel A. Connor, George M. Edwards, Vaughn Miller, B. J. L. Hirschorn, Robert Y. Brown, R. E. Thomason, Tom Rogers, Pedro Garcia, C. Francis Jordan, Jack S. Kitchen, Brooks Travis, Newcomb Brunner, Willard Schuessler, and James W. Fitzgerald.

M/Sgt. Campagne Cops Top NC School Honors

The highest individual score ever obtained at the Fort Belvoir Non-Commissioned Officers' Leadership School is the record of M/Sgt. Leslie E. Campagne, top man in the first class of the new Advanced Leadership course of The Engineer Center Leadership School.

M/Sgt. Campagne achieved a score of 942 out of a possible 1000 points on such subjects as leadership, methods of instruction, and inspections and conduct.

Maj. Gen. Louis W. Prentiss, commanding general of The Engineer Center, U. S. Army, Fort Belvoir, Va., and Col. William S. Shoemaker, commanding officer of the 79th Engineer Group (Construction), which controls the operation of the school, extended personal congratulations to Sergeant Campagne for his achievement.

M/Sgt. Campagne resides at 117 Woodside Drive, Woodbridge, Va., with his wife, Grace, and children, Judith, 15; Alfred, 11; and Gary Lee, 9.

ARMY WIVES know finest quality is economy. For gifts for your husband in service. Select Balfour military insignia. Free pamphlet. L. G. Balfour Company, Attleboro, Mass.

INDUSTRY IN DEFENSE

Industry Groups Meet On Advance Payments

Mr. Lloyd H. Mulin, the new Director of Procurement and Production in Asst. Secy. T. P. Pike's office, held a meeting 23 Nov. with representatives of the Nat'l Security Industrial Assn., the Aircraft Industries Assn., and the Nat'l Assn. of Manufacturers to discuss the "final" draft of the proposed changes to the 15 Sept. directive of Deputy Secretary Reuben H. Robertson, Jr., limiting advances to contractors to 105 per cent of costs.

These three trade groups have led the protests against this directive and asked that it be "suspended" and that the individual Services be allowed to administer conditions for advancing funds on contracts being performed. Officials in Mr. Robertson's office indicated that the directive was issued to prevent heavy overpayments to large contractors holding incentive and price-redetermination contracts. Reports have indicated that these overpayments might total between \$600 million and \$1 billion.

The trade representatives were disappointed with the proposed changes although Pentagon officials were willing to raise the 105 per cent to "costs plus the agreed profit percentage." They insisted this new percentage should apply only to delivery costs and that advance payments on work in progress must be limited to 75 per cent. Other changes allowed advances on "provisional certification" of contractors but requiring accurate certification quarterly.

Other changes being considered by the Pentagon include the suggestion that these rules apply only to contracts above \$1 million. This provision, according to its sponsors, would eliminate review of two-thirds of all contracts yet cover 94 per cent of their dollar volume.

The proposed modifications are to be scrutinized carefully by Mr. Wilson and Mr. Robertson, both of whom are reported to be concerned by Congressional criticism that some military contractors make large profits and operate entirely on federal funds.

General Dynamics' Report

General Dynamics Corporation has reported its earnings per share of common stock were \$2.74 based on the 4,998,259 shares outstanding 30 Sept. 1955, compared with \$2.78 for the first nine months of 1954 calculated on the same basis.

In a report to its share owners, General Dynamics declared its income after United States and Canadian taxes was \$13,754,390 compared to net income of \$14,161,038 for the same period the previous year.

Its profit before taxes was \$28,779,390 for the period ending 30 Sept. of this year compared to \$30,135,038 for the same period in 1954.

Its net sales totaled \$506,133,306 for the 1955 period, while its sales during the 1954 period were \$477,829,633. Its financial position as of 30 Sept. 1955 includes a working capital of about \$123,629,000. Net worth at that date was approximately \$114,136,000.

Backlog of unfilled orders on 30 Sept. of this year, based on firm orders, contracts and letters of intent, was estimated at \$1,415,000,000, the highest level in the Corporation's peacetime history. Contracts under negotiations on that date totaled approximately \$518,000,000 more.

US-British Firms Join For Long-Range Plane

General Dynamics Corporation and the Bristol Aeroplane Co., Ltd., of England, have announced collaboration on a joint specification for a new long-range transport airplane in the 500-mile-an-hour class, to be designed around four Bristol BE-25 turboprop engines.

The combined engineering group working at San Diego will complete the technical specification by January when a further statement will be made. The intention is that the aircraft and the engines shall be produced concurrently on both sides of the Atlantic.

Navy Gets New Dual Purpose Lockheed WV-3

Specially equipped weather-reconnaissance versions of Lockheed's "flying radar stations" are now being delivered to the Navy.

The first of the new airplanes, bearing the designation "WV-3," have gone into service with Early Warning Squadron Four at Jacksonville Naval Air Station, Fla. Cdr. Robert E. Foster, USN, commands the squadron.

Designed for duty as either a long-range radar picket plane or a "hurricane hunting" aerial weather station, the new aircraft will be equipped with virtually all of the complex electronic equipment now in the WV-2 plus highly specialized meteorology instruments.

Of the Super-Constellation type, the new plane is also powered by Curtiss-Wright turbo-compound engines.

"The WV-3 is equipped to tell what's ahead in the air—whether it be invading enemy bombers or 'fair and sunny' weather," Burt C. Monesmith, vice president and general manager of Lockheed's California Division, said.

Much like earlier WV-2 radar-early-warning planes built by Lockheed, the WV-3 has a fin-like radome atop its fuselage and a bulging, blister-like radome underneath.

Specialized meteorology equipment in the WV-3 includes a unique device which instantly records the rate at which ice forms at various altitudes. Called an "ice rate meter," it replaces former instruments which were limited to measuring ice thickness after it had already accumulated on external surfaces.

Another instrument is a fast-acting, electrically operated thermometer. Attached under the fuselage, it features a "probe" which extends into the air stream and is automatically cooled at the same rate at which air flowing against the thermometer would heat its surface. Thus an adjusted reading is obtained which reflects the air's true temperature at the given altitude.

Previous temperature recorders calibrated outside temperature against altitude, humidity and other atmospheric conditions.

Application of the submarine "escape hatch" principle to the WV-3 resulted in installation of a small, pressure equalization chamber for use in releasing radio sonde balloons. It enables the weather-recording balloons to be released from within the airplane, at altitude, without depressurizing the main cabin.

GUIDED MISSILE VEEP

Richard S. Mitchell, manager of the Guided Missiles Range Division of Pan American World Airways, has been elected Vice President—Guided Missiles Range Division. Based at Patrick Air Force Base, Cocoa, Fla., the missile testing facility extends through the Bahamas and the Caribbean.

Mr. Mitchell was born in San Francisco, and began flying in 1927 for air lines in California before becoming personal pilot for William Randolph Hearst.

Test Westinghouse J-54; Cost Is \$1

RAdm. James S. Russell, USN, Chief of the Bureau of Aeronautics, in a letter to Mr. G. A. Price, President of the Westinghouse Electric Corp., has signed the Navy's acceptance for test and evaluation of a new light-weight turbojet aircraft engine.

The new engine, which the Navy has dubbed J-54, was developed at no cost to the government by Westinghouse, in cooperation with Rolls Royce, Ltd., of England. Two engines have been made available to the Navy for one dollar, and are slated to be tested at the Navy's recently dedicated Naval Air Turbine Test Station at Trenton, N. J.

Details and performance figures of the engine have not been released.

New AF Materiel Chief Keeps Busy Touring Aircraft Plants, AF Bases

Assistant Secretary of the Air Force (Materiel) Dudley C. Sharp is a busy official.

Since 1 Oct., when he took office, he has made numerous swings around the country to see the Air Force's far-flung operations at first-hand.

These trips have included visits to plants of most of the major airframe and engine manufacturers throughout the United States, to the senior Air Force commands, and to other AF installations.

Accompanied by his executive officer, Col. R. W. Gustafson, USAF, the Secretary has visited plants operated by North American, Douglas, Lockheed, Convair, Northrop, Pratt & Whitney, Boeing, and Sperry. He has made several trips to the Headquarters of the Air Materiel Command, and has visited the Strategic Air Command, Continental Air Defense Command, Tactical Air Command, and Air Research and Development Command, as well as the Air Force Missile Test Center at Patrick AFB, Melbourne, Fla.

Additionally, he has visited the Oklahoma Air Materiel Area at Tinker AFB, Oklahoma City, and the San Antonio Air Materiel Area Headquarters.

On one of his most recent trips, the Secretary toured the Lockheed Aircraft Corporation plant at Marietta, Ga., where

he saw the prop-jet C-130 Hercules in test flights and in various stages of production. The plane is the first Air Force and first U. S. prop-jet transport to go into production.

The Air Force, Mr. Sharp said, "should find many uses for a transport like this. It also should have great potentials as a freight carrier."

While at Lockheed, the Secretary said the Air Force wants "to do everything in our power to keep the most efficient production underway and at the greatest possible capacity consistent with the Air Force overall program."

At Marietta, the Secretary also inspected the operations of the Tumpene Company which maintains a tool storage and repair and modernization program for the Air Force in warehouses adjoining the Lockheed operations.

From Marietta he flew to Fort Worth, Tex., to inspect Convair operations, and from there to the San Antonio Air Materiel Headquarters. He plans to visit other facilities at the rate of one or two each month to get a first hand conception of the plants and the people who operate them.

As THE JOURNAL went to press, Secretary Sharp was completing plans to visit the Glenn L. Martin Co., in Baltimore.

Varied Uses For Gas

Turbines Are Reported

New applications of gas turbine engines—ranging from deicing to fog generation—are increasing the usefulness of this type of power source, Solar Aircraft Company, designers and manufacturers of gas turbines, state in a recent report.

Successful evaluation tests of Solar's Mars gas turbine fire pump in other applications have been carried out. In one test, the exhaust heat of the Mars fire pump was used on a Navy ship in the Arctic to remove ice from deck, bulkheads, anchor chains and hawse pipes. Another test employed the Mars unit as a fog generator. It was found that the Solar turbine's exhaust heat used to vaporize fog oil generated about four times as much fog as conventional apparatus of the same weight.

The Solar fire pump was originally developed for the Navy. Its power source is the basic Mars gas turbine engine, a 50-hp unit weighing less than 100 pounds and smaller than a two-foot cube.

The same basic Mars gas turbine is also used to power airborne generator sets installed on the Douglas C-124C Globemaster, the Lockheed C-121C Super Constellation, and the Convair C-131B flying electric laboratory. Other adaptations of the Mars engine have been ground power units for starting jet engines and as a source of compressed air.

F-105A Fighter-Bomber Completes First Flight

The Air Force announced on 21 Nov. the first flight of the Republic F-105A fighter-bomber on 22 Oct. at Edwards AFB, Calif.

Initial flight of the F-105A was made by the firm's chief experimental test pilot Russell M. "Rusty" Roth approximately one month ahead of schedule and lasted for 45 minutes. It exceeded the speed of sound on its maiden flight.

The F-105A has short, very thin swept back wings, a long cylindrical fuselage, wing root air intake ducts permitting radar equipment to be installed in the nose, and a one-piece flying tail set low on the aft section of the fuselage. It is equipped with a Pratt and Whitney J-57 engine.

IRANIAN FIRST

Ft. Benning, Ga. scored another first this week when Col. Mohammad Farivar of Iran completed The Infantry School's associate advanced class No. 1.

He is the first member of Iran's Gendarmerie (Army Police Force) ever to attend a military school in the U. S.

Ft. Belvoir Is Host

To Industrial Group

More than 200 members of the National Security Industrial Association toured Fort Belvoir, Va., last week, and observed special demonstrations and displays of Engineer equipment and operations.

The Engineer Research and Development Laboratories demonstrated newest portable and high-speed bridging for the group.

An address by Lt. Gen. Samuel D. Sturgis highlighted a special luncheon. General Sturgis praised the work of the Association, particularly in parts standardization. Outlining the spare parts situation as one of the Corps of Engineers major bottlenecks, General Sturgis added that much remains to be done.

Association members were welcomed to Ft. Belvoir by Maj. Gen. Louis W. Prentiss, USA, Commanding General.

Air Force Orders

Work Horse 'Copters

A new Air Force contract for an additional quantity of H-21 Work Horse helicopters has been awarded Piasecki Helicopter Corp., Morton, Pa., it is announced by President Don R. Berlin.

In a letter to shareholders of the corporation, Mr. Berlin said the new order represents the largest production quantity ever received by the company. "This contract," Berlin continued, "plus others currently in hand will enable the company to continue H-21 production at the maximum specified rate through 1957." Mr. Berlin told shareholders that this new contract, combined with others received during the year, has increased the company's backlog to approximately \$140,000,000 compared with \$100,000,000 at the end of 1954.

The H-21 Work Horse is a large tandem rotor helicopter capable of carrying 20 troops or two and one-half tons of cargo. Some Army Transportation Corps Helicopter Companies are already equipped with the H-21.

Navy Gives \$750,000

Radio Order To GE

The Navy has ordered \$750,000 worth of two-way radio communication equipment from the General Electric Company.

The order, the largest single one for such equipment ever placed, will be used at various Naval Air Stations.

The radio equipment will be used on Shore Patrol cars, airfield crash trucks, emergency vehicles and materials handling trucks for communication between the moving vehicle and a fixed location or other moving vehicles.

Marriages

Continued from page 32—

MARCUS DOUGHERTY — Married at the Roman Catholic Church of the Holy Family, New Rochelle, NY, 20 Nov, Miss Rosamond Wall Dougherty, daughter of Mr & Mrs Thomas Moss Dougherty, and Lt John Elder Marcus, USA, son of Mr & Mrs William Elder Marcus of New Preston, Conn.

MEAD-JERKOVICH — Married at the Grove Presbyterian Church, Aberdeen, Md, 17 Nov, Miss Lucille Jerkovich, daughter of Mrs Mary Jerkovich of Council Bluff, Iowa, and 2d Lt Don R Mead, son of Mr & Mrs Myren L Mead of Omaha, Nebr.

SCHOEN-NATHANSON — Married at New York City, 20 Nov, Miss Roberta Nathanson, daughter of Mr & Mrs Elias A Nathanson of New York, and Lt(jg) Sheldon S Schoen, MC, USNR, son of Dr & Mrs Bernard Schoen of South Orange, NJ.

SHEARER-BENNETT — Married at the Main Post Chapel, Ft Bragg, NC, 19 Nov, Miss Jean Ann Bennett, daughter of Col & Mrs Cleots O Bennett of Ft Bragg, and Lt Eugene Eisenhardt Shearer, son of Mr & Mrs Karl J Eisenhardt of Baltimore, Md.

STUART-ARMKNECHT — Married at the Harvard Congregational Church, Brookline, Mass, 19 Nov, Miss Jean Armknecht, daughter of Cdr (USN-Ret) & Mrs Richard F Armknecht, and Lt(jg) Harold William Stuart, Jr, USN, son of Mr & Mrs Stuart of Brunswick, Me.

Died

CHURCH — Died of cancer at Union Memorial Hospital, Baltimore, Md, 1 Nov, Mrs Jane Elizabeth Church, wife of Lt Col George B Church, 607 Woodbine Terrace, Towson 4, Md. In addition to her husband, she is survived by three sons, Charles, George, 3d, and Edward Church. Burial was at Arlington National Cemetery, Washington, DC.

GALBRAITH — Died 15 Nov, Capt William Winton Galbraith, USN-Ret. He is survived by his widow, Mrs Katharine Sanders Galbraith; one son, George R Galbraith of Rye, NY; and one granddaughter, Joan Galbraith. Burial was at Arlington National Cemetery, Washington, DC.

GIFFIN — Died at Mt Carmel Hospital, Columbus, O, 15 Nov, after a short illness, Lt Col Stewart Shepherd Giffin, USA-Ret, 64. He is survived by his widow, Mrs Sara Durnell Giffin of Bainbridge, O; two daughters, Mrs Arthur Roth of Ft Baker, Calif, and Mrs. Davis A Pardy of Goshen, NY; one son, Maj Stewart S. Giffin, Jr, presently stationed in Washington, DC; and one sister, Mrs Ruth G Shinn of Bainbridge. Burial was at Arlington National Cemetery, Washington, DC.

GRAY — Died at Ft Lawton, Wash, 27 Sept, Capt Byron W Gray, Ret.

GREVE — Died at East Northport, LI, NY, 12 Nov, Mrs Helen Jeanne Greve, 29, wife of Capt John H Greve. In addition to her husband, she is survived by three children.

HEARD — Died at Los Angeles, Calif, 15 Sept, Capt Alonzo Heard, Ret.

HORTON — Died at St Petersburg, Fla, 15 Aug, Maj Robert D Horton, Ret.

INGRAM — Died at Abington, Pa Hospital, 6 Sept, following emergency surgery, Mrs Ellie Girard Ingram, mother of Col Wharton G Ingram, USA-Ret, of 1486 Hillview Dr, Harbor Acres, Sarasota, Fla. In addition to her son, she is survived by two grandchildren, Michael and Merrell Ingram; and one brother and one sister. Interment was in the family plot at Mt Vernon Cemetery, Philadelphia, Pa, following services at the Huntingdon Valley Episcopal Chapel.

IVEY — Died at Tulsa, Okla, 20 Sept, 1st Lt Paul H Ivey, Ret.

JENNINGS — Died at Heidelberg, Germany, 12 Nov, Mrs Nana Jennings, mother of Mrs Mary Louise Gorby, wife of Maj Gen Alvin L Gorby, MC, presently of Heidelberg. In addition to her daughter, she is survived by another daughter, Mrs Nana Grace Sisks of Baton Rouge, La.

KUTTLER — Died at Northridge, Calif, 10 Sept, Capt Luther P Kuttler, Jr, Ret.

LEER — Died at Tooele County, Utah, 25 Sept, Lt Col Edwin J Leer, Ret.

LEWIS — Died at Mountain Home, Tenn, 8 Sept, Col Fred M Lewis, Ret.

MacARTHUR — Died at his home at Ft McClellan, Ala, 17 Nov, Col Donald P MacArthur, Post Judge Advocate. He is survived by his widow, Mrs Paule Pottier MacArthur, formerly of Fontainebleau, France; and a 5-year-old daughter, Heather Charlotte. Interment was at Arlington National Cemetery, Washington, DC.

MACNAB — Died at Tripler AH, Honolulu, TH, 4 Nov, Col Alexander J (Sandy) Macnab, USA-Ret, 78. He is survived by four sisters, Mrs Christie M Emery of 2427 Vineville Ave, Macon, Ga, Mrs H C Collins of Pacific Grove, Calif, Mrs C A Boyd of Manhasset, NY, and Mrs F P Jackson of Little Whitefish Lake, Canada. Burial was at the National Memorial Cemetery of the Pacific, Honolulu.

MCKELVEY — Died at St Albans, LI, NY, 9 Nov, Capt John M McKelvey, Ret.

MORRIS — Died at Tuscaloosa, Ala, 18 Nov, Lt Col Edward J Morris, QMC, USA-Ret, 71. He is survived by his widow, Mrs Elizabeth Morris; two sons, Edward J Morris, Jr, and Joseph P Morris, all of Clanton, Ala. Burial was at Arlington National Cemetery, Washington, DC.

MORTENSEN — Died in Germany, 11 Nov, 2d Lt Grant A Mortensen, Arty.

ORMAND — Died at Beaumont, Tex, 13 Nov, Maj Margaret L Ormand, ANC, 42, the result of injuries received in an automobile accident. Burial was in Charles City County, Va.

ORR — Died at his home at Alameda, Calif, 17 Nov, Col Edward V Orr, USNG-Ret, a veteran of 40 years service. He is survived by two sisters and two brothers.

OSTRANDER — Died at San Francisco, Calif, 3 Nov, Lt Col John J Ostrander, Ret.

PAUL — Died at Chattanooga, Tenn, 11 Sept, 1st Lt Clarence L Paul, Ret.

POOLE — Died at Charlottesville, Va, 28 Oct, Col Sidman P Poole, Ret.

QUALS — Died of cancer at Walter Reed AH, Washington, DC, 16 Nov, Mrs Ella Brand Qualls, 71, widow of Col Guy Logan Qualls, MC. She is survived by one daughter, Mrs Charles A Wilson of 1612 Cody Dr, Silver Spring, Md; one son, Mr Guy Logan Qualls of Chevy Chase, Md; and three grandchildren. Burial was at Arlington National Cemetery.

READ — Died at Norfolk, Va, 12 Nov, Mrs John Henry Read, Jr, widow of Colonel Read, of pneumonia. She is survived by one sister, Mrs Harry B Jordan of Norfolk, widow of Colonel Jordan; and one brother, Mr Eugene L Burruss of 1618 W 49th St, Norfolk. Burial was at Elmwood Cemetery, Norfolk.

ROBERTS — Died at Veterans Hosp, Long Beach, Calif, 29 Oct, Lt Col Milo Benjamin Roberts, USAFR-Ret, 47. He is survived by his widow, Mrs Hazel R Roberts, of 204 Yale Ave, Fresno, Calif, and two daughters, Mrs Merilou E Parker and Miss Mona Mary Roberts.

SCHILLING — Died at Augusta, Ga, 14 Nov, Col Karl Browne Schilling, USA-Ret, 60. He is survived by his widow, Mrs Evelyn J deM Schilling of Beach Island, Ga; and one daughter, Miss Shirley Schilling. Burial was at Ft Sam Houston, Tex.

SILK — Died at Sampson AFB, NY, 18 Nov, following surgery, Lt Col Edward A Silk, holder of the Congressional Medal of Honor. He was 39 years old. He is survived by his widow, Mrs Dorothy Eugenia Weimer Silk; and three children, George Edward, Edith Ann and Daniel Steven Silk.

SIRMYER — Died at Tampa, Fla, 5 Nov, Col Edgar A Sirmyer, USA-Ret.

SPETH — Died in the Philippines, 1 Nov, Maj Emil Speth, USA-Ret.

VAN VELSOR — Died at Albany, NY, 31 Aug, Capt Harry A Van Velsor, Ret.

WARD — Died at Newton, Mass, 15 Aug, Maj Jaye J Ward, Ret.

WHITNEY — Died at Plant City, Fla, 16 Sept, Col William T Whitney, Ret.

Obituaries

Col. Edward V. Orr, USNG-Ret.

Many old comrades of the California National Guard attended the funeral services, held under the auspices of the Alameda, Calif, American Legion Post No. 9, at the Chapel of the Chimes, Oakland, Calif., on 21 Nov, for Col. Edward V. Orr, USNG-Ret, who died at his home at Alameda, on 17 Nov.

A descendant of a pioneer California family and a relative of Robert Louis Stevenson, Colonel Orr entered the Service as an enlisted man, in 1899. He served in the Coast Artillery and saw duty in the Philippine Islands. On his discharge from the Army, he enlisted in the Signal Corps of the California National Guard, with which he served for many years as 1st sergeant. In 1916, he was commissioned a 1st lieutenant and accompanied Company B, Signal Corps, to the Mexican Border. Promoted in 1917 to captain and in command of the same unit, later designated as Company A, 115th Signal Battalion, he took the outfit to France. In 1920, Colonel Orr reorganized the Company, then known as the 40th Signal Company, and remained with it as a captain, for six years. When the organization of Headquarters, 40th Division was completed, in 1926, Colonel Orr was promoted to lieutenant colonel and named Division Signal Officer, on the staff of Maj. Gen. David P. Barrows. He continued in this assignment, until 1940, when he was retired from active duty, in the rank of colonel.

He is survived by two sisters and two brothers.

—o—

Lt. Col. Stewart S. Giffin, USA-Ret.

Burial services were held at Arlington National Cemetery, Washington, D. C.

U. S. COAST GUARD

Secretary of The Treasury—George M. Humphrey
Commandant—Vice Adm. Alfred C. Richmond

HEADQUARTERS engineers are at work on the design of a new class of vessels to replace the present 125-foot and 165-foot cutters.

The 125-footers were built in 1926-27 and have a top speed of 13 knots, while the 165-foot class were built in the early '30's and have a maximum speed of 16 knots.

As presently contemplated, the new vessels will have a waterline length of 160' and have a maximum sustained speed of 18 knots. In addition, they will be equipped to perform search and rescue and law enforcement duties. Emphasis is being given to seagoing qualities and habitability features.

Headquarters welcomes any suggestions from Coast Guardsmen as to the type of features they consider desirable in the proposed ship. Communications should be addressed to the Commandant (ENE).

The current budget allows about \$160,000 to be expended on the design of the new cutter type.

Reserve Policy Board Completes Study

The Coast Guard's Reserve Policy Board has concluded its deliberations and made its recommendations to the Secretary of the Treasury.

The board, set up under terms of Section 407 of the Armed Forces Reserve Act of 1952, considered among other matters, Reserve procurement; aspects of active duty training; training techniques and facilities; officer and enlisted qualifications; and general administrative techniques and procedures.

for Lt. Col. Stewart Shepherd Giffin, USA-Ret, who died at Mt. Carmel Hospital, Columbus, Ohio, on 15 Nov., after a short illness, at the age of 64.

Born in Bainbridge, Ohio, Colonel Giffin was graduated from the U. S. Military Academy with the Class of 1913, and saw service in both World Wars. He was recalled from retirement to serve in WWII, and returned to retirement at the conclusion of hostilities, to make his home at his birthplace, Bainbridge. As a result of his affection for this picturesque part of southern Ohio, Colonel Giffin was persuaded to become mayor of the village, which post he held from 1947, until his death.

During his career of active duty, primarily with the Coast Artillery and Anti-Aircraft units, Colonel Giffin was editor of the "Coast Artillery Journal," served as Advisor to ORC units in Philadelphia and New York, commanded various CCC elements engaged in flood control projects in New York State, and, during WWII, commanded Anti-Aircraft units deployed for the defense of the Los Angeles area.

He is survived by his widow, Mrs. Sara Durnell Giffin, of Bainbridge; two daughters, Mrs. Arthur Roth of Ft. Baker, Calif., and Mrs. David A. Pardy of Goshen, N. Y.; one son, Maj. Stewart S. Giffin, Jr., presently of 1524 N. 17th St., Arlington, Va.; and one sister, Mrs. Ruth G. Shinn of Bainbridge.

Named Open Mess Mgr.

Mrs. H. Virginia Tiller has been named to manage the Ft. MacArthur, Calif., Officers' Open Mess.

A former fashion model, Mrs. Tiller is the wife of Maj. Grover D. Tiller, USA, who is stationed in Houston, Tex. Capt. Lois C. Welsh, WAC, will continue to serve as Club Officer.

69th Gets Own March

Lt. Col. Donald T. Kellett, USA, deputy chief of staff of the 69th Infantry Division at Ft. Dix, N. J., has written a march for the division.

The march will be dedicated to Maj. Gen. Robert W. Ward, USA, division commander, at a review in his honor 10 Dec. Meanwhile, a contest is being conducted for a title for the march and lyrics.

Please send in notice of your change of address promptly.

Board members were: Captains Joseph Poys, USCGR, and Simon R. Sands, Jr., USCGR; Commanders Jay A. Hay, USCGR, and James B. N. McNally, USCGR; Lieutenant Commanders Eugene F. Tompane, USCGR, and Arnold E. Carlson, USCGR; and Lieutenant Elinor S. Appling, USCGR, (W).

ASSIGNMENT CHANGES

Captain

Brush, Charles E., CGDONE, to CGYD (Planning Officer).

Lowrey, Seary J., Collateral duty as Commander, Boston Group.

Thrall, Franklin E., MIO, New York, to SAUK (OIC).

Thompson, Frank O., IRONWOOD, to CAHOONE (EO).

"Army Medical Service School" Is New Name

In line with the broadened scope of the school's curriculum, the name of the Medical Field Service School at Brooke Army Medical Center, Ft. Sam Houston, Tex., has been changed to the Army Medical Service School.

Instruction in military medical subjects was begun at the school in 1920 at Carlisle Barracks, Pa, with emphasis on all aspects of field medical service for the Armed Forces. In 1947, the Medical Field Service School was transferred to Brooke and its residence training plan inaugurated.

Instruction includes a variety of courses for officers and enlisted men and women. All newly commissioned medical service officers receive a basic military orientation course at the school. Qualified medical service officers are eligible for additional training in such courses as hospital administration, nursing administration, military neuropsychiatry, neuropsychiatric nursing, physical therapy, medical supply and other related subjects.

Enlisted personnel are offered courses which enable them to give technical assistance to medical officers in the care of sick and wounded patients, including laboratory procedures, bedside patient care, preventative medicine, dental assistance, x-ray, food inspection, neuropsychiatric procedures, social work and operating room assistance. The commandant of the school is Brig. Gen. Elbert DeCoursey.

Award To Dr. von Braun

The 1955 American Rocket Society Astronautics Award for distinguished contribution to the science of astronautics will be presented to Dr. Werner von Braun, chief of the Army's Redstone Arsenal's Guided Missile Development Division.

Dr. von Braun, who is national director and Fellow Member of the Society and also a director of the Society's Alabama Section, was technical director of Germany's Peenemunde rocket center where the V-2 was developed during WWII.

"Arbitrary Ratio" Hurts Medical Care

From page 1—

tary service should take whatever steps are required to reverse this trend."

General Ogle said that leaders of the Armed Forces "should speak up for continued medical care for military families."

The Navy Surgeon General, RAdm. B. W. Hogan, USN, similarly has urged action to increase the number of medical officers to assure continuation of top-notch care of military men and adequate treatment for their families.

General Almond

Lt. Gen. Edward M. Almond, United States Army Retired, Commander 12th Machine Gun Bn., 4th Inf. Div. in the Aisne-Marne & Meuse-Argonne offensives during World War I. Awarded Purple Heart and Silver Star during these conflicts. Professor of Military Science and Tactics, Marion Institute, Marion, Ala. 1919-1923. Chief of Staff VI Corps, 1942. Commander 92nd Inf. Div. July 1942-Aug. 1945. Commander 2nd Inf. Div. 1945-1946. Chief of Staff to General Douglas MacArthur in General Headquarters, Far East Command 1949. Chief of Staff for United Nations Command. Commander X Corps in the Inchon Landing and other campaigns in Korea.

What Others Say...

COLONEL ALVIN M. OWSLEY, Past National Commander, American Legion: "... one of the great documents of our times. A factual account of those who betrayed our country and how the sell-out was brought about. A strong denunciation of those who would destroy us and a valiant support of the principles and ideals, honesty and morality that can save us as a Nation."

SENATOR WILLIAM A. LANGER, former Chairman, Senate Judiciary Committee: "I think it ought to be compulsory reading in every public school in the United States."

J. M. HAZLITT, syndicated columnist: "The most startling, challenging and alarming writing of the past 50 years. Things in your own memory, which seemed paradoxical and puzzling at the time, will shine forth as pieces that fit the pattern."

Over 55,000 Copies In Print!

THE BOOK THEY COULDN'T SUPPRESS

The forces of Communism and Leftism tried to suppress this book through the control they exercise over the book sections of so many newspapers and periodicals and retail book dealers. "It is a reflection on our press and great publishing houses that this book has received little or no mention among book reviews, and that every effort is being made to stop its distribution and sale," said General George Van Horn Moseley, USA (rer.).

Yet the book is now in its 14th printing with over 50,000 copies sold. Why? Because it tells the documented truth about the forces which have guided our ruinous foreign policy and about the censorship which has concealed the facts from the American people. And it was written by the

one man who could best write it. A veteran of World War I, John Beaty served nearly five years in World War II with the War Department General Staff. He wrote military studies, edited the daily intelligence summary, and headed important sections in the Military Intelligence Service.

With an established reputation as an author and scholar, a familiarity with foreign lands and languages, and his experience in Intelligence work, Colonel Beaty was uniquely prepared for the post-war research which led to the book's writing. A vitally dramatic book. Biggest reading value of the past 10 years. Only

This would make an excellent CHRISTMAS GIFT for a friend.

cal and dental officers. He noted that resignations during the past two years exceeded by 268 the number appointed.

He cited low pay, instability of assignment and inadequate housing as the main reasons for resignations. A Defense Department Task Force is getting set to make recommendations to Congress, which would improve career attractiveness for medical officers. Under study are proposals to raise their pay and accelerate promotions.

Army Adopts Insignia For Warrant Ranks

Army warrant officers are authorized to wear new grade insignia, but the old insignia is all right also until 1 Dec. 1956.

The new insignia consists of a silver or gold bar, with two or three lateral bands of brown enamel, as follows:

CWO, W-4: silver bar with three brown enamel bands.

CWO, W-3: silver bar with two brown enamel bands.

CWO, W-2: gold bar with three brown enamel bands.

WO, W-1: gold bar with two brown enamel bands.

The number of bars denoting the four warrant pay-grades is the same for all Services with the exception of color. The Navy insignia carries Navy-blue bars; the Air Force, sky-blue; and the Marine Corps, scarlet. Coast Guard warrants will wear the same insignia as Navy warrants.

SecDef Wilson O.K.'s Staff Reorganization

From page 1—

will be made Assistant Deputy Chiefs of Staff under Lt. Gen. Walter L. Weible, USA, and Lt. Gen. Clyde D. Eddleman, USA, respectively.

The G-2, Maj. Gen. Ridgely Gaither, USA, will have the title of Assistant Chief of Staff for Intelligence. This means that the senior intelligence post in the Army will be retained as a two-star billet.

In addition to the Intelligence post, four other activities will be directly responsible to the Vice Chief of Staff and Chief of Staff.

These are the Judge Advocate General, Inspector General, Chief of the National Guard Bureau and the Executive for Reserve and ROTC.

Under the Deputy Chief of Staff for Operations will be the Chiefs of Psychological Warfare, Civil Affairs and Military Government, and Military History.

The Deputy Chief of Staff for Personnel will have cognizance over the Adjutant General, Chief of Chaplains, Chief of Information and Education and the Provost Marshal General.

The Deputy Chief of Staff for Logistics has supervision over the Technical Services, while the Chief of Finance is responsible to the Comptroller.
